Citizen, Customer, Partner John Clayton

Thomas, 2014-12-18 For almost a half a century, scholars and practitioners have debated what the connections should be between public administration and the public. Does the public serve principally as citizen-owners, those to whom administrators are responsible? Are members of the public more appropriately viewed as the customers of government? Or, in an increasingly networked world, do they serve more as the partners of public administrators in the production of public services? This book starts from the premise that the public comes to government not principally in one role but in all three roles, as citizens and customers and partners. The purpose of the book is to

address the dual challenge that reality implies: (1) to help public administrators and other public officials to understand the complex nature of the public they face, and (2) to provide recommendations for how public administrators can most effectively interact with the public in the different roles. Using this comprehensive perspective, Citizen, Customer, Partner helps students, practitioners, and scholars understand when and how the public should be integrated into the practice of public administration. Most chapters in Citizen, Customer, Partner include multiple boxed cases that illustrate the chapter's content with real-world examples. The book concludes with an extremely useful Appendix that collects and summarizes the 40 Design Principles – specific advice for public organizations on working with the public as customers, partners, and citizens.

Fraudulent Intention\$ Scott Hilsen, 2011-04-27
Based on the true story of a corporate deal gone bad and the internal investigation that exposed a shocking online fraud. For SouthPoint Bank, its purchase of Internet Connections, or ICon, was a risky way to boost its stock price, and the deal was rushed so that the Chairman of SouthPoint could stay in power. For ICon, being acquired by SouthPoint was its last chance to cash in on the Internet boom, but the President of ICon was looking for more than money he needed a way to escape a secret that ICon had been concealing through a conspiracy of fraud. After an insiders tip, SouthPoint launched a surprise internal investigation of ICon. When the investigators found a connection between ICon and the Russian Mafia, the investigation suddenly turned into a dangerous race against the clock to expose the fraud and to save SouthPoint from financial ruin. From Andorra in the Pyrenees Mountains to Antigua in the Caribbean Sea, *Fraudulent Intention\$* twists and turns around the shadowy world of online adult entertainment.

Icons of Black America [3 volumes] Matthew Whitaker,2011-03-09 This stunning collection of essays illuminates the lives and legacies of the most famous and powerful individuals, groups, and institutions in African American history. The three-volume Icons of Black America: Breaking Barriers and Crossing Boundaries is an exhaustive treatment of 100 African American people, groups, and organizations, viewed from a variety of perspectives. The alphabetically arranged entries illuminate the history of highly successful and influential individuals who have transcended mere celebrity to become representatives of their time. It offers analysis and perspective on some of the most influential black people,

organizations, and institutions in American history, from the late 19th century to the present. Each chapter is a detailed exploration of the life and legacy of an individual icon. Proceedings of the 2001 Fourth International Conference on Cognitive Modeling Erik M.

Altmann,Axel Cleeremans,Christian D. Schunn,Wayne D. Gray,2001-07-01 This book documents the proceedings of the Fourth International Conference on Cognitive Modeling (ICCM), which brought together researchers from diverse backgrounds to compare cognitive models; evaluate models using human data; and further the development, accumulation, and integration of cognitive theory. ICCM provides a worldwide forum for cognitive scientists who build computational cognitive models and test them against empirical cognitive data. New features of the conference included the Newell Award for best student paper, the Siegel-Wolf Award for best applied research paper, and a Doctoral Consortium which provided an opportunity for students to meet their peers and mentors and to explore their dissertation work in an intense but friendly, multi-approach environment. These new features, as well as a comprehensive view of the posters presented at the conference are offered in this volume.
