What We Owe the Future William MacAskill,2022-08-16 An Instant New York Times Bestseller “This book will change your sense of how grand the sweep of human history could be, where you fit into it, and how much you could do to change it for the better. It's as simple, and as ambitious, as that.” —Ezra Klein An Oxford philosopher makes the case for “longtermism” — that positively influencing the long-term future is a key moral priority of our time. The fate of the world is in our hands. Humanity’s written history spans only five thousand years. Our yet-unwritten future could last for millions more — or it could end tomorrow. Astonishing numbers of people could lead lives of great happiness or unimaginable suffering, or never live at all, depending on what we choose to do today. In *What We Owe The Future*, philosopher William MacAskill argues for longtermism, that idea that positively influencing the distant future is a key moral priority of our time. From this perspective, it’s not enough to reverse climate change or avert the next pandemic. We must ensure that civilization would rebound if it collapsed; counter the end of moral progress; and prepare for a planet where the smartest beings are digital, not human. If we make wise choices today, our grandchildren’s grandchildren will thrive, knowing we did everything we could to give them a world full of justice, hope and beauty.

*GSLIB* Clayton V. Deutsch,André G. Journal,1998 This successful text has been extensively revised to cover new algorithms and applications.

**Differential Forms in Algebraic Topology** Raoul Bott,Loring W. Tu,2013-04-17 Developed from a first-year graduate course in algebraic topology, this text is an informal introduction to some of the main ideas of contemporary homotopy and cohomology theory. The materials are structured around four core areas: de Rham theory, the Cech-de Rham complex, spectral sequences, and characteristic classes. By using the de Rham theory of differential forms as a prototype of cohomology, the machineries of algebraic topology are made easier to assimilate. With its stress on concreteness, motivation, and readability, this book is equally suitable for self-study and as a one-semester course in topology.

*Bread* Jeffrey Hamelman,2012-12-27 When *Bread* was first published in 2004, it received the Julia Child Award for best First Book and became an instant classic. Hailed as a “masterwork of bread baking literature,” Jeffrey Hamelman’s *Bread* features 140 detailed, step-by-step formulas for versatile sourdough ryes; numerous breads made with pre-ferments; and simple, straight dough loaves. Here, the bread baker and student will discover a diverse collection of flavors, tastes, and textures; hundreds of drawings that vividly illustrate techniques; and four-color photographs of finished and decorative breads.

*Undistracted* Bob Goff,2022-03-01 The world has never been more distracting—joy has never been more possible. You live with a

massive amount of distraction: desperate headlines smartphone scrolling an endless to-do list Not to mention the nagging questions of your heart: Am I making the right decision? Am I with the right person? Will my past mistakes keep me from my best future? Through the pithy and inspiring storytelling that has endeared him to millions, New York Times bestselling author Bob Goff invites you to laugh with more gusto, dream with more confidence, and love with more intention in this disarming call to live Undistracted. Bob's stories are like the rumble strips on the road that make you suddenly alert to how far you have drifted from your lane. From visiting friends in San Quentin to accidentally getting into a stalker's car at the airport to establishing Uganda's first space program, Bob shows you the way back to an audaciously attentive life. Your undistracted life is an adventure waiting to happen. What stories will you live with undistracted purpose and unstoppable joy?

**Burnout** Emily Nagoski, Amelia Nagoski, 2019 The Nagoskis explain why women experience burnout differently than men-- and provide a simple, science-based plan to help women minimize stress, manage emotions, and live a more joyful life. With insights from the latest science, prescriptive advice, and helpful worksheets and exercises, they explain why rest, human connection, and befriending your inner critic are key to recovering from and preventing burnout. -- adapted from publisher info

**The Large Scale Structure of Space-Time** S. W. Hawking, G. F. R. Ellis, 1975-02-27 Einstein's General Theory of Relativity leads to two remarkable predictions: first, that the ultimate destiny of many massive stars is to undergo gravitational collapse and to disappear from view, leaving behind a 'black hole' in space; and secondly, that there will exist singularities in space-time itself. These singularities are places where space-time begins or ends, and the presently known laws of physics break down. They will occur inside black holes, and in the past are what might be construed as the beginning of the universe. To show how these predictions arise, the authors discuss the General Theory of Relativity in the large. Starting with a precise formulation of the theory and an account of the necessary background of differential geometry, the significance of space-time curvature is discussed and the global properties of a number of exact solutions of Einstein's field equations are examined. The theory of the causal structure of a general space-time is developed, and is used to study black holes and to prove a number of theorems establishing the inevitability of singularities under certain conditions. A discussion of the Cauchy problem for General Relativity is also included in this 1973 book.

**Got to Give the People What They Want** Jalen Rose, 2015-10-06 "I want to start conversations, and even better, arguments." - From the Introduction One of the most outspoken and original voices in sports sounds off while revealing his incredible life story. Jalen Rose has never been quiet. Not as a kid growing up in Detroit in the 70's and 80's. Not as the brash, trash-talking leader of the legendary "Fab Five" at the University of Michigan. Not as the player under the stewardship of Hall of Famers Larry Bird, Isiah Thomas and others throughout his 13-year NBA career. And certainly not as a commentator and analyst on ABC/ESPN and Grantland. In Got to Give the People What They Want, no topic is off limits. Honest, unfiltered, unbiased. Raw, refreshing, real. This colorful collection of stories and opinions about basketball and life gives people the kind of insight and understanding they don't get anywhere else in the sports world.

**Deep Space Telecommunications Systems Engineering** Joseph H. Yuen, 2013-04-17 The challenge of communication in planetary exploration has been unusual. The guidance and control of spacecraft depend on reliable communication. Scientific data returned to earth are irreplaceable, or replaceable only at the cost of another mission. In deep space, communications propagation is good, relative to terrestrial communications, and there is an opportunity to press toward the mathematical limit of microwave

communication. Yet the limits must be approached warily, with reliability as well as channel capacity in mind. Further, the effects of small changes in the earth's atmosphere and the interplanetary plasma have small but important effects on propagation time and hence on the measurement of distance. Advances are almost incredible. Communication capability measured in 18 bits per second at a given range rose by a factor of 10 in the 19 years from Explorer I of 1958 to Voyager of 1977. This improvement was attained through ingenious design based on the sort of penetrating analysis set forth in this book by engineers who took part in a highly detailed and amazingly successful program. Careful observation and analysis have told us much about limitations on the accurate measurement of distance. It is not easy to get busy people to tell others clearly and in detail how they have solved important problems. Joseph H. Yuen and the other contributors to this book are to be commended for the time and care they have devoted to explicating one vital aspect of a great adventure of mankind.

Clean Code Robert C. Martin, 2009 Looks at the principles and clean code, includes case studies showcasing the practices of writing clean code, and contains a list of heuristics and smells accumulated from the process of writing clean code.

*Mr. Penumbra's 24-Hour Bookstore* Robin Sloan, 2012-10-02 The Great Recession has shuffled Clay Jannon out of his life as a web-design drone, and serendipity, sheer curiosity and the ability to climb a ladder like a monkey have landed him a new gig working the night shift at Mr. Penumbra's 24-Hour Bookstore. But Clay begins to realize that this store is even more curious than its name suggests. There are only a few customers, but they come in repeatedly and never seem to actually buy anything. Instead they "check out" impossibly obscure volumes from strange corners of the store, all according to some elaborate, long-standing arrangement with the gnomish Mr. Penumbra. The store must be a front for something larger, Clay concludes, and soon he has embarked on a complex analysis of the customers' behaviour and roped his friends into helping him figure out just what's going on. But once they take their findings to Mr. Penumbra, they discover the secrets extend far beyond the walls of the bookstore. Evoking both the fairy-tale charm of Haruki Murakami and the enthusiastic novel-of-ideas wizardry of Neal Stephenson or Umberto Eco, Mr. Penumbra's 24-Hour Bookstore is exactly what it sounds like—an establishment you have to enter and will never want to leave.

**Big Feelings** Liz Fosslien, Mollie West Duffy, 2022-04-26 From the duo behind the bestselling book *No Hard Feelings* and the wildly popular @LizandMollie Instagram, an insightful and approachable illustrated guide to handling our most difficult emotions. We all experience unwieldy feelings. But between our emotion-phobic society and the debilitating uncertainty of modern times, we usually don't know how to talk about what we're going through, much less handle it. Over the past year, Liz Fosslien and Mollie West Duffy's online community has laughed and cried about productivity guilt, pandemic anxiety, and Zoom fatigue. Now, *Big Feelings* addresses anyone intimidated by oversized feelings they can't predict or control, offering the tools to understand what's really going on, find comfort, and face the future with a sense of newfound agency. Weaving surprising science with personal stories and original illustrations, each chapter examines one uncomfortable feeling—like envy, burnout, and anxiety—and lays out strategies for turning big emotions into manageable ones. You'll learn:

- How to end the cycle of intrusive thoughts brought on by regret, and instead use this feeling as a compass for making decisions
- How to identify what's behind your anger and communicate it productively, without putting people on the defensive
- Why we might be suffering from perfectionism even if we feel far from perfect, and how to detach your self-worth from what you do

*Big Feelings* helps us understand that difficult emotions are not abnormal, and that we can emerge from them with a deeper sense of meaning. We can't stop emotions from bubbling up, but we can learn how to make peace with them.

Problems on Algorithms Ian Parberry, 1995 With approximately 600 problems and 35 worked examples, this supplement provides a collection of practical problems on the design, analysis and verification of algorithms. The book focuses on the important areas of algorithm design and analysis: background material; algorithm design techniques; advanced data structures and NP-completeness; and miscellaneous problems. Algorithms are expressed in Pascal-like pseudocode supported by figures, diagrams, hints, solutions, and comments.

**What It Is Like to Go to War** Karl Marlantes, 2011-08-30 “A precisely crafted and bracingly honest” memoir of war and its aftershocks from the New York Times–bestselling author of *Matterhorn* (The Atlantic). In 1968, at the age of twenty-three, Karl Marlantes was dropped into the highland jungle of Vietnam, an inexperienced lieutenant in command of forty Marines who would live or die by his decisions. In his thirteen-month tour he saw intense combat, killing the enemy and watching friends die. Marlantes survived, but like many of his brothers in arms, he has spent the last forty years dealing with his experiences. In *What It Is Like to Go to War*, Marlantes takes a candid look at these experiences and critically examines how we might better prepare young soldiers for war. In the past, warriors were prepared for battle by ritual, religion, and literature—which also helped bring them home. While contemplating ancient works from Homer to the Mahabharata, Marlantes writes of the daily contradictions modern warriors are subject to, of being haunted by the face of a young North Vietnamese soldier he killed at close quarters, and of how he finally found a way to make peace with his past. Through it all, he demonstrates just how poorly prepared our nineteen-year-old warriors are for the psychological and spiritual aspects of the journey. In this memoir, the New York Times–bestselling author of *Matterhorn* offers “a well-crafted and forcefully argued work that contains fresh and important insights into what it’s like to be in a war and what it does to the human psyche” (The Washington Post).

*On Her Knees* Brenda Marie Davies, 2021-04-06 “The problem was, because Purity is an idol (a validated and worshiped idol), I didn’t know who or what I’d be without my totem. My Christianity depended on Purity.” Going to a conservative Christian church when she was young, Brenda Marie Davies heard a consistent message—save yourself for marriage—that instilled in her fear and shame about sex. But after moving to Los Angeles at nineteen and finding herself suddenly exposed to a world far outside her comfort zone, she was forced to wrestle with the power and perversity of Christian purity culture. *On Her Knees* chronicles Brenda’s spiritual journey over the course of a decade in LA, through marriage, divorce, unlikely friendship, and sexual exploration. Through it all, she began tearing down the false idol of purity while refusing to abandon her faith. Told with raw honesty, sans obligatory shame, this is a story for anyone who wonders if it’s possible to love God without fearing sex, in all its shades of grey.

**Facing the Mountain** Daniel James Brown, 2021-05-11 A NEW YORK TIMES BESTSELLER One of NPR’s Books We Love of 2021 Longlisted for the PEN/Jacqueline Bograd Weld Award for Biography Winner of the Christopher Award “Masterly. An epic story of four Japanese-American families and their sons who volunteered for military service and displayed uncommon heroism... Propulsive and gripping, in part because of Mr. Brown’s ability to make us care deeply about the fates of these individual soldiers...a page-turner.” – Wall Street Journal From the #1 New York Times bestselling author of *The Boys in the Boat*, a gripping World War II saga of patriotism and resistance, focusing on four Japanese American men and their families, and the contributions and sacrifices that they made for the sake of the nation. In the days and months after Pearl Harbor, the lives of Japanese Americans across the continent and Hawaii were changed forever. In this unforgettable chronicle of war-time America and the battlefields of Europe, Daniel James Brown portrays the

journey of Rudy Tokiwa, Fred Shiosaki, and Kats Miho, who volunteered for the 442nd Regimental Combat Team and were deployed to France, Germany, and Italy, where they were asked to do the near impossible. Brown also tells the story of these soldiers' parents, immigrants who were forced to submit to life in concentration camps on U.S. soil. Woven throughout is the chronicle of Gordon Hirabayashi, one of a cadre of patriotic resisters who stood up against their government in defense of their own rights. Whether fighting on battlefields or in courtrooms, these were Americans under unprecedented strain, doing what Americans do best—striving, resisting, pushing back, rising up, standing on principle, laying down their lives, and enduring.
