Wuthering Heights (Seasons Edition -- Winter) Emily Bronte, 2019-12-10 “My love for Linton is like the foliage in the woods: time will change it, I’m well aware, as winter changes the trees. My love for Heathcliff resembles the eternal rocks beneath: a source of little visible delight, but necessary.” – *Wuthering Heights*, Emily Bronte In the classic *Wuthering Heights* Catherine is forced to choose between passionate, tortured gypsy Heathcliff and gentle, well-bred Edgar Linton. Catherine surrenders to the expectations of her class and sets off a domino effect with lasting consequences. As Heathcliff’s bitterness and vengeance at his betrayal are visited upon the next generation, their innocent heirs must struggle to escape the legacy of the lovers tortured past. This e-book includes select, highly designed pages featuring quotes about the winter season. The Seasons Edition - Winter collection includes *Little Women*, *Pride and Prejudice*, *A Tale of Two Cities*, and *Wuthering Heights*.

Hot Embossing Matthias Worgull, 2009-09-28 This book is an overview of replication technology for micro- and nanostructures, focusing on the techniques and technology of hot embossing, a scaleable and multi-purpose technology for the manufacture of devices such as BioMEMS and microfluidic devices which are expected to revolutionize a wide range of medical and industrial processes over the coming decade. The hot embossing process for replicating microstructures was developed by the Forschungszentrum Karlsruhe (Karlsruhe Institute of Technology) where the author is head of the Nanoreplication Group. Worgull fills a gap in existing information by fully detailing the technology and techniques of hot embossing. He also covers nanoimprinting, a process related to hot embossing, with examples of actual research topics and new applications in nanoreplication. *A practical and theoretical guide to selecting the materials, machinery and processes involved in microreplication using hot embossing techniques. *Compares different replication processes such as: micro injection molding, micro thermoforming, micro hot embossing, and nanoimprinting *Details commercially available hot embossing machinery and components like tools and mold inserts

The Religion Tim Willocks, 2008-04-29 This is what we dream of: to be so swept away, so poleaxed by a book that the breath is sucked right out of us. Brace yourselves. May 1565. Suleiman the Magnificent, emperor of the Ottomans, has declared a jihad against the Knights of Saint John the Baptist. The largest armada of all time approaches the knights' Christian stronghold on the island of Malta. The Turks know the knights as the Hounds of Hell. The knights call themselves The Religion. In Messina, Sicily, a French countess, Carla La Penautier, seeks passage to Malta in a quest to find the son taken from her at his birth

twelve years ago. The only man with the expertise and daring to help her is a Rabelaisian soldier of fortune, arms dealer, former janissary, and strapping Saxon adventurer by the name of Mattias Tannhauser. He agrees to accompany the lady to Malta, where, amid the most spectacular siege in military history, they must try to find the boy—whose name they do not know and whose face they have never seen—and pluck him from the jaws of Holy War. The Religion is the first book of the Tannhauser Trilogy, and from the first page of this epic account of the last great medieval conflict between East and West, it is clear we are in the hands of a master. Not since James Clavell has a novelist so powerfully and assuredly plunged readers headlong into another world and time. Anne Rice transformed the vampire novel. Stephen King reinvented horror. Now, in a spectacular tale of heroism, tragedy, and passion, Tim Willocks revivifies historical fiction.

Fires of Gold Lauren Coyle Rosen, 2020-04-21 *Fires of Gold* is a powerful ethnography of the often shrouded cultural, legal, political, and spiritual forces governing the gold mining industry in Ghana, one of Africa's most celebrated democracies. Lauren Coyle Rosen argues that significant sources of power have arisen outside of the formal legal system to police, adjudicate, and navigate conflict in this theater of violence, destruction, and rebirth. These authorities, or shadow sovereigns, include the transnational mining company, collectivized artisanal miners, civil society advocacy groups, and significant religious figures and

spiritual forces from African, Islamic, and Christian traditions. Often more salient than official bodies of government, the shadow sovereigns reveal a reconstitution of sovereign power—one that, in many ways, is generated by hidden dimensions of the legal system. Coyle Rosen also contends that spiritual forces are central in anchoring and animating shadow sovereigns as well as key forms of legal authority, economic value, and political contestation. This innovative book illuminates how the crucible of gold, itself governed by spirits, serves as a critical site for embodied struggles over the realignment of the classical philosophical triad: the city, the soul, and the sacred.
