Unlocking the Nature of Human Aggression Adrian Perkel, 2023-12-12 Unlocking the Nature of Human Aggression is a neuropsychanalytic and scientific exploration of aggression and argues for its central role in psychopathology and the genesis of individual symptoms, as well as in broader systemic conflicts and violence. Adrian Perkel creates a unique theoretical approach to the various manifestations we encounter of individual, group, and geopolitical aggression and destructiveness. Based on psychoanalytic investigations of this dynamic and Freud's incomplete exploration of this human drive, this book seeks to understand the science of aggression that Freud himself suggested would be possible with time and scientific development. Perkel investigates the commonplace inversion of the perpetrator and victim narratives, navigating through the complexity of how the aggressive drive, often driven by feelings aimed at homeostatic regulation, challenges the perception of any objective view of who is perpetrator and who victim. He includes his own personal experiences of South African Apartheid, as well as historical and contemporary data such as speeches from historical figures during times of war, including the Second World War and the Ukrainian/Russian conflict. Offering a fresh and innovative insight into the nature of this paradoxical drive in humans, this book integrates the psychology, psychodynamics, and neuroscience of modern research into a coherent exposition of this key aspect of psychic functioning in humans. It is an essential read for analysts in practice and training, psychologists and other mental health professionals, and students looking for a modernised theoretical model of the destructive and aggressive drive of the psyche to facilitate better interventions for individual and couple patients and for interventions at systemic and organisational levels.

Unlocking the Emotional Brain Bruce Ecker, Robin Ticic, Laurel Hulley, 2022-03-23 In *Unlocking the Emotional Brain*, authors Ecker, Ticic, and Hulley equip readers to carry out focused, empathic therapy using the potent process of memory reconsolidation, the recently discovered and only known process for actually unlocking emotional memory at the synaptic level. The Routledge classic edition includes a new preface from the authors describing the book's widespread impact on psychotherapy since its initial publication. Emotional memory's tenacity is the familiar bane of therapists, and researchers had long believed that emotional memory forms indelible learning. Reconsolidation has overturned these views. It allows new learning to truly nullify, not just suppress, the deep, intensely problematic emotional learnings that form, outside of awareness, during childhood or in later tribulations and generate most of the symptoms that bring people to therapy. Readers will learn methods that precisely eliminate unwanted, ingrained emotional responses—whether moods, behaviors, or thought patterns—causing no loss of ordinary narrative memory, while restoring clients' well-being. Numerous case examples show the versatile use of this process in AEDP, coherence therapy, EFT, EMDR, and IPNB.

Unlocking the Prophetic Mysteries of Israel Jonathan Bernis, 2017-11-07 We are witnessing things today that the prophets of Israel longed to see. God is fulfilling His Word in our generation! If you want to understand what God is doing in these last days, you must understand what He is doing with Israel. It is here that the Bible's prophecies regarding the end of the age will all unfold. Jonathan Bernis, host of the internationally popular television program *Jewish Voice With Jonathan Bernis*, with this fascinating book unlocks a greater knowledge about the last days. The book explores questions such as: What crucial role does Israel play in the last days? Why is anti-Semitism on the rise worldwide, and what is at its root? What is the seed promise, and why is Satan so angry about it? What profound promise did God make to Abraham that applies to you today?

Unlocking the Book of Hebrews Annang Asumang, 2008-02-01 While the intensely captivating language of the Epistle to the Hebrews may stir and invigorate modern New Testament readers to renewed spiritual energy, readers often remain clueless as to the book's overall theme and message. Despite the tendency for preachers to use various verses of the book of Hebrews as proof texts, few preachers today systematically expound the passages of Hebrews so that its general thesis is more clearly understood, so that it is practically applied for daily Christian living and witness. The different proposals about the epistle's uniting argument have not resulted in scholarly consensus; neither have they diminished the common impression about the epistle's difficulty. For such an important book of the Bible, given that the book of Hebrews skillfully bridges our understanding of the two testaments into one whole, such a situation is, to say the least, unsatisfactory. The Epistle to the Hebrews utilizes the language of spaces in its expositions and the language of movement in its exhortations, with powerful rhetorical effects; yet few studies have attempted to analyze the book from this perspective. In this study, Asumang employs models from the interdisciplinary social-science investigative methodology of spatiality to analyze Hebrews. He demonstrates that the author of Hebrews interpreted the migrating camp of the Israelites in the wilderness, depicted in the book of Numbers, through a Christ-tinted lens and that the Hebrews writer applied these lessons to the grave pastoral condition of his congregation. When examined from this perspective, the Epistle to the Hebrews proves to be a most potent recipe for spiritual formation and Christian discipleship today.

Unlocking the Love-Lock Ceri Houlbrook, 2021-01-13 Explores the worldwide popularity of the love-lock as a ritual

token of love and commitment by considering its history, symbolism, and heritage. “[T]his is an eminently enjoyable and thorough investigation of a popular phenomenon through the lens of heritage and folk tradition.”—Sara De Nardi, Western Sydney University A padlock is a mundane object, designed to fulfil a specific – and secular – purpose. A contemporary custom has given padlocks new significance. This custom is ‘love-locking’, where padlocks are engraved with names and attached to bridges in declaration of romantic commitment. This custom became popular in the 2000s, and its dissemination was rapid, geographically unbound, and highly divisive, with love-locks emerging in locations as diverse as Paris and Taiwan; New York and Seoul; Melbourne and Moscow. From the introduction: I was distractedly perusing the photo frame aisle, my eyes skimming the generically sentimental stock pictures of happy families smiling at the camera, pretty landscapes, cute pets and couples walking hand-in-hand, when I came across one that jumped out at me.... I recognised the image instantly as a photograph of love-locks: the padlocks that had been appearing en masse on bridges and other public structures on a global scale since the early 2000s. And, having been researching the custom known as lovelocking for about five years at that point, it was with a peculiar sense of pride that I realised love-locks had accomplished the status of a stock image.
