*Catalogue of Vocal Solos and Duets Arranged in Biblical Order* James Laster, Diana Reed

Strommen, 2003 The second edition of *A Catalogue of Vocal Solos and Duets Arranged in Biblical Order* serves as a companion volume to *A Catalogue of Choral Music Arranged in Biblical Order* (Second edition, 1996, and supplement, 2001, both published by Scarecrow Press). It is a necessary tool for the church musician to coordinate music with the scripture readings and/or the sermon topic and a valuable aid to the vocal soloist seeking a work using a particular biblical text. The work serves as a working document for the church musician, soloist, or voice teacher. Titles are arranged in the same order as found in the Bible. Each entry contains title, composer, voice range/type, and publisher information. Two indexes are also included: a title index and a composer index.

**The Terrorist Album** Jacob Dlamini, 2020-05-01 An award-winning historian and journalist tells the very human story of apartheid's afterlife, tracing the fates of South African insurgents, collaborators, and the security police through the tale of the clandestine photo album used to target apartheid's enemies. From the 1960s until the early 1990s, the South African security police and counterinsurgency units collected over 7,000 photographs of apartheid's enemies. The political rogue's gallery was known as the "terrorist album," copies of which were distributed covertly to police stations throughout the country. Many who appeared in the album were targeted for

surveillance. Sometimes the security police tried to turn them; sometimes the goal was elimination. All of the albums were ordered destroyed when apartheid's violent collapse began. But three copies survived the memory purge. With full access to one of these surviving albums, award-winning South African historian and journalist Jacob Dlamini investigates the story behind these images: their origins, how they were used, and the lives they changed. Extensive interviews with former targets and their family members testify to the brutal and often careless work of the police. Although the police certainly hunted down resisters, the terrorist album also contains mug shots of bystanders and even regime supporters. Their inclusion is a stark reminder that apartheid's guardians were not the efficient, if morally compromised, law enforcers of legend but rather blundering agents of racial panic. With particular attentiveness to the afterlife of apartheid, Dlamini uncovers the stories of former insurgents disenchanted with today's South Africa, former collaborators seeking forgiveness, and former security police reinventing themselves as South Africa's newest export: "security consultants" serving as mercenaries for Western nations and multinational corporations. The Terrorist Album is a brilliant evocation of apartheid's tragic caprice, ultimate failure, and grim legacy.

**Andean Entrepreneurs** Lynn A. Meisch, 2013-12-18  
Native to a high valley in the Andes of Ecuador, the Otavalos are an indigenous people whose handcrafted textiles and traditional music are now sold in countries around the globe. Known as weavers and merchants since pre-Inca times, Otavalos today live and work in over thirty countries on six continents, while hosting more than 145,000 tourists annually at their Saturday market. In this ethnography of the globalization process, Lynn A. Meisch looks at how participation in the global economy has affected Otavalo identity and culture since the 1970s. Drawing on nearly thirty years of fieldwork, she covers many areas of Otavalo life, including the development of weaving and music as business enterprises, the increase in tourism to Otavalo, the diaspora of Otavalo merchants and musicians around the world, changing social relations at home, the growth of indigenous political power, and current debates within the Otavalo community over preserving cultural identity in the face of globalization and transnational migration. Refuting the belief that contact with the wider world inevitably destroys indigenous societies, Meisch demonstrates that Otavalos are preserving many features of their culture while adopting and adapting modern technologies and practices they find useful.

**The Persian Album, 1400-1600** David J. Roxburgh, 2005-01-01 This groundbreaking book examines portable art collections assembled in the courts of Greater Iran in the fifteenth and sixteenth centuries. Made for members of the royal families or ruling elites, albums were created to preserve and display art, yet they were conceptualized in different ways. David Roxburgh, a leading expert on Persian albums and the art of the book, discusses this diversity and demonstrates convincingly that to look at the practice of album making is to open a vista to a culture of thought about the Persian art tradition. The book considers the album's formal and physical properties, assembly, and content, as well as the viewer's experience. Focusing on seven albums created during the Timurid and Safavid dynasties, Roxburgh reconstructs the history and development of this codex form and uses the works of art to explore notions of how art and aesthetics were conceived in Persian court culture. Generously illustrated with over 175 images, many rare and previously unpublished, the book offers a range of new insights into Persian visual culture as well as Islamic art history.

Smith, 2017-07-05 Dwelling on the rich

interconnections between parody and festivity in humanist thought and popular culture alike, the essays in this volume delve into the nature and the meanings of festive laughter as it was conceived of in early modern art. The concept of 'carnival' supplies the main thread connecting these essays. Bound as festivity often is to popular culture, not all the topics fit the canons of high art, and some of the art is distinctly low-brow and occasionally ephemeral; themes include grobianism and the grotesque, scatology, popular proverbs with ironic twists, and a wide range of comic reversals, some quite profound. Many hinge on ideas of the world upside down. Though the chapters most often deal with Northern Renaissance and Baroque art, they spill over into other countries, times, and cultures, while maintaining the carnivalesque air suggested by the book's title.

**New Perspectives on Safavid Iran** Colin P.

Mitchell, 2011-03-03 Dedicated to the renowned Safavid historian Roger Savory, this book brings together a collection of studies on the Safavid state of Iran (1501-1722) from the perspectives of political, social, literary, and artistic history. Savory, a doyen of Safavid studies in the 1960s and 1970s, was responsible for expanding and popularizing the study of Iran in the 16th and 17th century. To celebrate this legacy, well-

established scholars of medieval and early modern Iran have contributed specific studies reflecting an array of research interests and specializations, which include critical re-examinations of issues of gender, literature, art and architecture, cultural and linguistic currents, illustrated historical chronicles, and courtly and administrative practices under the Safavid dynasty. This unique compilation is indicative of a growing interest in Iran and Iranian studies in both the academic and public spheres, and as such contains a number of new perspectives which will serve to supplement and re-interpret the existing corpus of Safavid scholarly literature to date. It will be an important text for scholars of world history and Middle East studies, as well as to historians in general.

Critical Perspectives on Classicism in Japanese Painting Elizabeth Lillehoj, 2004-01-01 In the West, classical art - inextricably linked to concerns of a ruling or dominant class - commonly refers to art with traditional themes and styles that resurrect a past golden era. Although art of the early Edo period (1600-1868) encompasses a spectrum of themes and styles, references to the past are so common that many Japanese art historians have variously described this period as a classical revival, era of classicism, or a renaissance. How did seventeenth-century artists and patrons imagine the past? Why did they so often select styles and themes from the court culture of the Heian period (794-1185)? Were references to the past something new, or were artists and patrons in previous periods equally interested in manners that came to be seen as classical? How did classical manners relate to other styles and themes found in Edo art? In considering such questions, the contributors to this volume hold that classicism has been an amorphous, changing concept in Japan - just as in the West. Troublesome in its ambiguity and implications, it cannot be separated from the political and ideological interests of those who have employed it over the years. The modern writers who first

**Scientific Visual Representations in History**  
Matteo Valleriani, Giulia Giannini, Enrico Giannetto, 2023-01-01 This book explores continuity and ruptures in the historical use of visual representations in science and related disciplines such as art history and anthropology. The book

also considers more recent developments that attest to the unprecedented importance of scientific visualizations, such as video recordings, animations, simulations, graphs, and enhanced realities. The volume collects historical reflections concerned with the use of visual material, visualization, and vision in science from a historical perspective, ranging across multiple cultures from antiquity until present day. The focus is on visual representations such as drawings, prints, tables, mathematical symbols, photos, data visualizations, mapping processes, and (on a meta-level) visualizations of data extracted from historical sources to visually support the historical research itself. Continuity and ruptures between the past and present use of visual material are presented against the backdrop of the epistemic functions of visual material in science. The function of visual material is defined according to three major epistemic categories: exploration, transformation, and transmission of knowledge.
