**Counterterrorism and Cybersecurity** Newton Lee,2013-04-15 Imagine James Bond meets Sherlock Holmes:

Counterterrorism and Cybersecurity is the sequel to Facebook Nation in the Total Information Awareness book series by Newton Lee. The book examines U.S. counterterrorism history, technologies, and strategies from a unique and thought-provoking approach that encompasses personal experiences, investigative journalism, historical and current events, ideas from great thought leaders, and even the make-believe of Hollywood. Demystifying Total Information Awareness, the author expounds on the U.S. intelligence community, artificial intelligence in data mining, social media and privacy, cyber attacks and prevention, causes and cures for terrorism, and longstanding issues of war and peace. The book offers practical advice for businesses, governments, and individuals to better secure the world and protect cyberspace. It quotes U.S. Navy Admiral and NATO's Supreme Allied Commander James Stavridis: "Instead of building walls to create security, we need to build bridges." The book also provides a glimpse into the future of Plan X and Generation Z, along with an ominous prediction from security advisor Marc Goodman at TEDGlobal 2012: "If you control the code, you control the world." Counterterrorism and Cybersecurity: Total Information Awareness will keep you up at night but at the same time give you some peace of mind knowing that "our problems are manmade – therefore they can be solved by man [or woman]," as President John F. Kennedy said at the American University commencement in June 1963.

**The Photo Ark** Joel Sartore,2017 This book of photography represents National Geographic's Photo Ark, a major cross-platform initiative and lifelong project by photographer Joel Sartore to make portraits of the world's animals -- especially those that are endangered. His message: to know these animals is to save them. Sartore intends to photograph every animal in captivity in the world. He is circling the globe, visiting zoos and wildlife rescue centers to create studio portraits of 12,000 species, with an emphasis on those facing extinction. He has photographed more than 6,000 already and now, thanks to a multi-year partnership with National Geographic, he may reach his goal. This book showcases his animal portraits: from tiny to mammoth, from the Florida grasshopper sparrow to the greater one-horned rhinoceros. Paired with the prose of veteran wildlife writer Douglas Chadwick, this book presents an argument for saving all the species of our planet.

Magpie Murders Anthony Horowitz,2017-06-06 Don't miss Magpie Murders on PBS's MASTERPIECE Mystery! A double puzzle for puzzle fans, who don't often get the classicism they want from contemporary thrillers. –Janet Maslin, The New York Times New York Times Bestseller | Winner of the Macavity Award for Best Novel | NPR Best Book of the Year | Washington Post Best Book of the Year | Esquire Best Book of the Year From the New York Times bestselling author of Moriarty and Trigger Mortis, this fiendishly brilliant, riveting thriller weaves a classic whodunit worthy of Agatha Christie into a chilling, ingeniously original modern-day mystery. When editor Susan Ryeland is given the manuscript of Alan Conway's latest novel, she has no reason to think it will be much different from any of his others. After working with the bestselling crime writer for years, she's intimately familiar with his detective, Atticus Pünd, who solves mysteries disturbing sleepy English villages. An homage to queens of classic British crime such as Agatha Christie and Dorothy Sayers, Alan's traditional formula has proved hugely successful. So successful that Susan must continue to put up with his troubling behavior if she wants to keep her job. Conway's latest tale has Atticus Pünd investigating a murder at Pye Hall, a local manor house. Yes, there are dead bodies and a host of intriguing suspects, but the more Susan reads, the more she's convinced that there is another story hidden in the pages of the manuscript: one of real-life jealousy, greed, ruthless ambition, and murder. Masterful, clever, and relentlessly suspenseful, Magpie Murders is a deviously dark take on vintage English crime fiction in which the reader becomes the detective.

**Birder Murder Mysteries 4-Book Bundle** Steve Burrows,2017-03-20 This special four-book bundle collects the first three books in the acclaimed, award-winning Birder Murder Mystery series. Includes: A Siege of Bitterns Inspector Domenic Jejeune's success has made him a poster boy for the U.K. police service. The problem is Jejeune doesn't really want to be a detective at all; he much prefers watching birds. Recently reassigned to the small Norfolk

town of Saltmarsh in the heart of Britain's premier birding country, Jejeune's worlds collide when he investigates the grisly murder of a prominent ecological activist. To unravel this mystery, Jejeune must deal with unwelcome public acclaim, the mistrust of colleagues, and his own insecurities. In the case of the Saltmarsh birder murders, the victims may not be the only casualties. A Pitying of Doves Why would a killer ignore expensive jewellery and take a pair of turtledoves as the only bounty. This is only one of the questions that piques Jejeune's interest after a senior attaché with the Mexican Consulate is found murdered alongside the director of a local bird sanctuary. The fact that the director's death has opened up a full-time research position studying birds hasn't eluded Jejeune either. Could this be the escape from policing that the celebrated detective has been seeking? A Cast of Falcons A man falling to his death from a remote cliff sets off a high-stakes chase for Inspector Domenic Jejeune, who must protect his fugitive brother and pursue a maddening foe, while any misstep could bring down wrath from above on Jejeune, his family, and the entire police force. A Shimmer of Hummingbirds (New!) The desperate departure of his fugitive brother has left Chief Inspector Jejeune rattled, and those around him nursing lingering suspicions. When evidence surfaces that may prove his brother's innocence, Jejeune decides to take a leave of absence to pursue it. But his replacement looks as if he may want the position to be more than temporary.

**A Line to Kill** Anthony Horowitz, 2021-10-19 The New York Times bestselling author of the brilliantly inventive *The Word Is Murder* and *The Sentence Is Death* returns with his third literary whodunit featuring intrepid detectives Hawthorne and Horowitz. Horowitz is a master of misdirection, and his brilliant self-portrayal, wittily self-deprecating, carries the reader through a jolly satire on the publishing world. —Booklist When Ex-Detective Inspector Daniel Hawthorne and his sidekick, author Anthony Horowitz, are invited to an exclusive literary festival on Alderney, an idyllic island off the south coast of England, they don't expect to find themselves in the middle of murder investigation—or to be trapped with a cold-blooded killer in a remote place with a murky, haunted past. Arriving on Alderney, Hawthorne and Horowitz soon meet the festival's other guests—an eccentric gathering that includes a bestselling children's author, a French poet, a TV chef turned cookbook author, a blind psychic, and a war historian—along with a group of ornery locals embroiled in an escalating feud over a disruptive power line. When a local grandee is found dead under mysterious circumstances, Hawthorne and Horowitz become embroiled in the case. The island is locked down, no one is allowed on or off, and it soon becomes horribly clear that a murderer lurks in their midst. But who? Both a brilliant satire on the world of books and writers and an immensely enjoyable locked-room mystery, *A Line to Kill* is a triumph—a riddle of a story full of brilliant misdirection, beautifully set-out clues, and diabolically clever denouements.

**Processing, second edition** Casey Reas, Ben Fry, 2014-12-19 The new edition of an introduction to computer programming within the context of the visual arts, using the open-source programming language Processing; thoroughly updated throughout. The visual arts are rapidly changing as media moves into the web, mobile devices, and architecture. When designers and artists learn the basics of writing software, they develop a new form of literacy that enables them to create new media for the present, and to imagine future media that are beyond the capacities of current software tools. This book introduces this new literacy by teaching computer programming within the context of the visual arts. It offers a comprehensive reference and text for Processing ([www.processing.org](http://www.processing.org)), an open-source programming language that can be used by students, artists, designers, architects, researchers, and anyone who wants to program images, animation, and interactivity. Written by Processing's cofounders, the book offers a definitive reference for students and professionals. Tutorial chapters make up the bulk of the book; advanced professional projects from such domains as animation, performance, and installation are discussed in interviews with their creators. This second edition has been thoroughly updated. It is the first book to offer in-depth coverage of Processing 2.0 and 3.0, and all examples have been updated for the new syntax. Every chapter has been revised, and new chapters introduce new ways to work with data and geometry. New "synthesis" chapters offer discussion and worked examples of such topics as sketching with code, modularity, and algorithms. New interviews have been added that cover a wider range of projects. "Extension" chapters are now offered online so they can be updated to keep pace with technological developments in such fields as computer vision and electronics. Interviews SUE.C, Larry Cuba, Mark Hansen, Lynn Herschman Leeson, Jürg Lehnli, LettError, Golan Levin and Zachary Lieberman, Benjamin Maus, Manfred Mohr, Ash Nehru, Josh On, Bob Sabiston, Jennifer Steinkamp, Jared Tarbell, Steph Thirion, Robert Winter

**The First 100 Days of Your Book** Joel Stafford, 2019-09-04 Today having an excellent book with an great idea isn't enough for success. Over 2,000,000 books published every year, don't expect the crowd to pick up your book and say it is a masterwork even if it is. I swear you won't find any marketing bullshit in this book: No social media is the king crap No just order a gold marketing package and problem is solved No do a giveaway or kindle free promotion and everybody will buy your book I collected all the working marketing steps for those who want to make

an impact with their books. You won't find any of the words strategy or planning in this book. I'm a practical guy and so I try to keep the bullshit and time-wasting things away from you, but I deeply believe that there are methods that should be shared with the new authors who have limited resources to do marketing. I'm focusing mainly on KDP authors, since it is the best platform to publish indie books in 2019. You will find small steps (not time-consuming), and some bigger steps in this short book which will be effective in long term. I tried to keep these steps in a linear timeline as it may happen even in real life. I hope you will enjoy reading this book, and you will find some useful resources and unique tactics that will raise your book out from the crowd.

The Silver Lining Hollye Jacobs,Elizabeth Messina,2014-03-18 A NEW YORK TIMES BESTSELLER As a healthy, happy thirty-nine-year-old mother with no family history of breast cancer, being diagnosed with the disease rocked Hollye Jacobs’s world. Having worked as a nurse, social worker, and child development specialist for fifteen years, she suddenly found herself in the position of moving into the hospital bed. She was trained as a clinician to heal. In her role as patient, the healing process became personal. Exquisitely illustrated with full-color photographs by Hollye’s close friend, award-winning photographer Elizabeth Messina, The Silver Lining is both Hollye’s memoir and a practical, supportive resource for anyone whose life has been touched by breast cancer. In the first section of each chapter, she describes with humor and wisdom her personal experience and gives details about her diagnosis, treatment, side effects, and recovery. The second section of each chapter is told from Hollye’s point of view as a medical expert. In addition to providing a glossary of important terms and resources, she addresses the physical and emotional aspects of treatment, highlights what patients can expect, and provides action steps, including: What to do when facing a diagnosis How to find the best and most supportive medical team What questions to ask What to expect at medical tests How to talk with and support children How to relieve or avoid side effects How to be a supportive friend or family member How to find Silver Linings Looking for and finding Silver Linings buoyed Hollye from the time of her diagnosis throughout her double mastectomy, chemotherapy, radiation, and recovery. They gave her the balance and perspective to get her through the worst days, and they compose the soul of the book. The Silver Lining of Hollye’s illness is that she can now use the knowledge gleaned from her experience to try to make it better for those who have to follow her down this difficult path. This is why she is sharing her story. Hollye is the experienced girlfriend who wants to help shed some light in the darkness, provide guidance through the confusion, and hold your hand every step of the way. At once comforting and instructive, realistic and inspiring, The Silver Lining is a visually beautiful, poignant must-read for everyone who has been touched by cancer.
