Discipline and Punish Michel Foucault,2012-04-18 A brilliant work from the most influential philosopher since Sartre. In this indispensable work, a brilliant thinker suggests that such vaunted reforms as the abolition of torture and the emergence of the modern penitentiary have merely shifted the focus of punishment from the prisoner's body to his soul.

The Sumerians Samuel Noah Kramer,2010-09-17 The Sumerians, the pragmatic and gifted people who preceded the Semites in the land first known as Sumer and later as Babylonia, created what was probably the first high civilization in the history of man, spanning the fifth to the second millenniums B.C. This book is an unparalleled compendium of what is known about them. Professor Kramer communicates his enthusiasm for his subject as he outlines the history of the Sumerian civilization and describes their cities, religion, literature, education, scientific achievements, social structure, and psychology. Finally, he considers the legacy of Sumer to the ancient and modern world. There are few scholars in the world qualified to write such a book, and certainly Kramer is one of them. . . . One of the most valuable features of this book is the quantity of texts and fragments which are published for the first time in a form available to the general reader. For the layman the book provides a readable and up-to-date introduction to a most fascinating culture. For the specialist it presents a synthesis with which he may not agree but from which he will nonetheless derive stimulation.—American Journal of Archaeology An uncontested authority on the civilization of Sumer, Professor Kramer writes with grace and urbanity.—Library Journal

Б. Долгопольского, одного из крупнейших и всемирно признанных специалистов по сравнительно-историческому языкознанию и изучению дальнего родства языков. «Индоевропейский словарь с ностратическими этимологиями» составлен автором на основе главного труда его жизни – «Ностратического словаря», работу над которым А. Б. Долгопольский неотрывно и интенсивно вёл почти полвека.Основной своей задачей автор считает определение и доказательство ностратических истоков индоевропейской лексики, поиск регулярных соответствий между лексическими единицами индоевропейских языков и языков других семей Старого Света. Как по широте охвата лингвистического материала, так и по глубине разработки каждой словарной единицы словарь представляет собой уникальный материал для анализа и предназначен не только для лингвистов, изучающих индоевропейские языки, но и для специалистов по сравнительно-историческому изучению языков других семей.

Hollywood Independent Paul Kerr,2023-03-09 Hollywood Independent dissects the Mirisch Company, one of the most successful employers of the package-unit system of film production, producing classic films like *The Apartment* (1960), *West Side Story* (1961), *The Great Escape* (1963) and *The Thomas Crown Affair* (1968) as irresistible talent packages. Whilst they helped make the names of a new generation of stars including Steve McQueen and Shirley MacLaine, as well as banking on the reputations of established auteurs like Billy Wilder, they were also pioneers in dealing with controversial new themes with films about race (*In the Heat of the Night*), gender (*Some Like it Hot*) and sexuality (*The Children's Hour*), devising new ways of working with film franchises (*The Magnificent Seven*, *The Pink Panther* and *In the Heat of the Night* spun off 7 Mirisch sequels between them) and cinematic cycles, investing in adaptations of bestsellers and Broadway hits, exploiting frozen funds abroad and exploring so-called runaway productions. The Mirisch Company bridges the gap between the end of the studio system by about 1960 and the emergence of a new cinema in the mid-1970s, dominated by the Movie Brats.

Law Enforcement Intelligence David L. Carter, Ph.D. David L. Carter, U.S. Department of Justice, Office of Community Oriented Policing Services, 2012-06-19 This intelligence guide was prepared in response to requests from law enforcement executives for guidance in intelligence functions in a post-September 11 world. It will help law enforcement agencies develop or enhance their intelligence capacity and enable them to fight terrorism and other crimes while preserving community policing relationships. The world of law enforcement intelligence has changed dramatically since September 11, 2001. State, local, and tribal law enforcement agencies have been tasked with a variety of new responsibilities; intelligence is just one. In addition, the intelligence discipline has evolved significantly in recent years. As these various trends have merged, increasing numbers of American law enforcement agencies have begun to explore, and sometimes embrace, the intelligence function. This guide is intended to help them in this process. The guide is directed primarily toward state, local, and tribal law enforcement agencies of all sizes that need to develop or reinvigorate their intelligence function. Rather than being a manual to teach a person how to be an intelligence analyst, it is directed toward that manager, supervisor, or officer who is assigned to create an intelligence function. It is intended to provide ideas, definitions, concepts, policies, and resources. It is a primer a place to start on a new managerial journey. Every law enforcement agency in the United States, regardless of agency size, must have the capacity to understand the implications of information collection, analysis, and intelligence sharing. Each agency must have an organized mechanism to receive and manage intelligence as well as a mechanism to report and share critical information with other law enforcement agencies. In addition, it is essential that law enforcement agencies develop lines of communication and information-sharing protocols with the private sector, particularly those related to the critical infrastructure, as well as with those private entities that are potential targets of terrorists and criminal enterprises. Not every agency has the staff or resources to create a formal intelligence unit, nor is it necessary in smaller agencies. This document will provide common language and processes to develop and employ an intelligence capacity in SLTLE agencies across the United States as well as articulate a uniform understanding of concepts, issues, and terminology for law enforcement intelligence (LEI). While terrorism issues are currently most pervasive in the current discussion of LEI, the principles of intelligence discussed in this document apply beyond terrorism and include organized crime and entrepreneurial crime of all forms. Drug trafficking and the associated crime of money laundering, for example, continue to be a significant challenge for law enforcement. Transnational computer crime, particularly Internet fraud, identity theft cartels, and global black marketeering of stolen and counterfeit goods, are entrepreneurial crime problems that are increasingly being relegated to SLTLE agencies to investigate simply because of the volume of criminal incidents. Similarly, local law enforcement is being increasingly drawn into human trafficking and illegal immigration enterprises and the often associated crimes related to counterfeiting of official documents, such as passports, visas, driver's licenses, Social Security cards, and credit cards. All require an intelligence capacity for SLTLE, as does the continuation of historical organized crime activities such as auto theft, cargo theft, and virtually any other scheme that can produce profit for an organized criminal entity. To be effective, the law enforcement community must interpret intelligence-related language in a consistent manner. In addition, common standards, policies, and practices will help expedite intelligence sharing while at the same time protecting the privacy of citizens and preserving hard-won community policing relationships.~

The Memoirs of Lady Hyegyong JaHyun Kim Haboush, 2013-09-14 Lady Hyegyong's memoirs, which recount the chilling murder of her husband by his father, form one of the best known and most popular classics of Korean literature. From 1795 until 1805 Lady Hyegyong composed this masterpiece, depicting a court life Shakespearean in its pathos, drama, and grandeur. Presented in its social, cultural, and historical contexts, this first complete English translation opens a door into a world teeming with conflicting passions, political intrigue, and the daily preoccupations of a deeply intelligent and articulate woman. JaHyun Kim Haboush's accurate, fluid translation captures the intimate and expressive voice of this consummate storyteller. Reissued nearly twenty years after its initial publication with a new foreword by Dorothy Ko, The Memoirs of Lady Hyegyong is a unique exploration of Korean selfhood and an extraordinary example of autobiography in the premodern era.
