disruption—for everyone confronting the growth paradox. For readers of the bestselling *The Innovator's Dilemma*—and beyond—this definitive work will help anyone trying to transform their business right now. This classic work shows just how timely and relevant these ideas continue to be in today's hyper-accelerated business environment. Christensen and Raynor give advice on the business decisions crucial to achieving truly disruptive growth and propose guidelines for developing your own disruptive growth engine. The authors identify the forces that cause managers to make bad decisions as they package and shape new ideas—and offer new frameworks to help create the right conditions, at the right time, for a disruption to succeed. This is a must-read for all senior managers and business leaders responsible for innovation and growth, as well as members of their teams. Based on in-depth research and theories tested in hundreds of companies across many industries, *The Innovator's Solution* is a necessary addition to any innovation library—and an essential read for entrepreneurs and business builders worldwide.

The Partner Track Helen Wan, 2013-09-17 Ingrid Yung's life is full of firsts. A first-generation Chinese American, the first lawyer in her family, she's about to collect the holy grail of firsts and become the first minority woman to make partner at the venerable old Wall Street law firm Parsons Valentine & Hunt. Ingrid has perfected the art of passing and seamlessly blends into the old-boy corporate culture. She gamely banters in the corporate cafeteria, plays in the firm softball league, and earnestly racks

up her billable hours. But when an offensive incident at the summer outing threatens the firm's reputation, Ingrid's outsider status is suddenly thrown into sharp relief. Scrambling to do damage control, Parsons Valentine announces a new Diversity and Inclusion Initiative, commanding Ingrid to spearhead the effort. Only she's about to close an enormous transaction that was to be her final step in securing partnership. For the first time, Ingrid must question her place in the firm. Pitted against her colleagues, including her golden-boy boyfriend, Ingrid begins to wonder whether the prestige of partnership is worth breaching her ethics. But in *The Partner Track* by Helen Wan, can Ingrid risk throwing away the American dream that is finally within her reach?

Security on z/VM Paola Bari, Helio Almeida, Gary Detro, David Druker, Marian Gasparovic, Manfred Gnirss, Jean Francois Jiguet, IBM Redbooks, 2007-12-05
Discussions about server sprawl, rising software costs, going green, or moving data centers to reduce the cost of business are held in many meetings or conference calls in many organizations throughout the world. And many organizations are starting to turn toward System z™ and z/VM® after such discussions. The virtual machine operating system has over 40 years of experience as a hosting platform for servers, from the days of VM/SP, VM/XA, VM/ESA® and especially now with z/VM. With the consolidation of servers and

conservative estimates that approximately seventy percent of all critical corporate data reside on System z, we find ourselves needing a highly secure environment for the support of this infrastructure. This document was written to assist z/VM support and security personnel in providing the enterprise with a safe, secure and manageable environment. This IBM® Redbooks® publication provides an overview of security and integrity provided by z/VM and the processes for the implementation and configuration of z/VM Security Server, z/VM LDAP Server, IBM Tivoli® Directory Server for z/OS®, and Linux® on System z with PAM for LDAP authentication. Sample scenarios with RACF® database sharing between z/VM and z/OS, or through Tivoli Directory Integrator to synchronize LDAP databases, are also discussed in this book. This book provides information about configuration and usage of Linux on System z with the System z Cryptographic features documenting their hardware and software configuration. The Consul zSecure Pro Suite is also part of this document: this product helps to control and audit security not only on one system, but can be used as a single point of enterprise wide security control. This document covers the installation and configuration of this product and detailed information is presented on how z/Consul can be used to collect and analyze z/VM security data and how it can be helpful in the administration of your audit data.
