**Maneuvering** Mark Dvoretsky,2016-07-19 Find the Best Squares for Your Pieces! To a large extent, the level of any chessplayer's skill depends on his or her ability to discover and evaluate positional operations as quickly and correctly as possible. In this book, premier chess instructor and trainer Mark Dvoretsky examines one of the most important aspects of positional skill, namely the art of playing with pieces, of maneuvering and finding the best squares for your pieces. Training your maneuvering skills will help you at every stage of the game – which is why among the exercises there are opening, middlegame and endgame positions, and not only those that are taken from practical games, but also studies. The conscientious student, carefully working his or her way through this book, will help improve positional mastery and significantly enhance overall playing skill.

The book provides interpretation, critique and fresh perspectives on political and administration dynamics since the birth of democracy in 1994, to the era of the Mbeki administration (1999-2008), and then to the transition to the Zuma administration. That transition was led by the now deputy president, Kgalema Motlanthe, who provided 'stop-gap' presidency from September 2008 until the new president, Zuma, was sworn into office in May 2009.

**Living Mantra** Mani Rao,2018-09-15 Living Mantra is an anthropology of mantra-experience among Hindu-tantric practitioners. In ancient Indian doctrine

and legends, mantras perceived by rishis (seers) invoke deities and have transformative powers. Adopting a methodology that combines scholarship and practice, Mani Rao discovers a continuing tradition of visionaries (rishis/seers) and revelations in south India’s Andhra-Telangana. Both deeply researched and replete with fascinating narratives, the book reformulates the poetics of mantra-practice as it probes practical questions. Can one know if a vision is real or imagined? Is vision visual? Are deity-visions mediated by culture? If mantras are effective, what is the role of devotion? Are mantras language? Living Mantra interrogates not only theoretical questions, but also those a practitioner would ask: how does one choose a deity, for example, or what might bind one to a guru? Rao breaks fresh ground in redirecting attention to the moments that precede systematization and canon-formation, showing how authoritative sources are formed.
