Soundscape Mapping Iain McGregor,2011-11-23 The perceived auditory environment is an increasingly important part of people's everyday interactive experiences. While sound design is an established discipline in media such as video games and cinema, this is not the case in Human-Computer Interaction (HCI). HCI designers are rarely trained in sound design, and may not make the most effective use of sound in the design of interactions. Even when sound is at the centre of a design it is rarely evaluated to compare the experiences of designers and listeners. This dissertation reports work conducted to develop a way of comparing sound designers' intentions for a sound design with the experiences of listeners. Literature on methods of measuring, classifying and visualising sound was reviewed, as well as approaches to sound design in different forms of media and computing. A published method for representing auditory environments was selected for preliminary studies. The four studies addressed the difficulties of describing auditory environments and how they might be visualised. Two surveys were conducted in order to identify attributes of sound that would be meaningful to 75 audio professionals and 40 listeners. A way of classifying and visualising sound events and their distribution in physical environments was developed and evaluated. The soundscape mapping tool (SMT) was trialled with sound designs from a range of fields within media and computing. The experiences of both the designer and listeners were captured for each of the designs using the SMT. This work demonstrated that the SMT was suitable for capturing the intentions of 10 sound designers and the experiences of 100 listeners. The trial also provided information about how the SMT could be developed further. The dissertation contributes evidence that auditory environments can be abstracted and visualised in a manner that allows designers to represent their designs, and listeners to record their experiences.

Community Music Therapy Gary Ansdell,Mercedes Pavlicevic,2004-05-15 Music therapists from around the world working in conventional and unconventional settings have offered their contributions to this exciting new book, presenting spirited discussion and practical examples of the ways music therapy can reflect and encourage social change. From working with traumatized refugees in Berlin, care-workers and HIV/AIDS orphans in South Africa, to adults with neurological disabilities in south-east England and children in paediatric hospitals in Norway, the contributors present their global perspectives on finding new ways forward in music therapy. Reflecting on traditional approaches in addition to these newer practices, the writers offer fresh perceptions on their identity and role as music therapists, their assumptions and attitudes about how music, people and context interact, the sites and boundaries to their work, and the new possibilities for music therapy in the 21st century. As the first book on the emerging area of Community Music Therapy, this book should be an essential and exciting read for music therapists, specialists and community musicians.

Online Deliberation Todd Davies,Seeta Peña Gangadharan,2009 Can new technology enhance local, national, and global democracy? Online Deliberation is the first book that attempts to sample the full range of work on online deliberation, forging new connections between academic research, web designers, and practitioners. Since the most exciting innovations in deliberation have occurred outside of traditional institutions, and those involved have often worked in relative isolation from each other, research conducted on this growing field has to this point neglected the full perspective of online participation. This volume,

an essential read for those working at the crossroads of computer and social science, illuminates the collaborative world of deliberation by examining diverse clusters of Internet communities.

Rose's Vintage Kayte Nunn, 2016-04-18 With her heart in tatters after a relationship break-up, Rose Bennett swaps her hometown of London for the sunny shores of Australia – but she arrives to find the Shingle Valley shrouded in winter. As the weather improves, Rose starts to unlock the secrets of the valley – from bonfire ceremonies and wine-making traditions to eccentric locals and their histories. Despite herself, Rose starts to fall in love: with the valley, the wines, the two children she's helping to look after – and with the handsome and brilliant Mark Cameron, owner of the troubled Kalkari Wines estate. What will happen when Mark's estranged wife, the tempestuous Isabella, returns? Will Rose find a future in the Shingle Valley, or will she be forced to leave? 'Some books, like wine can be sipped - but I had to gulp this

The Sixth Station Linda Stasi, 2013-12-01 Some say Demiel ben Yusef is the world's most dangerous terrorist, personally responsible for bombings and riots that have claimed the lives of thousands. Others insist he is a man of peace, a miracle worker, and possibly even the Son of God. His trial in New York City for crimes against humanity attracts scores of protestors, as well as media and religious leaders from around the world. Cynical reporter Alessandra Russo heads to the UN hoping for a piece of the action, but soon becomes entangled in controversy and suspicion when ben Yusef singles her out for attention among all other reporters. As Alessandra begins digging into ben Yusef's past, she is already in more danger than she knows—and when she is falsely accused of murder during her investigation, she is forced to flee New York. On the run from unknown enemies, Alessandra finds herself on the trail of a global conspiracy and a story that could shake the world to its foundations. Is Demiel ben Yusef the Second Coming or the Antichrist? The truth may lie in the secret history of the Holy Family, a group of Templars who defied the church, and a mysterious relic stained with the sacred blood of Christ Himself.

Moon-face and Other Stories Jack London, 1906 JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He grew up in poverty, scratching a living in various legal and illegal ways -robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. The son of the Wolf (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, The Call of the Wild (1903), which tells the story of the dog Buck, who, after his master's death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including The Sea-Wolf (1904), White Fang (1906), South Sea Tales (1911), and Jerry of the South Seas (1917). One of London's most interesting novels is the semi-autobiographical Martin Eden (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.

DSM-IV Made Easy James R. Morrison, 1995-01 With the publication of DSM-IV, mental health practitioners are faced with the challenge of quickly learning a whole new set of diagnostic standards. Providing a simple way rapidly to become conversant with all DSM-IV categories as well as its many new criteria, this book translates DSM-IV data into a concise, accessible format, explicating and illustrating all the criteria in clear, jargon-free language. It discusses, illustrates, and interprets the criteria for every DSM-IV diagnosis. Over 100 vivid case histories give the reader a flavor of the disorder described and provide a framework for understanding the diagnostic criteria. In each, the author walks the reader through the process in step-by-step detail, discussing how he arrives at a five-axis diagnosis. Helpful features include quick guides at the beginning of every chapter pointing the way to the sought after diagnosis; tips highlighting information that will help clinicians make the diagnosis; sidelights containing historical information and other interesting facts, and editorial comments discussing diagnosis, patients, and clinical issues. This book will be invaluable to all mental health clinicians who want a quick and painless way to learn the DSM-IV criteria, psychologists and social workers studying for their state licensing exam, and graduate students taking courses in abnormal behavior and psychopathology.

The Dare Harley Laroux, 2023-10-31 Jessica Martin is not a nice girl. As Prom Queen and Captain of the cheer squad, she'd ruled her school mercilessly, looking down her nose at everyone she deemed

unworthy. The most unworthy of them all? The freak, Manson Reed: her favorite victim. But a lot changes after high school. A freak like him never should have ended up at the same Halloween party as her. He never should have been able to beat her at a game of Drink or Dare. He never should have been able to humiliate her in front of everyone. Losing the game means taking the dare: a dare to serve Manson for the entire night as his slave. It's a dare that Jessica's pride - and curiosity - won't allow her to refuse. What ensues is a dark game of pleasure and pain, fear and desire. Is it only a game? Only revenge? Only a dare? Or is it something more? The Dare is an 18+ erotic romance novella and a prequel to the Losers Duet. Reader discretion is strongly advised. This book contains graphic sexual scenes, intense scenes of BDSM, and strong language. A full content note can be found in the front matter of the book.
