Food Safety, Risk Intelligence and Benchmarking Sylvain Charlebois, 2017-01-30 This book comprehensively argues for more future benchmarking between nations. Since the initial food safety benchmarking report was published in 2008, the sharing of data and protocols among nations has dramatically increased. It was intended to identify and evaluate common elements among global food safety systems. More specifically, benchmarking identifies those countries that employ comparatively best practices to assess, manage, and communicate the risks related to the safety of food and their respective food systems. The overarching intent of this benchmarking assessment, however, is to stimulate exchange and discussion on food safety performance among nations.

Forbidden City, USA Arthur Dong, 2015-09-15 *Forbidden City, USA: Chinatown Nightclubs, 1936-1970* captures the magic and glamour of the Chinese American nightclub scene, which peaked in San Francisco during World War II. Previously unpublished personal stories, along with over four hundred stunning images and rare artifacts, are presented in this sexy and insightful chronicle of Asian American performers who defied racial and cultural barriers to pursue their showbiz dreams. It was the mid-1930s: Prohibition was repealed and the Great Depression was waning. With a global conflict on the rise, people were out to drink, dine, dance, and see a show to forget their woes--and what a surprise for the world to behold an emerging generation of Chinese American entertainers commanding

the stage in their own nightclubs. *Forbidden City, USA: Chinatown Nightclubs, 1936-1970* reveals the sassy, daring, and sometimes heartbreaking memories of the dancers, singers, and producers who lived this story, and it weaves in a fascinating collection of photos, postcards, menus, programs, and yes, even souvenir chopsticks. Together they recreate a forgotten era, treating readers to a dazzling night on the town. *Forbidden City, USA: Chinatown Nightclubs, 1936-1970* is the culmination of filmmaker and writer Arthur Dong's nearly thirty-year devotion to the topic, originally inspired by the author's research for his documentary of the same name. *Forbidden City, USA: Chinatown Nightclubs, 1936-1970* was previously published in paperback under the title: *Forbidden City, USA: Chinese American Nightclubs, 1936-1970*.

Military Personnel: Additional Actions Needed to Improve Oversight of Reserve Employment Issues, 2007 DOD has made progress capturing employment information on its reservists since August 2005, but several challenges remain. In August 2004, DOD changed employer reporting by reservists from voluntary to mandatory. The number of reservists reporting employer information to DOD increased from 60 percent in August 2005 to about 77 percent in August 2006. However, we found that reservists have not fully reported civilian employment information, reported employment data are not necessarily current, and DOD's employer verification process is not adequate. Complete and current civilian employer information is important to DOD for several reasons, including its ability to provide sufficient outreach to employers. In August 2004, DOD established a 95 percent goal for reporting employment information for the Selected Reserve and a 75 percent reporting goal for the Individual Ready Reserve and Inactive National Guard. As of August 2006, about 91 percent of Selected Reserve members had reported this information, whereas only 30 percent of Individual Ready Reserve or Inactive National Guard Members with good addresses had complied. Currently, the Army Reserve has met the Selected Reserve reporting goal and the Army National Guard has met the Inactive National Guard reporting goal and nearly met the Selected Reserve goal, while the other reserve components have met neither goal. Moreover, DOD does not have specific time frames for when reserve components are to achieve their reporting goals, and has not directed the service components to take actions to assure compliance. In addition, the DOD instructions requires reservists to update their employment information when changes occur; however, during focus groups we found that reservists generally were not aware of the need to update employer information when employers changed.
