Hindu Gods in an American Landscape E. Allen Richardson,2018-11-15 In India, Hindu images have been cast for millennia through the lost wax process and brought to life by priests—becoming not merely venerated icons but actual embodiments of gods. Second and third generation Hindu Americans have increasingly adopted a more worldly perspective toward religious objects, viewing them as symbolic rather than actual presences of the deity. The author traces the origins of this important shift, and examines Western attitudes regarding sacred objects, as well as the complex layering of traditional and modern Hindu attitudes in a globalized world.

Timberline Lodge Sarah Baker Munro,2016-11-14 Timberline is a ski lodge on the slopes of Mt. Hood, Oregon, only 65 miles from Portland. Between 1936 and 1938 and in the middle of the Great Depression, it was hand built and furnished through the Works Progress Administration. When Pres. Franklin Roosevelt came to Oregon in 1937 to dedicate the lodge, its significance as a New Deal success was confirmed. Timberline stands today as an icon of New Deal art and Cascadian architecture. Its rustic style is complemented by locally sourced and handmade wood furniture, wrought iron furnishings, and textiles. Designated as a National Historic Landmark, the lodge, a living museum, is one of Oregon's most visited sites. It is managed for the public by the US Forest Service and operated as a ski area, hotel, and tourist attraction by R.L.K. and Company.

Slavophile Empire Laura Engelstein,2011-03-15 Twentieth-century Russia, in all its political incarnations, lacked the basic features of the Western liberal model: the rule of law, civil society, and an uncensored public sphere. In Slavophile Empire, the leading historian Laura Engelstein pays particular attention to the Slavophiles and their heirs, whose aversion to the secular individualism of the West and embrace of an idealized version of the native past established a pattern of thinking that had an enduring impact on Russian political life. Imperial Russia did not lack for partisans of Western-style liberalism, but they were outnumbered, to the right and to the left, by those who favored illiberal options. In the book's rigorously argued chapters, Engelstein asks how Russia's identity as a cultural nation at the core of an imperial state came to be defined in terms of this antiliberal consensus. She examines debates on religion and secularism, on the role of culture and the law under a traditional regime presiding over a modernizing society, on the status of the empire's ethnic peripheries, and on the spirit needed to mobilize a multinational empire in times of war. These debates, she argues, did not predetermine the kind of system that emerged after 1917, but they foreshadowed elements of a political culture that are still in evidence today.

Icon and Devotion Oleg Tarasov,Oleg I Ust'evich Tarasov,2002 By tracing the artistic vocabulary, techniques and working methods of icon painters in the last 400 years, Tarasov shows how icons have been integral to the history of Russian art, influenced by folk traditions and Western European currents alike.

The Meaning of Icons Léonide Ouspensky,Vladimir Lossky,1982 The nature of the icon cannot be grasped by means of pure art criticism, nor by the adoption of a sentimental point of view. Its forms are based on the wisdom contained in the theological and liturgical writings of the Eastern Orthodox Church and are intimately bound up with the experience of the contemplative life. The present work is the first of its kind to give a reliable introduction to the spiritual background of this art. The introduction into the meaning and language of the icons by Ouspensky imparts to us in an admirable way the spiritual conceptions of the Eastern Orthodox Church which are often so foreign to us, but without the knowledge of which we cannot possibly understand the world of the icon. -- Back cover.

Icons Nikodim Pavlovich Kondakov,2012-05-08 Icon painting has reached its zenith in Ukraine between the 11th and 18th centuries. This art is appealing because of its great openness to other influences – the obedience to the rules of Orthodox Christianity in its early stages, the borrowing from Roman heritage or later to the Western breakthroughs – combined with a never compromised assertion of a distinctly Slavic soul and identity. This book presents a handpicked and representative selection of works from the 11th century to the late Baroque period.

Icon and Devotion Oleg Tarasov,2004-01-03 Icon and Devotion offers the first extensive presentation in English of the making and meaning of Russian icons. The craft of icon-making is set into the context of forms of worship that emerged in the Russian Orthodox Church in the mid-seventeenth century. Oleg Tarasov shows how icons have held a special place in Russian consciousness because they represented idealized images of Holy Russia. He also looks closely at how and why icons were made. Wonder-working saints and the leaders of such religious schisms as the Old Believers appear in these pages, which are illustrated with miniature paintings, lithographs and engravings never before published in the English-speaking world. By tracing the artistic vocabulary, techniques and working methods of icon painters, Tarasov shows how icons have been integral to the history of Russian art, influenced by folk and mainstream currents alike. As well as articulating the specifically Russian piety they invoke, he analyzes the significance of icons in the cultural life of modern Russia in the context of popular prints and poster design.

Mikhail Larionov and the Cultural Politics of Late Imperial Russia Sarah Warren,2017-07-05 In the turbulent atmosphere of early twentieth-century Tsarist Russia, avant-garde artists took advantage of a newly pluralistic culture in order to challenge orthodoxies of form as well as social prohibitions. Very few did this as effectively, or to as broad an audience, as Mikhail Larionov. This groundbreaking study examines the complete range of his work (painting, book illustration, performance, and curatorial work), and demonstrates that Larionov was taking part in a broader cultural conversation that arose out of fundamental challenges to autocratic rule. Sarah Warren brings the culture of late Imperial Russia out of obscurity, highlighting Larionov's specific interventions into conversations about nationality and empire, democracy and autocracy, and people and intelligentsia that colonized all areas of cultural production. Rather than analyzing Larionov's works within the same interpretive frameworks as those of his contemporaries in France or Germany-such as Matisse or Kirchner-Warren explores the Russian's negotiations with both nationalism and modernism. Further, this study shows that Larionov's group exhibitions, public debates, and face-painting performances were more than a derivative repetition of the techniques of the Italian Futurists. Rather, these activities were the culmination of his attempt to create a radical primitivism, one that exploited the widespread Russian desire for an authentic collective identity, while resisting imperial efforts to appropriate this revivalism to its own ends.

A Cultural Economic Analysis of Craft Anna Mignosa,Priyatej Kotipalli,2019-06-11 Are we aware of the values of craft? In this edited volume, cultural economists, researchers and professionals provide an interdisciplinary discussion of the relevance and contribution of the craft sector to the economy, as well as to society at large. Mignosa and Kotipalli bring together contributors to compare the craft sector across countries, analysing the role of institutions, educational bodies, organisations and market structure in its evolution and perception. The Western approach to craft and its subordinate position to the arts is contrasted with the prestige of craftsmanship in Eastern countries, while the differing ways that craft has attracted the attention of policy agencies, museums, designers and private institutions across regions is also analysed. This volume is vital reading to those interested in the economic features of craft and craftsmanship around the world, as well as for those interested in the importance of policy in bringing about effective sustainable development.

Secret Confession Vol.1-in the Eastern Orthodox Church Alexander Ivanovich Almazov, "Wealth without work Pleasure without conscience Science without humanity Knowledge without character Politics without principle Commerce without morality Worship without sacrifice.
<https://vidjambov.blogspot.com/2023/01/book-inventory-vladimir-djambov-talmach.html> In Russian ecclesiastical practical literature there are no studies deliberately devoted to the question of the history of secret confession. True, in recent times we have received separate publications that are closely and even directly in contact with this subject; but all of them are due not to a deliberate undertaking, but to the call of incidental circumstances. Meanwhile, in the sphere of the history of church institutions in general, the history of secret confession, in any case, is a question full of deep interest. We think that the publication of the work now proposed is sufficiently justified by both. It is not our intention to present a comprehensive history of confession; bypassing its internal, dogmatic side, we deal only with the external side, i.e., we offer a historical review of the charter of confession and church-civil resolutions related to confession. Thus, the present work is actually a ritual-canonical study. The connection here of two points of view on the subject is motivated both by a complete presentation of the external side of the confession, and by the peculiarity of the sources for studying its history. Speaking of the latter, we understand the well-known fact that the canonical and liturgical monuments for the history of confession in the Orthodox Eastern Church from time immemorial and until very recently have always been in an inseparable, genetic connection. Setting our task as a review of the actual external historical fate of confession, we then deal with this subject mainly - on the basis of handwritten sources. This is equally applicable to both the ritual and the canonical element in our study. In accordance with such a predominant nature of the sources of the proposed work, the latter embraces in the history of confession the period proper from the tenth to the sixteenth century. - Nevertheless, bearing in mind that a clear idea of the subject of our study in the period from the X century. is possible only if it is presented for the previous time, and that in some particular questions relating to the external historical fate of confession, there must certainly be data delivered from the ancient period of the Church - we found it necessary to touch somewhat on the history of confession - and in the period before 10th century In view of this, to all our research we preface, in the sense of introductory, a brief outline of the external historical fate of confession before the 10th century;

Similarly, in particular questions regarding confession discussed in the proposed work, we consider it necessary to communicate with information on them that remained from the time before the 10th century. On the other hand, bearing in mind the indisputable fact that handwritten sources in the practice of confession throughout the Orthodox East did not lose their significance even with the release of printed official church-practical publications on the subject of confession and did not lose until the very latest time - we found it necessary to present in our study the information supplied by the publications just mentioned - from the original ones to the modern ones. - In accordance with both, - this edition offers an experience of the history of secret confession, from the side outlined by us, for the entire time of its existence, and only the main preference is given to information delivered in this case by handwritten monuments. Exploring the ritual side of the subject, we took the latter in the widest possible volume. In accordance with this, in addition to the history of the charter of making confession proper, we found it obligatory for ourselves to present historical sketches and all those charters and ritual elements that are either only in close connection with confession, or owe its origin. In parallel with this, and in a canonical sense, we have set ourselves the task of investigating, as far as possible, the full cycle of questions related to this. Reviewing the subject of research within such limits prompted us to touch upon an abundance of private questions that are in contact with confession. All this led us to the publication of the work, which, in view of its volume, we are compelled to divide into two books, while publishing separate appendices to one and the other of them. – The first of these books is devoted to reviewing the general statute of confession; the second one introduces special statutes and individual elements of prayer related to confession, as well as ecclesiastical and civil regulations regarding the object and subject of confession. The handwritten documents that served as sources for our work, with the exception of three or four, are neither in our country nor in Western literature: they have not yet been published 1 . In view of this, we had to get acquainted with them in Greek and Slavic-Russian originals. Taking into account the large number of such documents, and in particular their remarkable diversity, we were forced, in order to properly elucidate the subject we have touched upon, to get acquainted with the manuscripts as widely as possible. The latter was achieved to some extent by us, since we had the opportunity to study the handwritten codices related to our subject in the most important Russian libraries, in three Western European and three in Eastern Europe.
