Internet Explorer Construction Kit For Dummies Clayton Walnum, 2004-10-27 You've heard the saying, "If you want something done right, do it yourself." Actually, most Internet browsers are done right. Chances are, you're comfortable with yours. Yet, you may want to build your own. You don't have to start from scratch—you can start with the Browser Construction Kit on the CD-ROM that comes with Internet Explorer Construction Kit for Dummies. Best of all, there's no programming required. Whether you personalize your browser or build one just for your business, you can include features and functions not available with traditional browsers, including: Log file: a list of all Web sites visited Alarm: an audible or popup alarm that signals the end of the time period used with the

countdown timer Lock: prevents the custom browser from further browsing Approved list: list of Web sites to which browsing is limited Spy: screen captures taken once a minute Popular sites: a list of the most-visited sites You can make your browser G-rated. You even have everything you need to create a browser with themed graphics, choosing from animal, art, music, sea, sports, or more. Have fun creating your own personalized, custom-built browser.
