1,003 Ways to Stay Young Ann Hodgman,2007-03 Hodgman . . . [brings her] signature quirky but acceptably outrageous perspective to contemporary American lifestyles and customs. -The Oklahoman * Keep those AARP cards at home, avoid three-way mirrors like the plague, and for goodness' sake, no more groaning. * Extend that youthful longevity with the tenth title in the successful 1,003 series. BOTOX, laser-peels, antiwrinkle creams-an estimated 90 million Americans over the age of 45 are looking for the fountain of youth wherever they can find it. Ann Hodgman offers 1,003 youthful approaches to turn back the hands of time, including: * It's never too late to start using sunscreen. And, if it is too late for that, it's really never too late to get a peel. * Never admit you don't know how to use your iPod. * Keep the news that you take Lipitor to yourself. * I refuse to admit that I am more than 52, even if that makes my children illegitimate. -Lady Nancy Astor

1,003 Great Things About Being Jewish Lisa Birnbach,Ann Hodgman,Polly Stone,2006-03 With their trademark quirky perspective, authors Lisa Birnbach, Ann Hodgman, and Patricia Marx have created yet another surefire hit! More Info About 1,003 Great Things About Being Jewish From the trio responsible for the successful 1,003 series-comes 1,003 Great Things About Being Jewish, the perfect humorous gift book to celebrate being Jewish. Just a sampling of the gems within: * They say Aunt Rose's matzo balls could sink a ship . . . in case you're interested in doing that. * Everyone knows that kosher hot dogs rule. * A Hanukkah bush is a lot easier to bring home than a Christmas tree. * Cool-looking blue and silver wrapping paper instead of red and green. * Where else does a 13-year-old get to say, Today, I am a man? * The remarkable thing about my mother is that for 30 years, she served nothing but leftovers. The original meal has never been found. -Calvin Trillin 1,003 Great Things About Being Jewish is sure to have everyone smiling, laughing, and appreciating all things Jewish.

They're the special breed of people who strive to infuse us with an appreciation for the miraculous world in which we live and a sincere passion for learning. Modeling and Computation in Engineering III Lei Zhang,Liquan Xie,2014-06-11 The demands of modeling and computation in engineering are rapidly growing as a multidisciplinary area with connections to engineering, mathematics and computer science. Modeling and Computation in Engineering III contains 45 technical papers from the 3rd International Conference on Modeling and Computation in Engineering (CMCE 2014, 28-29 June 2014, including 2014 Hydraulic Engineering and Environment Workshop, HEEW 2014). The conference serves as a major forum for researchers, engineers and manufacturers to share recent advances, discuss problems, and identify challenges associated with modeling technology, simulation technology and tools, computation methods and their engineering applications. The contributions showcase recent developments in the areas of civil engineering, hydraulic engineering, environmental engineering and systems engineering, and other related fields. The contributions in this book mainly focus on advanced theories and technology related to modeling and computation in civil engineering, hydraulic structures, hydropower and management, coastal reclamation and environmental assessment, flood control, irrigation and drainage, water resources and water treatment, environmental management and sustainability, waste management and environmental protection, pollution and control, geology and geography, mechanics in engineering, numerical software and applications. Although these papers represent only modest advances toward modeling and computation problems in engineering, some of the technologies might be key factors in the success of future engineering advances. It is expected that this book will stimulate new ideas, methods and applications in ongoing engineering advances. Modeling and Computation in Engineering III will be invaluable to academics and professionals in civil engineering, hydraulic engineering and environmental engineering.
