Art in Time Dan Nadel, 2010-03 . . . Focuses on the lesser-known comic works by celebrated icons of the industry, like H.G. Intime Momente Jeane Sashi, 2015-11-09 Trying to find love was not easy, especially when you're a successful, attractive lady in your thirties who was looking for a relationship of sustenance, after being divorced for five years. Tonju was torn between three men vying for her attention. One was an unhappily married man from her past who was willing to let go of everything in order to be with her. The second man was her ex-husband; he never stopped loving her and has realized his mistakes and will do what has and needs to be done to get her back. The third man was someone she met on a girl's night out. So far he has good qualities, but there's still an air of mystery about him. Could either of these men be the love Tonju's looking for? She has reservations; some good and some not-so-good about the three of them, she had completely broken all ties with one, was leaning closely towards another one, and was looking sideways at the other one. Could Tonju truly be experiencing love?

GALACTIC TREASURE HUNT IV Jamie Childress,Chris Braun,2013-04-19 In this fourth book of the Galactic Treasure Hunt series, Galactic Treasure heroes Jake, Scott, and Nojo continue their adventuring when they get Lost in Time.

The travelers take a wrong turn in a wormhole and arrive in the dangerous era of dinosaurs. The boys brave the mighty meat eaters and raging rivers of the past only to discover that alien criminals await them in the future. It's a thrill ride at both ends of time. Short chapters with illustrations on every page make it a great book for reading to children. The fantastic story is based on real science, so at the end of the book the author (a Boeing engineer) discusses the science. There is a special alien alphabet decoder in the book and clues written in the alien alphabet.

Many Waters Madeleine L'Engle,2010-04-01 In A Wrinkle in Time Quintet book two, Meg Murry, now in college, time travels with her twin brothers, Sandy and Dennys, to a desert oasis that is embroiled in war. Sandy and Dennys have always been the normal, run-of-the-mill ones in the extraordinary Murry family. They garden, make an occasional A in school, and play baseball.

Nothing especially interesting has happened to the twins until they accidentally interrupt their father's experiment. Then the two boys are thrown across time and space. They find themselves alone in the desert, where, if they believe in unicorns, they can find unicorns, and whether they believe or not, mammoths and manticores will find them. The twins are rescued by Japheth, a man from the nearby oasis, but before he can bring them to safety, Dennys gets lost. Each boy is quickly embroiled in the conflicts of this time and place, whose populations includes winged seraphim, a few stray mythic beasts, perilous and beautiful nephilim, and small, long lived humans who consider Sandy and Dennys giants. The boys find they have more to do in the oasis than simply getting themselves home--they have to reunite an estranged father and son, but it won't be easy, especially when the son is named Noah and he's about to start building a boat in the desert. know that something awful is about to happen to my Jesus: they're going to arrest him tonight, and kill him. No one believes me; they think I'm crazy.
