USA Investment Visa to Green Card How to Qualify, Apply and Obtain EB-5, E-2, L-1 Visa Complete A to Z Guide As an immigrant myself I have always been fascinated by various types of visas and immigration opportunities that countries like the U.S. and other western nations offer to different foreign nationals. People migrate to other nations for various reasons but looking back I can tell you the top four reasons most people I know migrate to countries like the USA, Great Britain, and other western countries: Education Financial future Safety and security Freedom There are many immigration programs most all western countries offer to other foreign nationals simply because these Western countries want to create more diversity, increase innovation and to bring foreign investment. The U.S. has been the most successful country in the world in terms of education, safety, financial future and freedom for more than a century. One of the main contributing factors for its success has been its immigration policy. For centuries people from all around the world came and settled in the USA and made it one of the most diversified countries. The goal for the US immigration and the lawmakers have always been to attract the best and the brightest people from all walks of life and culture, so the country can prosper from the contribution of all the talents. Diversity in a population is always a strength and never a weakness, the countries that understood that early on are the ones that became very successful. We also included a chapter where we picked out the top 15 countries that have similar investment visa programs to what we have in the U.S. In that chapter you will find information on all the requirements on applying for an investment visa in countries like England, France, Australia, Canada, Belgium, Bulgaria, Germany and few more.

What You Will Learn in This Book: What are EB-5, E-2, L-1 visa programs How you can qualify for them What the requirements are Difference between direct Investment vs. regional Investment What is an EB-5 Regional Center How to Form a Regional Center Steps to become a EB-5 Regional Center How to identify the Right Regional Center What are the Job Creation Requirements What type of Forms you need to fill out List of Documents you need to gather How much money you need to invest 10 Most Commonly Asked Questions about E-2 Visa List of Countries That have the Treaty with U.S. What the exact steps are to obtain such visa How to Turn the Visa into Green Card How to Convert Temporary Green Card to Permanent Green Card What the 7 most popular businesses are to invest in the U.S. Where to go to get more information(Resources) Where to Download All the immigration Forms and much more... Good Luck!

Investing in the United States Karl P. Sauvant,2009-01-01 This essential book analyzes the regulatory and operational challenges that foreign direct investors face in the United States, as well as the ways in which these challenges can be overcome. Firms from emerging markets, particularly China, are increasingly investing in the US the world's most important and sophisticated national market. This path-breaking book addresses why investors need to be familiar with the issues they are facing. The topics explored include the national and international regulatory framework governing FDI in the US which has changed considerably in light of recent laws and regulations; how to navigate the various groups that influence policies in Washington D.C. (especially as far as China is concerned); and dealing with the liability of foreignness that every foreign investor faces and needs to address successfully. Written by leading experts in their respective fields, academics and others interested in the various challenges associated with investing in the US and particularly the foreign direct investment relationship between China and the US will find this book invaluable. The History of Foreign Investment in the United States to 1914 Mira Wilkins,1989 From the colonial era to 1914, America was a debtor nation in international accounts--owing more to foreigners than foreigners owed to us. By 1914 it was the world's largest debtor nation. Mira Wilkins provides the first complete history of foreign investment in the United States during that period. The book shows why the United States was attractive to foreign investors and traces the changing role of foreign capital in the nation's development, covering both portfolio and direct investment. The immense new wave of foreign investment in the United States today, and our return to the status of a debtor nation--once again the world's largest debtor nation--makes this strong exposition far more than just historically interesting. Wilkins reviews foreign portfolio investments in government securities (federal, state, and local) and in corporate stocks and bonds, as well as foreign direct investments in land and real estate, manufacturing plants, and even such service-sector activities as accounting, insurance, banking, and mortgage lending. She finds that between 1776 and 1875, public-sector securities (principally federal and state securities) drew in the most long-term foreign investment, whereas from 1875 to 1914 the private sector was the main attraction. The construction of the American railroad system called on vast portfolio investments from abroad; there was also sizable direct investment in mining, cattle ranching, the oil industry, the chemical industry,

flour production, and breweries, as well as the production of rayon, thread, and even submarines. In addition, there were foreign stakes in making automobile and electrical and nonelectrical machinery. America became the leading industrial country of the world at the very time when it was a debtor nation in world accounts.

Global Health and the Future Role of the United States National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Global Health, Committee on Global Health and the Future of the United States, 2017-09-05 While much progress has been made on achieving the Millennium Development Goals over the last decade, the number and complexity of global health challenges has persisted. Growing forces for globalization have increased the interconnectedness of the world and our interdependency on other countries, economies, and cultures. Monumental growth in international travel and trade have brought improved access to goods and services for many, but also carry ongoing and ever-present threats of zoonotic spillover and infectious disease outbreaks that threaten all. Global Health and the Future Role of the United States identifies global health priorities in light of current and emerging world threats. This report assesses the current global health landscape and how challenges, actions, and players have evolved over the last decade across a wide range of issues, and provides recommendations on how to increase responsiveness, coordination, and efficiency – both within the U.S. government and across the global health field.
