Mastering Project Time Management, Cost Control, and Quality Management Randal Wilson,2015-04-23 Mastering Project Time Management, Cost Control, and Quality Management gives managers powerful insights and tools for addressing the Triple Constraints that define virtually every project: time, cost, and quality. This book is part of a new series of seven cutting-edge project management guides for both working practitioners and students. Like all books in this series, it offers deep practical insight into the successful design, management, and control of complex modern projects. Using real case studies and proven applications, expert authors show how multiple functions and disciplines can and must be integrated to achieve a successful outcome. Individually, these books focus on realistic, actionable solutions, not theory. Together, they provide comprehensive guidance for working project managers at all levels, including highly-complex enterprise environments. These books also provide indispensable knowledge for anyone pursuing PMI/PMBOK or PRINCE2 certification, or other accreditation in the field.

Eminent Economists II Michael Szenberg,Lall Ramrattan,2014-02-24 The sequel to *Eminent Economists*, this book presents the ideas of some of the most outstanding economists of the past half century. The contributors, representing divergent points of the ideological compass, present their life philosophies and reflect on their conceptions of human nature, society, justice, and the source of creative impulse. These self-portraits reveal details of the economists' personal and professional lives that capture the significance of the total person. The essays represent streams of thought that lead to the vast ocean of economics, where gems of the discipline lie, and the volume will appeal to a wide array of readers, including professional economists, students and laypersons who seek a window into the heart of this complex field. The contributors include Alan S. Blinder, Clair Brown, John Y. Campbell, Vincent P. Crawford, Paul Davidson, Angus Deaton, Harold Demsetz, Peter Diamond, Avinash Dixit, Barry Eichengreen, Jeffrey Frankel, Richard B. Freeman, Benjamin M. Friedman and John Hull.

Humanistic Social Work - The THIRD WAY in Theory and Practice , This book represents a new stage in the author's project to contribute at the development of the humanistic social work theory and methodology, with special attention paid to the professional/ practitioner (social worker, caregiver, psychologist, etc.), to his psychological-spiritual and humane qualities and conducts in practice. * In the PART I is presented THE HUMANISTIC SOCIAL WORK PROJECT - the author's initiative, started in 2009, with the assumed aim to enhance the effective presence of the humanistic values, theories and practices in contemporary social work, a theoretical, axiological and methodological framework, a heuristic laboratory, a philosophical, scientific and professional forum wherein it can be set, what could be called, the theory, axiology and methodology of the Humanistic Social Work. * PART II, HUMANE AND SPIRITUAL QUALITIES OF THE PROFESSIONAL IN HUMANISTIC SOCIAL WORK is the basic body of the paper, and is composed predominantly of three chapters. The Chapter 1, Humanistic Social Work - The Third Way in Social Work Theory and Practice, is devoted to present, theoretically, the concept, doctrine and specific of humanistic social work, with emphasis on its main sources, values, theories, practices and methods, to circumscribe, philosophically and doctrinally, Humanistic Social Work as the third way, alongside Traditional/ Conventional Social Work and Radical/ Critical Social Work, in the contemporary social work practice and theory, with the assumed claim to imposing even

as dominant in the future. The Chapter 2, Humane Personality and Soul – Personal-Psychological Sources of the Professional’s Humane and Spiritual Qualities, shows what might be called, in the author’s view, the personal-psychological sources of the professional’s humane and spiritual qualities in humanistic social work practice, mainly the soul (as the main component of the psychological-ontological sphere of the humane personality), with the sub-spheres: affective (social) soul, spiritual soul (mystical, playful, aesthetic, moral, intellectual) and humane soul. It is not negligible nor the role of the axiological-moral/prosocial sphere, or of the motivational-energetical sphere. In the Chapter 3, Humane and Spiritual Qualities of The Professional in Humanistic Social Work Practice - effectively is reached the content of the topic proposed by the book’s main title, approaching so the theme regarding the humane and spiritual qualities of the professional starting from the category of “humane personality of the professional”, and insisting on the necessity to define it in connection with the spiritual-humanistic mode/ way of representation and approach of the customer. * The PART III of the book, IDEAS, FRAGMENTS, ELEMENTS OF SOME NEW TEXTS (in working) IN THE HUMANISTIC SOCIAL WORK PROJECT, includes three works, in preparation, to whom is working to appear, in the near future, within the project, respectively “Humanistic Social Work: The Third Way in Social Work Theory and Practice”, “Humanistic Social Work Practice” and “Humanistic Social Work: Humane Personality and Humane Relationships – Basic Resources of Practice”. * The paper ends with some CONCLUSIVE CONSIDERATIONS, where it is inferred the key conclusion that, operating into the sphere of human relations, the main purpose of the professional’s activity, with his humane and spiritual qualities, is that to transform them in HUMANE relationships. To this end, his qualities represents essential personal-professional resources that can facilitate the change, that can humanize the troubled social relationships, the dehumanized, dysfunctional microcommunity, This new environment will impose,
