The Music of Central Africa Rose Brandel, 2012-12-06 Under the inspiring guidance of my mentor, Curt Sachs, this work was conceived, planned, and executed. It gained in dimension under the acute and patient perusal of Gustave Reese to whose brilliant propensity for clarity of thought and of style I owe a huge debt. Furthermore, the helpful suggestions made by Martin Bernstein and by J an LaRue are gratefully acknowledged. If Jaap Kunst had not kindly gone to the trouble of ordering, supervising the construction of, and mailing to me from Amsterdam his personally designed monochord, an important section of this work could not have taken form. This preface is not complete, of course, without final thanks to my husband, Harvey B. Natanson, for his sustained interest and encouragement. R. B. Note As the present work goes to press, the political map of Africa is flowing into a new mold. Several countries have obtained independence, and new names and data should be considered: French Equatorial Africa has become (November 28-December 1, 1958) four independent countries - Republic of the Congo: Brazzaville (formerly Middle Congo), Gabon Republic (formerly Gabon) , Central African Republic (formerly Ubangi-Shari), and Republic

of Chad (formerly Chad). The Belgian Congo has become (June 30,1960) the Republic of the Congo: Leopoldville.

Şehrengiz, Urban Rituals and Deviant Sufi Mysticism in Ottoman Istanbul Dr B Deniz Çalış-Kural,2014-07-28 Şehrengiz is an Ottoman genre of poetry written in honor of various cities and provincial towns of the Ottoman Empire from the early sixteenth century to the early eighteenth century. This book examines the urban culture of Ottoman Istanbul through Şehrengiz, as the Ottoman space culture and traditions have been shaped by a constant struggle between conflicting groups practicing political and religious attitudes at odds. By examining real and imaginary gardens, landscapes and urban spaces and associated ritualized traditions, the book questions the formation of Ottoman space culture in relation to practices of orthodox and heterodox Islamic practices and imperial politics. The study proposes that Şehrengiz was a subtext for secret rituals, performed in city spaces, carrying dissident ideals of Melâmî mysticism; following after the ideals of the thirteenth century Sufi philosopher Ibn al-'Arabî who proposed a theory of 'creative imagination' and a three-tiered definition of space, the ideal, the real and the intermediary (barzakh). In these rituals, marginal groups of guilds emphasized the autonomy of individual self, and suggested a novel proposition that the city shall become an intermediary space for reconciling the orthodox and heterodox worlds. In the early eighteenth century, liminal expressions of these marginal groups gave rise to new urban rituals, this time adopted by the Ottoman court society and by affluent city dwellers and expressed in the poetry of Nedîm. The author traces how a tradition that had its roots in the early sixteenth century as a marginal protest movement evolved until the early eighteenth century as a movement of urban space reform.

Hamish MacCunn (1868-1916): A Musical Life Dr Jennifer L Oates, 2013-07-28 Hamish MacCunn's career unfolded amidst the restructuring of British musical culture and the rewriting of the Western European political landscape. Having risen to fame in the late 1880s with a string of Scottish works, MacCunn further highlighted his Caledonian background by cultivating a Scottish artistic persona that defined him throughout his life. His attempts to broaden his appeal ultimately failed. This, along with his difficult personality and a series of poor professional choices, led to the slow demise of what began as a promising career. As the first comprehensive study of MacCunn's life, the book illustrates how social and cultural situations as well as his personal relationships influenced his career. While his fierce loyalty to his friends endeared him to influential people who helped him throughout his career, his refusal of his Royal College of Music degree and his failure to complete early commissions assured him a difficult path. Drawing upon primary resources, Oates

traces the development of MacCunn's music chronologically, juxtaposing his Scottish and more cosmopolitan compositions within a discussion of his life and other professional activities. This picture of MacCunn and his music reveals on the one hand a talented composer who played a role in establishing national identity in British music and, on the other, a man who unwittingly sabotaged his own career.

The Rock Bible Henry Owings, 2015-02-10 Like Moses delivering forth the Ten Commandments, Chunklet magazine presents you with The Rock Bible—the complete rules for living an authentic life of rock 'n' roll. Here are hundreds of wise and witty guidelines for Drummers: “If you’re one of those drummers who sets up at the front of the stage, back the hell up. You are the goalies of rock; play your position.” Singers: “When you feel like stage-diving, first make sure the people in the front like your music enough to catch you.” Guitarists: “No one’s looking at your guitar strap. Don’t ever spend more than the cost of an average meal on something that can be replaced by a particularly hearty piece of string.” Keyboardists: “There’s only one person who will look more ridiculous and offensive in leather pants than the lead singer: the keyboard player.” Onstage Antics: “Being wasted onstage works for only about 5 percent of bands, and yours isn’t one of them.” Fans: “Fans that dress like the band are just asking to be pummeled. If you want to be in the band that badly, you might as well bring your gear to the show and play along from the audience.” And unholy

words on much, much more.

Pictures and Visuality in Early Modern China Craig Clunas, 2006-03-01 Pictures and Visuality in Early Modern China is not simply a survey of sixteenth-century images, but rather, a thorough and thoughtful examination of visual culture in China's Ming Dynasty, one that considers images wherever they appeared—not only paintings, but also illustrated books, maps, ceramic bowls, lacquered boxes, painted fans, and even clothing and tomb pictures. Clunas's theory of visuality incorporates not only the image and the object upon which it is placed but also the culture which produced and purchased it. Economic changes in sixteenth-century China—the rapid expansion of trade routes and a growing class of consumers—are thus intricately bound up with the evolution of the image itself. Pictures and Visuality in Early Modern China will be a touchstone for students of Chinese history, art, and culture.

Authority in Crisis in French Literature, 1850-1880 Dr Seth Whidden, 2014-11-28 By the 1850s, the expansion of printing and distribution technologies provided writers with more readers and literary outlets than ever before, while the ever-changing political contexts occasioned by the

revolutions of 1830 and 1848 brought about differing degrees of political, social, and literary censure and pressure. Seth Whidden examines crises of literary authority in nineteenth-century French literature, both in response to the attempts of the Second Empire (1852-1870) to restore the unquestioned imperial authority that had been established by Napoleon I and in the aftermath of the bloody Paris Commune of 1871. In each of his chapters, Whidden offers a representative case study highlighting one of several phenomena-literary collaboration, parody, destabilized poetic form, the substitution of one poetic or narrative voice with that of the man-that enabled challenges to the traditional status of the writer and, by extension, the political authority that it reflected. Whidden focuses on the play *Le Supplice d'une femme* (1865); the *Cercle Zutiste*, a group of writers, musicians, and artists who met regularly in the fall of 1871, only months after the fall of the Second Empire; Arthur Rimbaud's Commune-era poems; and Jules Verne's 1851 'Un voyage en ballon,' later reprinted as 'Un drame dans les airs' in 1874. Whidden concludes with a futuristic look at authority and aucturity as it pertains to midcentury writers taking stock of the weakened authority still possible in a post-Second Empire France and envisioning what kind of aucturity is still to come.

Structural Analysis of Historic Construction: Preserving Safety and Significance, Two Volume Set Dina D'Ayala, Enrico Fodde, 2008-06-02 The successful preservation of an historic building, complex or city depends on the continued use and daily care that come with it. The possibility of continued use depends on the adaptation of the building to modern standards and practice of living, requiring changes in constructional or structural features. Conservation engineering is the process of understanding, interpreting and managing the architectural heritage to safely deliver it to posterity, enhancing private or public utility vis a vis minimum loss of fabric and significance. These two objectives are sometimes conflicting. With increasing global interest in conservation engineering it is essential to open the debate on more inclusive definitions of significance and on more articulated concepts of safety by use of acceptable and reliable technologies, integrating further the activity of all the professions involved in conservation.
