The second edition of The Theory and Practice of Online Learning features updates in each chapter, plus four new chapters on current distance education issues such as connectivism and social software innovations.--BOOK JACKET.

*Beyond Infinity* Eugenia Cheng, 2017-03-09 SHORTLISTED FOR THE 2017 ROYAL SOCIETY SCIENCE BOOK PRIZE Even small children know there are infinitely many whole numbers - start counting and you'll never reach the end. But there are also infinitely many decimal numbers between zero and one. Are these two types of infinity the same? Are they larger or smaller than each other? Can we even talk about 'larger' and 'smaller' when we talk about infinity? In *Beyond Infinity*, international maths sensation Eugenia Cheng reveals the inner workings of infinity. What happens when a new guest arrives at your infinite hotel - but you already have an infinite number of guests? How does infinity give Zeno's tortoise the edge in a paradoxical foot-race with Achilles? And can we really make an infinite number of cookies from a finite amount of cookie dough? Wielding an armoury of inventive, intuitive metaphor, Cheng draws beginners and enthusiasts alike into the heart of this mysterious, powerful concept to reveal fundamental truths about mathematics, all the way from the infinitely large down to the infinitely small.

The Spy's Son Bryan Denson, 2015-05-05 The true account of the Nicholsons, the father and son who sold national secrets to Russia. "One of the strangest spy stories in American history" (Robert Lindsey, author of *The Falcon and the Snowman*). Investigative reporter and Pulitzer Prize finalist Bryan Denson tells the riveting story of the father and son co-conspirators who betrayed the United States. Jim Nicholson was one of the CIA's top veteran case officers. By day, he taught spycraft at the CIA's clandestine training center, The Farm. By night, he was a minivan-driving single father racing home to have dinner with his kids. But Nicholson led a double life. For more than two years, he had met covertly with agents of Russia's foreign intelligence service and turned over troves of classified documents. In 1997, Nicholson became the highest-ranking CIA officer ever convicted of espionage. But his duplicity didn't stop there. While behind the bars of a federal prison, the former mole systematically groomed the one person he trusted most to serve as his stand-in: his youngest son, Nathan. When asked to smuggle messages out of prison to Russian contacts, Nathan saw an opportunity to be heroic and to make his father proud. "Filled with fascinating details of the cloak-

and-dagger techniques of KGB and CIA operatives, double agents, and spy catchers . . . A poignant and painful tale of family love, loyalty, manipulation and betrayal.” —The Oregonian

**Imagine Design Create** Tom Wujec, 2011-05 Imagine, Design, Create offers a wide-ranging look at how the creative process and the tools of design are dramatically changing--and where design is headed in the coming years. Bringing together stories of good design happening around the world, the book shows how people are using fresh design approaches and new capabilities to solve problems, create opportunities, and improve the way we live and work. From the impact of SOM's Cathedral of Christ the Light in Oakland to the spark that inspired Thomas Heatherwick's U.K. Pavilion in Shanghai; from the new processes fueling Zaha Hadid's extraordinary architecture to the digital tools Ford is using to transform car design, each of these stories explores questions that swirl around the idea of design. How does design change our lives for the better? How is our capacity to produce good design evolving? How will the next generation of designers work? What will they make? What new areas of human experience is design opening for us? Now that designers

can do almost anything--what should they do? The Publisher has two cover versions for this title. The books will ship with either a black or white cover. The interior contents are the same.

*As China Goes, So Goes the World* Karl Gerth, 2010-11-09 In this revelatory examination of the most overlooked force that is changing the face of China, the Oxford historian and scholar of modern Asia Karl Gerth shows that as the Chinese consumer goes, so goes the world. While Americans and Europeans have become increasingly worried about China's competition for manufacturing jobs and energy resources, they have overlooked an even bigger story: China's rapid development of an American-style consumer culture, which is revolutionizing the lives of hundreds of millions of Chinese and has the potential to reshape the world. This change is already well under way. China has become the world's largest consumer of everything from automobiles to beer and has begun to adopt such consumer habits as living in large single-occupancy homes, shopping in gigantic malls, and eating meat-based diets served in fast-food outlets. Even rural Chinese, long the laggards of consumerism, have been buying refrigerators, televisions, mobile phones, and larger houses in unprecedented numbers. *As China Goes, So Goes the World* reveals why we should all care about the everyday choices made by ordinary Chinese. Taken together, these seemingly small changes are deeper and more profound than the headline-grabbing stories on military budgets, carbon emissions, or trade disputes.
