Refining versus Simplification in Transmission and Performance / Humans and their Musical

Instruments as Part of Nature Gisa Jähnichen, 2023-11-01 This collection comprises papers presented at the 24th symposium of the ICTM Study Group on Musical Instruments held in the Spring of 2023 at the Faculty of Music, University of the Visual and Performing Arts, Colombo, Sri Lanka. It includes contributions by Rastko Jakovljevic, Ahmad Faudzi Musib, Choduraa Tumat and Bernard Kleikamp, Hoh Chung Shih, Huang Wan, Gisa Jähnichen, Liu Xiangkun, Sulwyn Lok and Andrew Filmer, Chinthaka P. Meddegoda, Nishadi Prageetha Meddegoda, Christopher A. Miller, Renzi, Nicola, Timkehet Teffera, Xue Tong, Adilia Yip, and Zhong Wei Cheng. All scholars make valuable contributions in questions about sound manipulation or about musical instruments of humans as part of nature. Did you know that Jimi Hendrix manipulated his sound effects or how many waza trumpets of the Berta are quickly tuned and which instruments accompany a joik in reality? These, and many other questions are answered in the diverse articles compiled in this volume. They celebrate diversity in their own way.

Healing Plants of Nigeria Anselm Adodo, Maurice M. Iwu, 2020-03-17 **Healing Plants of Nigeria: Ethnomedicine and Therapeutic Applications** offers comprehensive information on the use of herbal medicines in West Africa. Combining an evidence-based, ethnobotanical perspective with a pharmacological and pharmaceutical approach to phytomedicine, the book bridges the gap between the study of herbal plants' pharmacological properties and active compounds for the development of clinical drugs and community-oriented approaches, emphasising local use. It demonstrates how the framework of African traditional medicine can be preserved in a contemporary clinical context. The book outlines the history and beliefs surrounding the traditional use of herbs by the local population alongside their application in contemporary phytotherapy in Nigeria and West Africa. It features a critical assessment of the scientific rationale behind the use of these plants in ethnomedicine and offers a composite catalogue of phytotherapeutic and wellness agents, detailing the safety profile, efficacy, and scientific integrity of plants used to treat diseases and optimise health. Features: An ethnobotanical survey containing over 200 full-colour photographs of Nigerian and West African plants. A unique combination of ethnobotany and pharmacognosy, bridging the divide between pharmaceutical and community-oriented approaches to herbal medicine research. Contextual discussion of the therapeutic potential of Nigerian herbal medicine. Offers a template which can be used to separate the superstitious aspects of ethnomedicine from culturally inherited deposits of knowledge. A handbook for herbal and natural medicine practitioners, the book is aimed at African thinkers, scientists, healthcare providers and students of pharmacology and ethnomedicine.

Trade Finance Christopher Hare,Dora Neo,2021-07-01 Trade Finance provides a much-needed re-examination of the relevant legal principles and a study of the challenges posed to current legal structures by technological changes, financial innovation, and international regulation. Arising out of the papers presented at the symposium, Trade Finance for the 21st Century, this collection brings together the perspectives of scholars and practitioners from around the globe focusing on core themes, such as reform and the future role of the UCP, the impact of technology on letters of credit and other forms of trade finance, and the rise of alternative forms of financing. The book covers three key fields of trade finance, starting with the challenges to traditional trade financing by means of documentary credit. These include issues related to contractual enforceability, the use of soft clauses, the doctrine of strict compliance, the fraud exception, the role of the correspondent bank, performance bonds, and conflict of laws problems. The second main area covered by the work is the technological issues and opportunities in trade finance, including electronic bills of exchange, blockchain, and electronically transferable records. The final part of the work considers alternative and complementary trade finance mechanisms such as open account trading, supply-chain financing, the bank payment obligation, and countertrade.

Modern Essays on Nigerian Law Remigius N Nwabueze,2019-10-08 This collection of essays provides critical and in-depth analyses of Nigerian law, with comparisons to the laws of England and Wales, Canada, Australia, the USA and Singapore. It brings together world-class Nigerian legal academics who teach in various and leading law schools across the globe. The contributions represent the entire gamut of Nigerian law, from land law and the Land Use Act, through banking law, to commercial law. They also encompass insights from human rights law and procedures, criminal law,

international law and the concept of self-determination, and Internet law and the regulation of electronic commerce. This book will be exceedingly useful to legal practitioners and academics, students and comparatists.

Nature Power Anselm Adodo, OSB, 2013-10-04 When *Nature Power* was first published twelve years ago, the practice of herbal medicine in Nigeria and in most parts of Africa was identified with witchcraft, sorcery, ritualism, and all sorts of fetish practices. Because herbal medicine was associated with paganism, African Christians secretly patronize traditional healers, and the educated elite and religious figures did not want to be associated in any way with traditional African medicine. *Nature Power*, like a lonely voice in a wilderness, was written to correct the misconception that African herbal medicine is synonymous with paganism, ritualism, and fetishism. Since its publication, *Nature Power* has been reprinted more than eight times. It has contributed immensely in changing the attitudes of both the government and Christians toward the practice of herbal medicine. *Nature Power* has also helped show that health is more than an absence of disease. Health is wholeness of mind, soul, and body. Much of the information in this book is age-old secrets, which herbalists keep close to their chests. I have made them available here so that humanity may profit from them.

International Sport Management Eric W. MacIntosh, 2019-03-05 *International Sport Management*, Second Edition, serves as an invaluable guide for students as they build careers that require an understanding of the relationships, influences, and responsibilities of sport management in a global context.

International Sport Management Eric MacIntosh, Gonzalo Bravo, Ming Li, 2019-03-05 *International Sport Management* is the first comprehensive textbook devoted to the organization, governance, business activities, and cross-cultural context of modern sport on an international level. As the sport industry continues its global expansion, this textbook serves as an invaluable guide for readers as they build careers that require an international understanding of the relationships, influences, and responsibilities in sport management. Through a systematic presentation of topics and issues in international sport, this textbook offers a long-overdue guide for students in this burgeoning subfield in sport management. Editors Li, MacIntosh, and Bravo have assembled contributors from all corners of the globe to present a truly international perspective on the topic. With attention to diversity and multiple viewpoints, each chapter is authored by distinguished academics and practitioners in the field. A foreword by esteemed sport management scholar Dr. Earle Zeigler emphasizes the importance of a

dedicated study of the issues in international sport management. All chapters in the text use a global perspective to better showcase how international sport operates in various geopolitical environments and cultures. The text is arranged in five parts, each serving a unique purpose:

- To outline the issues associated with international sport management
- To examine sport using a unique perspective that emphasizes its status as a global industry
- To introduce the structure of governance in international sport
- To examine the management essentials in international sport
- To apply these strategies in the business segments of sport marketing, sport media and information technology, sport facilities and design, sport event management, and sport tourism

Written to engage students, *International Sport Management* contains an array of learning aids to assist with comprehension of the material. It includes case studies and sidebars that apply the concepts to real-world situations and demonstrate the varied issues, challenges, and opportunities affecting sport management worldwide. Chapter objectives, key terms, learning activities, summaries, and discussion questions guide learning in this wide-ranging subject area. In addition, extensive reference sections support the work of practitioners in the field. With *International Sport Management*, both practicing and future sport managers can develop an increased understanding of the range of intercultural competencies necessary for success in the field. Using a framework of strategic and total-quality management, the text allows readers to examine global issues from an ethical perspective and uncover solutions to complex challenges that sport managers face. With this approach, readers will learn how to combine business practices with knowledge in international sport to lead their current and future careers. *International Sport Management* offers readers a multifaceted view of the issues, challenges, and opportunities in international sport management as well as the major functional areas that govern international sport. The text provides students, academics, and practitioners with critical insights into the practice of business as it applies to international sport.
