Industry expert Alex Aniel spent two years interviewing key former members of Capcom staff, allowing him to tell the inside story of how Resident Evil was envisioned as early as the late 1980s, how its unexpected and unprecedented success saved the company from financial trouble, how the series struggled at the turn of the century and, eventually, how a new generation of creators was born after the release of Resident Evil 4. Itchy, Tasty narrates the development of each Resident Evil game released between 1996 and 2006, interspersed with fascinating commentary from the game creators themselves, offering unique insight into how the series became the world-conquering franchise it is today.

Integrated E-learning Wim Jochems, Jeroen J. G. van Merriënboer, Rob Koper, 2004 This book forms a serious, in-depth study of the subject and proposes that e-learning is not simply a matter of 'digitizing' traditional materials, but involves a new approach, which must take into account pedagogical, technological and organizational features to form a well-designed education system.

The Withers Awaken Mark Cheverton, 2018-07-03 Krael, the Wither King, has been trapped deep underground, ending his reign of terror, and all the NPCs of the Far Lands have all put away their swords in peace except Watcher; the young archer still suspects Krael has bigger plans. He's right. In the darkness of the Cave of Slumber, Krael awakens the imprisoned wither horde, and with the help of creepers and endermen, the wither army is released from their rocky jail. They spread across the Far Lands, searching for the ancient Vault of Weapons which will make the army of withers indestructible. But one man alone holds the secret to the Vault's whereabouts: the Far Land's last living NPC wizard. Watcher and his friends must race to find the wizard before Krael and his army of monsters. But if they fail, a wave of destruction, led by the King of the Withers, will sweep across the landscape, destroying everything—and everyone—they know.

**Information Ecologies** Bonnie A. Nardi, Vicki O'Day, 2000-02-28 A call for informed, responsible engagement with information technology at the local level. The common rhetoric about technology falls into two extreme categories: uncritical acceptance or blanket rejection. Claiming a middle ground, Bonnie Nardi and Vicki O'Day call for responsible, informed engagement with technology in local settings, which they call information ecologies. An information ecology is a system of people, practices, technologies, and values in a local environment. Nardi and O'Day encourage the reader to become more aware of the ways people and technology are interrelated. They draw on their empirical research in offices, libraries, schools, and hospitals to show how people can engage their own values and commitments while using technology.

**Twelve Years a Slave** Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.
