About Online Poker Nicolae Sfetcu,2014-05-03 This book is intended to be an introduction to the poker game, emphasizing on the online poker, the betting structure, poker variants, poker strategy and specific poker tournaments. Online poker is the game of poker played over the Internet. Online poker rooms tend to be viewed as more player-friendly and allow the players to play for very low stakes. It has been partly responsible for a dramatic increase in the number of poker players worldwide. While the practice of comping players with free meals, hotel rooms, and merchandise is quite common in B&M casinos, online poker rooms have needed to develop new ways to reward faithful customers. The most common way of doing this is through deposit bonuses, where the player is given a bonus code to enter when placing money into an account. One common feature of the online poker sites is to offer tournaments called satellites by which the winners gain entry to real-life poker tournaments. Online poker rooms reward customers through deposit bonuses, where the player is given a bonus code to enter when placing money into an account.

Poker Games Guide - Texas Hold 'em Poker Nicolae Sfetcu,2016-11-07 This book is an introduction to the poker game, emphasizing on the Texas Hold 'em Poker, the betting structure, poker variants, poker strategy and specific poker tournaments. The popularity of poker (mainly the no-limit Texas hold'em) reached an unprecedented peak in the 2000s. This poker boom is attributed to several factors: the invention of online poker, the television

broadcast tournaments (with miniature cameras revealing the cards), the presentation of the online poker sites in television commercials, and victory in 2003 of Chris Moneymaker at the World Series of Poker. Not only the public can now follow the actions of the tournaments on television, turning this game in the sporting spectacle, but it can also be played directly from home. The spread of tournaments such as the World Series of Poker and the World Poker Tour created a strong following among television program providers by cable or satellite. Because of the hype, professional players have become celebrities, with many fans around the world participating in tournaments in the hope of being confronted with these celebrities. Poker is played in many variations but there are three large families. They differ firstly by the way of distribution of playing cards. Cards can be shared by all players or private for each player. They can also be closed (visible only by the owner of cards) or open (visible to all). There are also differences in the game base on stakes. The winning hands can be high, low or both (high/low). In some embodiments where poker is played high and low hands, certain conditions are imposed on low hands. For example, a player's hand can not contain card over eight (eight or better), or aces can count only as high card (deuce to seven). Poker is a microcosm of all we admire and disdain about capitalism and democracy. It can be rough-hewn or polished, warm or cold, charitable and caring or hard and impersonal. It is fickle and elusive, but ultimately it is fair, and right, and just. -- Lou Krieger

Online Poker - Winning Strategies Revealed Alex Master,2019-03-19 It's becoming almost as big as baseball, football, hockey, and other sporting events. Television has increased its popularity. With the Internet, it's coming into our homes at a lightning fast rate. The rage that's sweeping the nation – poker! Although the game has been around for years played in family recreation rooms, smoky bars, casinos, and even retirement homes, these days, poker has become the game of choice for hundreds of thousands of people. Family game night used to mean getting out the Monopoly board and battling over Park Place and Broadway. Now, family game night is more likely to be characterized by breaking out the poker chips and battling each other for the best hands. More and more people are talking about their bad beats, their great hands, and their prowess for play. Popular on college campuses, fraternal clubs, and even retirement homes, poker has become our new game of chance, and our new game of choice. What has led to the rise of this game? Most likely, it has been television and the media. On any given evening, the average person can flip on the TV set and find a poker game being aired. The World Series of Poker, Celebrity Poker Showdown, and Ultimate Poker Showdown are rising in the ratings as we tune in to see professionals battle it out and compare our play to theirs. Nearly every home these days has at least one computer. The Internet has become our lifeline, in ways, for information, contact with the outside world, and – yes – our portal to the world of poker beyond our kitchen table. Now ordinary

people can log on and play poker with people other than our parents, kids, and friends. Many professional players sponsor online website where they are required to play allowing Average Joe to match his poker skills with the likes of Howard Lederer and Chris Ferguson. Perhaps the biggest rise in poker popularity – specifically online poker – stems from one man's $40 online buy-in leading to the Cinderella story of the industry. Chris Moneymaker qualified for The World Series of Poker main event through a small buy-in satellite event at Poker Stars. At the Series, he outlasted a field of 839 entrants – the largest in World Series of Poker history at the time. He pitted heads against some of the most well-known poker professionals in the world – and won! Moneymaker's first-place finish netted him $2.5 million dollars, which wasn't bad considering it was his first live tournament. Many people looked at Moneymaker's win as monumental. After all, he was just an average guy. He could be anyone's next door neighbor or co-worker, and he went up against the pros and won. Chris Moneymaker opened the door for everyday people to dream about being the next professional poker player. In fact, the 2004 World Series featured triple the number of players over the 2003 turnout. At least four players in the WSOP final table won their entry through an online card room. Like Moneymaker, 2004 winner Greg "Fossil man" Raymer also won his entry at the Poker Stars online card room. There are a myriad of tips and tricks for playing the game of poker. Everyone seems to have an opinion on the best way to play the game. True, poker is a game of chance, and many would argue that there really is no secret to winning the game. However, there is a best way to play. As Kenny Rogers sang in "The Gambler", you've got to know when to hold 'em and know when to fold 'em. Know when to walk away, and know when to run. There are many variations on the game of poker, but the one most popular today has got to be Texas Hold 'Em. It's a relatively simple game, but like all poker, it can change with the deal of every card. In this book, we'll explore different ways to play the game online to maximize on your buy-in. Just take a look at the number of gaming and gambling sites offering variants on the game and the amount of media coverage and airtime it gets.
