The Palgrave Handbook of Race and the Arts in Education Amelia M.

Kraehe,Rubén Gaztambide-Fernández,B. Stephen Carpenter II,2018-07-12 The Palgrave Handbook of Race and the Arts in Education is the first edited volume to examine how race operates in and through the arts in education. Until now, no single source has brought together such an expansive and interdisciplinary collection in exploration of the ways in which music, visual art, theater, dance, and popular culture intertwine with racist ideologies and race-making. Drawing on Critical Race Theory, contributing authors bring an international perspective to questions of racism and anti-racist interventions in the arts in education. The book's introduction provides a guiding framework for understanding the arts as white property in schools, museums, and informal education spaces. Each section is organized thematically around historical, discursive, empirical, and personal dimensions of the arts in education. This handbook is essential reading for students, educators, artists, and researchers across the fields of visual and performing arts education, educational foundations, multicultural education, and curriculum and instruction.

Twisty Little Passages Nick Montfort,2005-02-11 A critical approach to interactive fiction, as literature and game. Interactive fiction—the best-known form of which is the text game or text adventure—has not received as much critical attention as have such other forms of electronic literature as hypertext fiction and the conversational programs known as chatterbots. *Twisty Little Passages* (the title refers to a maze in *Adventure*, the first interactive fiction) is the first book-length consideration of this form, examining it from gaming and literary perspectives. Nick Montfort, an interactive fiction author himself, offers both aficionados and first-time users a way to approach interactive fiction that will lead to a more pleasurable and meaningful experience of it. *Twisty Little Passages* looks at interactive fiction beginning with its most important literary ancestor, the riddle. Montfort then discusses *Adventure* and its precursors (including the *I Ching* and *Dungeons and Dragons*), and follows this with an examination of mainframe text games developed in response, focusing on the most influential work of that era, *Zork*. He then considers the introduction of commercial interactive fiction for home computers, particularly that produced by Infocom. Commercial works inspired an independent reaction, and Montfort describes the emergence of independent creators and the development of an online interactive fiction community in the 1990s. Finally, he considers the influence of interactive fiction on other literary and gaming forms. With *Twisty Little Passages*, Nick Montfort places interactive fiction in its computational and literary contexts, opening up this still-developing form to new consideration.

*"That the People Might Live"* Arnold Krupat,2012-11-15 The word elegy comes from the Ancient Greek *elogos*, meaning a mournful poem or song, in particular, a song of grief in response to loss. Because mourning and memorialization are so deeply embedded in the human condition, all human societies have developed means for lamenting the dead, and, in *That the*

People Might Live, Arnold Krupat surveys the traditions of Native American elegiac expression over several centuries. Krupat covers a variety of oral performances of loss and renewal, including the Condolence Rites of the Iroquois and the memorial ceremony of the Tlingit people known as *koo'eex*, examining as well a number of Ghost Dance songs, which have been reinterpreted in culturally specific ways by many different tribal nations. Krupat treats elegiac farewell speeches of the eighteenth and nineteenth centuries in considerable detail, and comments on retrospective autobiographies by Black Hawk and Black Elk. Among contemporary Native writers, he looks at elegiac work by Linda Hogan, N. Scott Momaday, Gerald Vizenor, Sherman Alexie, Maurice Kenny, and Ralph Salisbury, among others. Despite differences of language and culture, he finds that death and loss are consistently felt by Native peoples both personally and socially: someone who had contributed to the People's well-being was now gone. Native American elegiac expression offered mourners consolation so that they might overcome their grief and renew their will to sustain communal life.

**Miko Kings** LeAnne Howe, 2007 'Miko Kings' is set in Indian Territory's queen city, Ada, during the baseball fever of 1903 and simultaneously in 1969 during the Vietnam era. The story centres on Hope Little Leader, a Choctaw pitcher for the Miko Kings baseball team; Lucius Mummy, a switch hitter; and Ezol Daggs, the postal clerk in Indian Territory.

**For Those Who Come After** Arnold Krupat, 2023-04-28 Drawing on the life stories of Native Americans solicited by historians during the 19th century and, later, by anthropologists concerned with amplifying the cultural record, Arnold Krupat examines the Indian autobiography as a specific genre of American writing.

**For Indigenous Eyes Only** Angela Cavender Wilson, 2005 Recognizing an urgent need for Indigenous liberation strategies, Indigenous intellectuals met to create a book with hands-on suggestions and activities to enable Indigenous communities to decolonize themselves. The authors begin with the belief that Indigenous Peoples have the power, strength, and intelligence to develop culturally specific decolonization strategies for their own communities and thereby systematically pursue their own liberation. These scholars and writers demystify the language of colonization and decolonization to help Indigenous communities identify useful concepts, terms, and intellectual frameworks in their struggles toward liberation and self-determination. This handbook covers a wide range of topics, including Indigenous governance, education, language, oral tradition, repatriation, images and stereotypes, and truth-telling. It aims to facilitate critical thinking while offering recommendations for fostering community discussions and plans for meaningful community action.

No Parole Today Laura Tohe, 1999 In prose and poetry, Tohe describes attending a government school for Indian children and the challenge it presented to her socially, culturally, and expressively.

**Gerald Vizenor** Kimberly M. Blaeser, 1996 Kimberly M. Blaeser begins with an examination of Vizenor's concept of Native American oral culture and his unique incorporation of oral tradition in the written word. She details Vizenor's efforts to produce a form of writing that resists static meaning, involves the writer in the creation of the literary moment, and invites political action and explores the place of Vizenor's work within the larger context of contemporary tribal literature, Native American scholarship, and critical theory.

Native Men Remade Ty P. Kāwika Tengan, 2008-10-20 Many indigenous Hawaiian men have felt profoundly disempowered by the legacies of colonization and by the tourist industry, which, in addition to occupying a great deal of land, promotes a feminized image of Native Hawaiians (evident in the ubiquitous figure of the dancing hula girl). In the 1990s a group of Native men on the island of Maui responded by refashioning and reasserting their masculine identities in a group called the Hale Mua (the "Men's House"). As a member

and an ethnographer, Ty P. Kāwika Tengan analyzes how the group's mostly middle-aged, middle-class, and mixed-race members assert a warrior masculinity through practices including martial arts, woodcarving, and cultural ceremonies. Some of their practices are heavily influenced by or borrowed from other indigenous Polynesian traditions, including those of the Māori. The men of the Hale Mua enact their refashioned identities as they participate in temple rites, protest marches, public lectures, and cultural fairs. The sharing of personal stories is an integral part of Hale Mua fellowship, and Tengan's account is filled with members' first-person narratives. At the same time, Tengan explains how Hale Mua rituals and practices connect to broader projects of cultural revitalization and Hawaiian nationalism. He brings to light the tensions that mark the group's efforts to reclaim indigenous masculinity as they arise in debates over nineteenth-century historical source materials and during political and cultural gatherings held in spaces designated as tourist sites. He explores class status anxieties expressed through the sharing of individual life stories, critiques of the Hale Mua registered by Hawaiian women, and challenges the group received in dialogues with other indigenous Polynesians. *Native Men Remade* is the fascinating story of how gender, culture, class, and personality intersect as a group of indigenous Hawaiian men work to overcome the dislocations of colonial history.

**MULTICOLLINEARITY IN ECONOMETRIC MODELS** Dr.M. Chandrasekhar Reddy & Dr.P. Balasubramanyam, 2021-09-01 There are several textbooks are available in literature in Econometrics, but we thought it is really beneficial to students and researchers to have a special textbook on multicollinearity problem in the general linear model. The topic of multicollinearity has gained high importance in recent times as the data getting generated is increased enormously. Because of this data exploration, many variables are representing the same amount of information which leads to the problem of multicollinearity. In the current textbook, the authors tried to explore the topic of multicollinearity along with the basic definitions and key tests available to detect multicollinearity. For all practical application purposes, we included a chapter on empirical analysis that will show how the model goes improved through dealing with the problem of multicollinearity. This book acts as a textbook, reference manual for all students who are studying econometrics at their graduate and post-graduate levels and also for research scholars. The design of contents is structured in such a way that users find it easy to understand and implement the same in their research works.

**Mapping the Americas** Shari M. Huhndorf, 2011-02-23 In *Mapping the Americas*, Shari M. Huhndorf tracks changing conceptions of Native culture as it increasingly transcends national boundaries and takes up vital concerns such as patriarchy, labor and environmental exploitation, the emergence of pan-Native urban communities, global imperialism, and the commodification of indigenous cultures. While nationalism remains a dominant anticolonial strategy in indigenous contexts, Huhndorf examines the ways in which transnational indigenous politics have reshaped Native culture (especially novels, films, photography, and performance) in the United States and Canada since the 1980s. *Mapping the Americas* thus broadens the political paradigms that have dominated recent critical work in Native studies as well as the geographies that provide its focus, particularly through its engagement with the Arctic. Among the manifestations of these new tendencies in Native culture that Huhndorf presents are Igloolik Isuma Productions, the Inuit company that has produced nearly forty films, including *Atanarjuat*, *The Fast Runner*; indigenous feminist playwrights; Leslie Marmon Silko's *Almanac of the Dead*; and the multimedia artist Shelley Niro. Huhndorf also addresses the neglect

of Native America by champions of postnationalist American studies, which shifts attention away from ongoing colonial relationships between the United States and indigenous communities within its borders to U.S. imperial relations overseas. This is a dangerous oversight, Huhndorf argues, because this neglect risks repeating the disavowal of imperialism that the new American studies takes to task. Parallel transnational tendencies in American studies and Native American studies have thus worked at cross-purposes: as pan-tribal alliances draw attention to U.S. internal colonialism and its connections to global imperialism, American studies deflects attention from these ongoing processes of conquest. Mapping the Americas addresses this neglect by considering what happens to American studies when you put Native studies at the center.

**Louis Owens** Joe Lockard, 2019-10-01 Louis Owens: Writing Land and Legacy explores the wide-ranging oeuvre of this seminal author, examining Owens's work and his importance in literature and Native studies. Of Choctaw, Cherokee, and Irish American descent, Owens's work includes mysteries, novels, literary scholarship, and autobiographical essays. Louis Owens offers a critical introduction and thirteen essays arranged into three sections: "Owens and the World," "Owens and California," and "The Novels." The essays present an excellent assessment of Owens's literary legacy, noting his contributions to American literature, ethnic literature, and Native American literature and highlighting his contributions to a variety of theories and genres. The collection concludes with a coda of personal poetic reflections on Owens by Diane Glancy and Kimberly Blaaser. Libraries, students, scholars, and the general public interested in Native American literature and the landscape of contemporary US literature will welcome this reflective volume that analyzes a vast range of Louis Owens's imaginative fictions, personal accounts, and critical work.

Reservation Reelism Michelle H. Raheja, 2011-01-01 In this deeply engaging account Michelle H. Raheja offers the first book-length study of the Indigenous actors, directors, and spectators who helped shape Hollywood's representation of Indigenous peoples. Since the era of silent films, Hollywood movies and visual culture generally have provided the primary representational field on which Indigenous images have been displayed to non-Native audiences. These films have been highly influential in shaping perceptions of Indigenous peoples as, for example, a dying race or as inherently unable or unwilling to adapt to change. However, films with Indigenous plots and subplots also signify at least some degree of Native presence in a culture that largely defines Native peoples as absent or separate. Native actors, directors, and spectators have had a part in

creating these cinematic representations and have thus complicated the dominant, and usually negative, messages about Native peoples that films portray. In *Reservation Reelism* Raheja examines the history of these Native actors, directors, and spectators, reveals their contributions, and attempts to create positive representations in film that reflect the complex and vibrant experiences of Native peoples and communities.
