*The Governance of Privacy* Colin J. Bennett, Charles D. Raab, 2017-11-01 This book was published in 2003. This book offers a broad and incisive analysis of the governance of privacy protection with regard to personal information in contemporary advanced industrial states. Based on research across many countries, it discusses the goals of privacy protection policy and the changing discourse surrounding the privacy issue, concerning risk, trust and social values. It analyzes at length the contemporary policy instruments that together comprise the inventory of possible solutions to the problem of privacy protection. It argues that privacy protection depends upon an integration of these instruments, but that any country's efforts are inescapably linked with the actions of others that operate outside its borders. The book concludes that, in a 'globalizing' world, this regulatory interdependence could lead either to a search for the highest possible standard of privacy protection, or to competitive deregulation, or to a more complex outcome reflecting the nature of the issue and its policy responses.

With over 75 full-colour and b/w illustrations.

**The Golden Web** E. Phillips Oppenheim, 2021-04-25 The contrast in personal appearance between the two men, having regard to their relative positions, was a significant thing. The caller, who had just been summoned from the waiting-room, and was standing before the other's table, hat in hand, a little shabby, with ill-brushed hair and doubtful collar, bore in his countenance many traces of the wild and irregular life which had reduced him at this moment to the position of suppliant. His complexion was pale almost to ghastliness, and in his deep-set, sunken eyes there was more than a suggestion of recklessness. He was so nervous that his face twitched as he stood there waiting, and the fingers which held his hat trembled. His lips were a little parted, his breathing was scarcely healthy. There was something about his whole appearance indicative of failure. The writing upon his forehead was the writing of despair.
