Tasmania's Golden Years Revisited David Lloyd Hopkins,2013 Artist, illustrator and author, David
Hopkins has gathered together over 2,000 digitally-enhanced images from archival and private
collections as a chronicle of Tasmania's history.

Tasmania I. Kepars,1997 Tasmania, Australia's smallest state, consists of a group of islands off

the south-east corner of the mainland. It was first settled by Aborigines around 20,000 years ago, and was 'discovered' by the West in 1642. The island group was claimed by the British and their first settlement was established in 1803. During the next fifty years, a series of encounters was to lead to the total extermination of all full-blood Aborigines. In 1901, Tasmania became a state of the new Commonwealth of Australia, but a strong sense of regionalism remains to this day. This fully annotated bibliography provides references on all aspects of Tasmania and its people.
