News at Work Pablo J. Boczkowski,2010-09-15 Before news organizations began putting their content online, people got the news in print or on TV and almost always outside of the workplace. But nowadays, most of us keep an eye on the headlines from our desks at work, and we have become accustomed to instant access to a growing supply of constantly updated stories on the Web. This change in the amount of news available as well as how we consume it has been coupled with an unexpected development in editorial labor: rival news organizations can now keep tabs on the competition and imitate them, resulting in a decrease in the diversity of the news. Peeking inside the newsrooms where journalists create stories and the work settings where the public reads them, Pablo J. Boczkowski reveals why journalists contribute to the growing similarity of news—even though they dislike it—and why consumers acquiesce to a media system they find increasingly dissatisfying. Comparing and contrasting two newspapers in Buenos Aires with similar developments in the United States, News at Work offers an enlightening perspective on living in a world with more information but less news.

Democracy and Education John Dewey,1916 John Dewey's Democracy and Education addresses the challenge of providing quality public education in a democratic society. In this classic work Dewey calls for the complete renewal of public education, arguing for the fusion of vocational and contemplative studies in education and for the necessity of universal education for the advancement of self and society. First published in 1916, Democracy and Education is regarded as the seminal work on public education by one of the most important scholars of the century.

The Adult Learner Malcolm S. Knowles,Elwood F. Holton III,Richard A. Swanson,Petra A. Robinson,2020-12-21 How do you tailor education to the learning needs of adults? Do they learn differently from children? How does their life experience inform their learning processes? These were the questions at the heart of Malcolm Knowles' pioneering theory of andragogy which transformed education theory in the 1970s. The resulting principles of a self-directed, experiential, problem-centred approach to learning have been hugely influential and are still the basis of the learning practices we use today. Understanding these principles is the cornerstone of increasing motivation and enabling adult learners to achieve. The 9th edition of The Adult Learner has been revised to include: Updates to the book to reflect the very latest advancements in the field. The addition of two new chapters on diversity and inclusion in adult learning, and andragogy and the online adult learner. An updated supporting website. This website for the 9th edition of The Adult Learner will provide basic instructor aids. For each chapter, there will be a PowerPoint presentation, learning exercises, and added study questions. Revisions throughout to make it more readable and relevant to your practices. If you are a researcher, practitioner, or student in education, an adult learning practitioner, training manager, or involved in human resource development, this is the definitive book in adult learning you should not be without.

Revival: Communication and Cultural Domination (1976) Herbert I. Schiller,2019-11-11 This title was first published in 1976. The attainment

of political independence by more than ninety countries since the Second World War has directed attention to the conditions of economic helplessness and dependency that continue to frustrate the development of at least two-thirds of the world's nations. Two and sometimes three decades of disappointing efforts to extricate themselves from dependency have begun to provoke serious reappraisals in many lands about the entire concept of development. Accordingly, the time ahead will surely be a period of growing cultural-communications struggle intra- and inter - nationally between those seeking the end of domination and those striving to maintain it. The intention of this work is to assist, in a very modest way, in the outcome of this struggle.

But Is It Art? Cynthia Freeland,2002-02-07 In today's art world many strange, even shocking, things qualify as art. In this book, Cynthia Freeland explains why innovation and controversy are valued in the arts, weaving together philosophy and art theory with many fascinating examples. She discusses blood, beauty, culture, money, museums, sex, and politics, clarifying contemporary and historical accounts of the nature, function, and interpretation of the arts. Freeland also propels us into the future by surveying cutting-edge web sites, along with the latest research on the brain's role in perceiving art. This clear, provocative book engages with the big debates surrounding our responses to art and is an invaluable introduction to anyone interested in thinking about art.

Return Engagements Viet Lê,2021-04-12 In Return Engagements artist and critic Việt Lê examines contemporary art in Cambodia and Việt Nam to rethink the entwinement of militarization, trauma, diaspora, and modernity in Southeast Asian art. Highlighting artists tied to Phnom Penh and Sài Gòn and drawing on a range of visual art as well as documentary and experimental films, Lê points out that artists of Southeast Asian descent are often expected to address the twin traumas of armed conflict and modernization, and shows how desirable art on these themes is on international art markets. As the global art market fetishizes trauma and violence, artists strategically align their work with those tropes in ways that Lê suggests allow them to reinvent such aesthetics and discursive spaces. By returning to and refashioning these themes, artists such as Tiffany Chung, Rithy Panh, and Sopheap Pich challenge categorizations of “diasporic” and “local” by situating themselves as insiders and outsiders relative to Cambodia and Việt Nam. By doing so, they disrupt dominant understandings of place, time, and belonging in contemporary art.
