**Robert Powell, Richard Weeks**

Radio Relations Tiziano Bonini, Madalena Oliveira, Grażyna Stachyra, 2019-01-15 This volume gathers together revised versions of the papers presented at the ECREA Radio Research Section Conference held in Lublin, Poland, in September 2017. The book highlights what radio actually is – a medium created to connect different places at a distance. Subtle but pervasive, simple but graceful, radio builds affective relations, either between listeners and the world or between listeners themselves. The word “relations” is plural. It suggests the idea that radio is both an economic activity – related to technology, production, working routines and business – and a cultural industry – related to aesthetics, art, social interaction, education and politics. Since relations are relevantly human, we can explore how radio appeals to personal commitment and can reinforce a sense of community too. The unique value of this book lies both in erudite essays of Seán Street and Enrico Menduni, world-famous figures of radio research, and in perspectives sketched by brilliant young radio practitioners and researchers. The diverse views on radio communications from authors across the different regions of the world including Brazil, Canada, Italy, Poland, France, Hungary, Spain and the UK collected here will certainly inspire radio researchers, media historians, sociologists and journalism students.

**C# and the .NET Framework** Robert Powell, Richard Weeks, 2001 Annotation Eases developer transition to the .NET environment This book will get readers up to speed quickly with regards to the .NET Framework Highlights how C# is similar to and different from C++ The author team has been working with C# and the .NET Framework since it was in alpha (about six months before being publicly announced) This book covers topics ranging from the general principles of .NET through the C# language and how its used in ASP.NET and Windows Forms. Written by programmers for programmers, the content of the book is

intended to get readers over the hump of the .NET learning curve and provide solid practical knowledge that will make developers productive from day one. Robert Powell is Director of Engineering with Stingray Software. His work includes projects on the Objective Studio toolkits and a plethora of C# and ASP.NET based applications. Stingray software has been providing tools for MFC programmers for many years and is respected in the industry as an independent authority on Microsoft technologies. Richard Weeks is a Software Engineer at Stingray where he is currently building Client/Server infrastructure technology utilizing C#, ASP.NET and the .NET Framework.

**Jehovah's Witnesses in Europe** Gerhard Besier,2016-08-17  
The religious association of Jehovah's Witnesses has existed for about 150 years in Europe. How Jehovah's Witnesses found their way in these countries has depended upon the way this missionary association was treated by the majority of the non-Witness population, the government and established churches. In this respect, the history of Jehovah's Witnesses in Europe is also a history of the social constitution of these countries and their willingness to accept and integrate religious minorities. Jehovah's Witnesses faced suppression and persecution not only in dictatorships, but also in some democratic states. In other countries, however, they developed in relative freedom. How the different situations in the various national societies affected the religious association and what challenges Jehovah's Witnesses had to overcome – and still do in part even until our day – is the theme of this history volume.

*Selling Electronic Media* Ed Shane,1999-02-17 Selling is identifying and satisfying customer needs profitably. Profitable for

you, profitable for them. Diane Sutter, President and CEO of Shooting Star Broadcasting , owner of KTAB-TV, Abilene, Texas

This is the definition of sales used throughout Ed Shane's comprehensive and timely textbook *Selling Electronic Media*. This new definition reflects the customer-orientation of today's marketing environment as well as the product-orientation of selling. Today's selling is a win/win proposition, a win for the seller and a win for the customer. Using interviews with industry leaders and reports of their selling experiences, *Selling Electronic Media* shares insight and practical advice in the basics of selling: · prospecting · qualifying · needs analysis · presentations · answering objections · closing · relationship management

Focusing on the merging and converging of electronic media and the need for branding of media at all levels, this highly readable book offers complete coverage of advertising sales for radio, television and cable, plus the new and emerging mass communication technologies, primarily those generated by the Internet. *Selling Electronic Media* is enhanced with review highlights and discussion points and illustrated throughout with visuals used by media outlets to market commercials and their audience reach. Students pursuing sales and marketing careers in electronic media and professionals wishing to reinforce their understanding of the merging and converging media environment will find what they need in the pages of this book.
