Contemporary High Performance Computing Jeffrey S. Vetter,2017-11-23 Contemporary High Performance Computing: From Petascale toward Exascale focuses on the ecosystems surrounding the world's leading centers for high performance computing (HPC). It covers many of the important factors involved in each ecosystem: computer architectures, software, applications, facilities, and sponsors. The first part of the book examines significant trends in HPC systems, including computer architectures, applications, performance, and software. It discusses the growth from terascale to petascale computing and the influence of the TOP500 and Green500 lists. The second part of the book provides a comprehensive overview of 18 HPC ecosystems from around the world. Each chapter in this section describes programmatic motivation for HPC and their important applications; a flagship HPC system overview covering computer architecture, system software, programming systems, storage, visualization, and analytics support; and an overview of their data center/facility. The last part of the book addresses the role of clouds and grids in HPC, including chapters on the Magellan, FutureGrid, and LLGrid projects. With contributions from top researchers directly involved in designing, deploying, and using these supercomputing systems, this book captures a global picture of the state of the art in HPC.

ACCA Paper P5 - Advanced Performance Management Study Text BPP Learning Media,2009-07-01 The Association of Chartered Certified Accountants (ACCA) is the global body for professional accountants. With over 100 years of providing world-class accounting and finance qualifications, the ACCA has significantly raised its international profile in recent years and now supports a BSc (Hons) in Applied Accounting and an MBA.BPP Learning Media is an ACCA Official Publisher. Paper P5 Advanced Performance Management is an optional paper at Professional level. It builds on the performance management techniques introduced in Paper F5. There is also a significant element of strategic thinking and thus P5 has links with paper P3 Business Analysis. The syllabus looks at external factors that affect the organisation's performance such as stakeholders. Internal factors are also considered including the design features of effective performance management information and monitoring systems. Ethics is introduced as a key ACCA topic. Finally, the syllabus considers the impact of current developments in management accounting and performance management on organisational performance.This examiner-reviewed Study Text covers all that you need to know for P5. It features plenty of recent case studies illustrating key syllabus areas and questions to hone your understanding of what you have just read. This paper tests your application of knowledge so these studies and questions are key learning tools. You will also find up-to-date information on the latest management theories and techniques which feature highly in this paper. Then there are plenty of exam tips to guide your study and help you focus on what is essential to know. Now it's up to you.BPP Learning Media is the publisher of choice for many ACCA students and tuition providers worldwide. Join them and plug into a world of expertise in ACCA exams.

Lifespan Cognition Ellen Bialystok,Fergus I. M. Craik,2006 Aims to create a bridge across cognitive development and cognitive aging. This volume studies the rise and fall of specific cognitive functions, such as attention, executive functioning, memory, working memory, representations, and individual differences to find ways in which the study of development and decline converge on common mechanisms.

Dynamics in Logistics Michael Freitag,Herbert Kotzab,Jürgen Pannek,2016-09-15 These proceedings contain research papers presented at the 5th International Conference on Dynamics in Logistics, held in Bremen, Germany, February 2016. The conference is concerned with dynamic aspects of logistic processes and networks. The spectrum of topics reaches from modeling, planning and control of processes over supply chain management and maritime logistics to innovative technologies and robotic applications for cyber-physical production and logistic systems. The growing dynamic confronts the area of logistics with completely new challenges: it must become possible to describe, identify and analyze the process changes. Moreover, logistic processes and networks must be redesigned to be rapidly and flexibly adaptable to continuously changing conditions. The book primarily addresses researchers and practitioners from the field of industrial engineering and logistics, but it may also be beneficial for graduate students.

InfoWorld ,2006-11-20 InfoWorld is targeted to Senior IT professionals. Content is segmented into Channels and Topic Centers. InfoWorld also celebrates people, companies, and projects.

OECD Environmental Performance Reviews: The Netherlands 2015 OECD,2015-11-25 This report is the third OECD review of environmental performance in the Netherlands. It evaluates progress towards sustainable development and green growth, with a focus on sustainable mobility, and waste and materials management.

Target-setting Methods and Data Management to Support Performance-based Resource Allocation by Transportation Agencies National Cooperative Highway Research Program,2010 TRB's National Cooperative Highway Research Program (NCHRP) Report 666: Target Setting Methods and Data Management to Support Performance-Based Resource Allocation by Transportation Agencies - Volume I: Research Report, and Volume II: Guide for Target-Setting and Data Management provides a framework and specific guidance for setting performance targets and for ensuring that appropriate data are available to support performance-based decision-making. Volume III to this report was published separately in an electronic-only format as NCHRP Web-Only Document 154. Volume III includes case studies of organizations investigated in the research used to develop NCHRP Report 666.

Smart Analytics, Artificial Intelligence and Sustainable Performance Management in a Global Digitalised Economy Pallavi Tyagi,Simon Grima,Kiran Sood,Balamurugan Balusamy,Ercan Özen,Eleftherios Thalassinou,2023-05-29 The Covid 19 pandemic has created chaos in the business world and forced leaders to rethink their operational status quo. Though the benefits outweigh the risks, the challenges in digitalised economies are as sophisticated as the solutions they offer.

Improving India's Saving Performance Mr.Martin Mühleisen,1997-01-01 This paper discusses recent trends in Indian saving behavior and reviews policy options to increase domestic saving. In the absence of forceful policy measures, private saving would continue to rise gradually, but probably not by enough to finance the government's growth target of 7 percent over the next decade. The most promising way to boost domestic saving would be through increased public saving and a strong structural reform program, including financial liberalization, which would initiate a virtuous growth-saving circle. To increase the efficiency of the

savings allocation, particular attention should be paid to long-term saving instruments.
