The Last Lecture Randy Pausch,2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

It is an easy to follow step-by-step guide that will be a benefit to those who do not have the time or patience to read all the other complicated books out there. I know how frustrating it is to bust your butt and not achieve any results with the works out there to date. This is my gift to you all who wish to do it but never succeeded. Blessed Be, and have fun.

Gender, Migration and the Media Myria Georgiou,2014-06-11 This volume brings together a number of experts who explore conceptual and policy challenges, as well as empirical realities, associated with gender and migration in highly mediated societies. The need to more systematically address the gendered experience of migration, especially in relation to political and cultural representation, is in the core of the discussions that unfold in this book. The book's chapters address a number of critical questions in relation to the representation of women as members of communities and as outsiders in culturally diverse societies. In doing so, the collection pays particular attention to the sphere of media and communications. Mediated communication has become crucially important in the construction of meanings of identity and citizenship, while the media have taken centre stage in framing debates on migration, border control and gender representations in culturally diverse societies. Gender, Migration and the Media presents a cross-cultural and interdisciplinary understanding of the practices and the consequences of mediated communication for identity and citizenship. This book was originally published as a special issue of Ethnic and Racial Studies.

Twilight Policing Dr. Tessa G. Diphorn,2015-10-20 South Africa boasts the largest private security sector in the entire world, reflecting deep anxieties about violence, security, and governance. Twilight Policing is an ethnographic study of the daily policing practices of armed response officers—a specific type of private security officer—and their interactions with citizens and the state police in Durban, South Africa. This book shows how their policing practices simultaneously undermine and support the state, resulting in actions that are neither public nor private, but something in between, something twilight. Their performances of security are also punitive, disciplinary, and exclusionary, and they work to reinforce post-apartheid racial and economic inequalities. Ultimately, Twilight Policing helps to illuminate how citizens survive volatile conditions and to whom they assign the authority to guide them in the process.

Pain Management for Veterinary Technicians and Nurses Mary Ellen Goldberg,2014-11-17 Pain Management for Veterinary Technicians and Nurses guides readers through the important concepts of animal pain management, providing specific approaches to managing pain in a wide variety of veterinary conditions. Emphasizing the technician's role in advocating for the patient, the book equips technicians with the knowledge needed to manage pain in dogs, cats, horses, livestock, exotics, and zoo animals. Logically and comprehensively covering this difficult subject, Pain Management for Veterinary Technicians and Nurses provides both introductory material on the tenets of pain management and specific techniques to apply in the clinical setting. With information on recognizing and understanding pain, the physiology of pain, pharmacology, and analgesia in different settings, the book outlines how to practice good pain management as an integral part of nursing care. Pain Management for Veterinary Technicians and Nurses provides both basic and advanced information, allowing students, practicing veterinary technicians and nurses, and veterinary staff alike to take a more active role in pain management and develop a more thorough understanding of this complex subject.

Precedents and Case-Based Reasoning in the European Court of Justice Marc Jacob,2014-03-20 Past cases are the European Court of Justice's most prominent tool in making and justifying the rulings and decisions which affect the everyday lives of more than half a billion people. Marc Jacob's detailed analysis of the use of precedents and case-based reasoning in the Court uses methods such as doctrinal scholarship, empirical research, institutional analysis, comparative law and legal theory in order to unravel and critique the how and why of the Court's precedent technique. In doing so, he moves the wider debate beyond received 'common law' versus 'civil law' figments and 'Eurosceptic' versus 'Euromantic' battle lines, and also provides a useful blueprint for assessing and comparing the case law practices of other dispute resolution bodies.

Luise Gottsched, Der Lockenraub / Alexander Pope, The Rape of the Lock Hilary Brown,2014-09-26 Luise Gottsched was one of the most prominent translators in eighteenth-century Germany, bringing her countrymen into contact with the work of many key writers, thinkers and scientists in the European republic of letters. *Der Lockenraub* (1744) was the first German verse translation of Alexander Pope's *Rape of the Lock* (1714), and an impressive achievement at a time when English was still an exotic language in Germany and England largely a terra incognita. The introduction will outline the circumstances which gave rise to this important text and discuss its influence on the development of mock-epic poetry in Germany. The volume will thus underline the crucial role played by translation in shaping German culture during the Enlightenment.
