It includes the products of more than 8,000 chemical firms spanning 135 countries. You are able to search in three main categories: the Chemical database, the Application database and the Supplier database. The Chemical database lists over 250,000 chemical compounds. More than 150,000 of these chemicals currently have CAS Registry Numbers and over 60,000 have formulas. There are three ways to search the chemical database: by chemical name, by CAS Registry Number or by formula. You can submit full or partial names. Search results can be further narrowed by geographic region. The Application database allows you to search for specific trade name products or search by application (category) heading. The Trade Name and Classified Sections list over 25,000 chemical trade names. The Supplier database gives all pertinent contact data necessary for making direct inquiries to each chemical firm. Each supplier record includes: company name, address, phone, fax, email & web address (if applicable) and any sales offices. Suppliers can be searched by company name.

Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and

technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents.
