**Small Town** Lawrence Sanders,2009-10-13 The author of dozens of acclaimed novels including those in the Scudder and Keller series, Lawrence Sanders has long been recognized as one of the premier crime writers of our time. Now, the breathtaking skill, power, and versatility of this Grand Master are brilliantly displayed once again in a mesmerizing new thriller set on the streets of the city he knows and loves so well. That was the thing about New York -- if you loved it, if it worked for you, it ruined you for anyplace else in the world. In this dazzlingly constructed novel, Lawrence Sanders reveals the secret at the heart of the Big Apple. His glorious metropolis is really a small town, filled with men and women from all walks of life whose aspirations, fears, disappointments, and triumphs are interconnected by bonds as unbreakable as they are unseen. Pulsating with the lives of its denizens -- bartenders and hookers, power brokers and politicians, cops and secretaries, editors and dreamers -- the city inspires a passion that is universal yet unique in each of its eight million inhabitants, including: John Blair Creighton, a writer on the verge of a breakthrough; Francis Buckram, a charismatic ex-police commissioner -- and the inside choice for the next mayor -- on the verge of a breakdown; Susan Pomerance, a beautiful, sophisticated folk-art dealer plumbing the depths of her own fierce sexuality; Maury Winters, a defense attorney who prefers murder trials because there's one less witness; Jerry Pankow, an ex-addict who has turned being clean into a living, mopping up after New York's nightlife; And, in the shadows of a city reeling from tragedy, an unlikely killing machine who wages a one-man war against them all. Infused with the raw cadence, stark beauty, and relentless pace of New York City, *Small Town* is a tour de force Sanders fans old and new will celebrate.

All the Light We Cannot See Anthony Doerr, 2014-05-06 \*NOW A NETFLIX LIMITED SERIES—from producer and director Shawn Levy (Stranger Things) starring Mark Ruffalo, Hugh Laurie, and newcomer Aria Mia Loberti\* Winner of the Pulitzer Prize and National Book Award finalist, the beloved instant New York Times bestseller and New York Times Book Review Top 10 Book about a blind French girl and a German boy whose paths collide in occupied France as both try to survive the devastation of World War II. Marie-Laure lives with her father in Paris near the Museum of Natural History where he works as the master of its thousands of locks. When she is six, Marie-Laure goes blind and her father builds a perfect miniature of their neighborhood so she can memorize it by touch and navigate her way home. When she is twelve, the Nazis occupy Paris, and father and daughter flee to the walled citadel of Saint-Malo, where Marie-Laure's reclusive great uncle lives in a tall house by the sea. With them they carry what might be the museum's most valuable and dangerous jewel. In a mining town in Germany, the orphan Werner grows up with his younger sister, enchanted by a crude radio they find. Werner becomes an expert at building and fixing these crucial new instruments, a talent that wins him a place at a brutal academy for Hitler Youth, then a special assignment to track the Resistance. More and more aware of the human cost of his intelligence, Werner travels through the heart of the war and, finally, into Saint-Malo, where his story and Marie-Laure's converge. Doerr's "stunning sense of physical detail and gorgeous metaphors" (San Francisco Chronicle) are dazzling. Deftly interweaving the lives of Marie-Laure and Werner, he illuminates the ways, against all odds, people try to be good to one another. Ten years in the writing, *All the Light We Cannot See* is a magnificent, deeply moving novel from a writer "whose sentences never fail to thrill" (Los Angeles Times).

The Fuzzy and the Techie Scott Hartley, 2017-04-25 "Artfully explains why it is time for us to get over the false division between the human and the technical."—Tim Brown, CEO of IDEO and author of *Change by Design* Scott Hartley first heard the terms fuzzy and techie while studying political science at Stanford University. If you majored in humanities or social sciences, you were a fuzzy. If you majored in computer or hard sciences, you were a techie. While Silicon Valley is generally considered a techie stronghold, the founders of companies like Airbnb, Pinterest, Slack, LinkedIn, PayPal, Stitch Fix, Reddit, and others are all fuzzies—in other words, people with backgrounds in the liberal arts. In this brilliantly counterintuitive book, Hartley shatters assumptions about business and education today: learning to code is not enough. The soft skills—curiosity, communication, and collaboration, along with an understanding of psychology and society's gravest problems—are central to why technology has value. Fuzzies are the instrumental stewards of robots, artificial intelligence, and machine learning. They offer a human touch that is of equal—if not greater—importance in our technology-led world than what most techies can provide. For anyone doubting whether a well-rounded liberal arts education is practical in today's world, Hartley's work will come as an inspiring revelation. Finalist for the 2016 Financial Times/McKinsey Bracken Bower Prize and A Financial Times Business Book of the Month

Before We Were Strangers Renée Carlino, 2015-08-18 From the USA TODAY bestselling author of *Sweet Thing* and *Nowhere But Here* comes a love story about a Craigslist "missed connection" post that gives two people a second chance at love fifteen years after they were separated in New York City. To the Green-eyed Lovebird: We met fifteen years ago, almost to the day, when I moved my stuff into the NYU dorm room next to yours at Senior House. You called us fast friends. I like to think it was more. We lived on nothing but the excitement of finding ourselves through music (you were obsessed with Jeff Buckley), photography (I couldn't stop taking pictures of you), hanging out in Washington Square Park, and all the weird things we did to make money. I learned more about myself that year than any other. Yet, somehow, it all fell apart. We lost touch the summer after graduation when I went to South America to work for National Geographic. When I came back, you were gone. A part of me still wonders if I pushed you too hard after the wedding... I didn't see you again until a month ago. It was a Wednesday. You were rocking back on your heels, balancing on that thick yellow line that runs along the subway platform, waiting for the F train. I didn't know it was you until it was too late, and then you were gone. Again. You said my name; I saw it on your lips. I tried to will the train to stop, just so I could say hello. After seeing you, all of the youthful feelings and memories came flooding back to me, and now I've spent the better part of a month wondering what your life is like. I might be totally out of my mind, but would you like to get a drink with me and catch up on the last decade and a half? M

*Unlocking the Emotional Brain* Bruce Ecker, Robin Ticic, Laurel Hulley, 2022-03-23 In *Unlocking the Emotional Brain*, authors Ecker, Ticic, and Hulley equip readers to carry out focused, empathic therapy using the potent process of memory reconsolidation, the recently discovered and only known process for actually unlocking emotional memory at the synaptic level. The Routledge classic edition includes a new preface from the authors describing the book's widespread impact on psychotherapy since its initial publication. Emotional memory's tenacity is the familiar bane of therapists, and researchers had long believed that emotional memory forms indelible learning. Reconsolidation has overturned these views. It allows new learning to truly nullify, not just suppress, the deep, intensely problematic emotional learnings that form, outside of awareness, during childhood or in later tribulations and generate most of the symptoms that bring people to therapy. Readers will learn methods that precisely eliminate unwanted, ingrained emotional responses—whether moods, behaviors, or thought patterns—causing no loss of ordinary narrative memory, while restoring clients' well-being. Numerous case examples show the versatile use of this process in AEDP, coherence therapy, EFT, EMDR, and IPNB.
