*Longitudes and Attitudes* Thomas L.

Friedman, 2002-09-11 America's leading observer of the international scene on the minute-by-minute events of September 11, 2001--before, during and after . As the Foreign Affairs columnist for the The New York Times, Thomas L. Friedman is in a unique position to interpret the world for American readers. Twice a week, Friedman's celebrated commentary provides the most trenchant, pithy, and illuminating perspective in journalism. *Longitudes and Attitudes* contains the columns Friedman has published about the most momentous news story of our time, as well as a diary of his experiences and reactions during this period of crisis. As the author writes, the book is not meant to be a comprehensive study of September 11 and all the factors that went into it. Rather, my

hope is that it will constitute a 'word album' that captures and preserves the raw, unpolished, emotional and analytical responses that illustrate how I, and others, felt as we tried to grapple with September and its aftermath, as they were unfolding. Readers have repeatedly said that Friedman has expressed the essence of their own feelings, helping them not only by explaining who they are, but also by reassuring us about who we are. More than any other journalist writing, Friedman gives voice to America's awakening sense of its role in a changed world.

**The Great Economists** Linda Yueh, 2019-05-21 A Times Best Business Book of 2018 What can the ideas of history's greatest economists tell us about the most important issues of our time? 'The best place to start to learn about the very greatest economists of all time' Professor Tyler Cowen, author of *The Complacent Class* and *The Great Stagnation* Since the days of Adam Smith, economists have grappled with a series of familiar problems - but often their ideas are hard to digest, before we even try to apply them to today's issues. Linda Yueh is renowned for her combination of erudition, as an accomplished economist herself, and accessibility, as a leading writer and broadcaster in this field; and in *The Great Economists* she explains the key thoughts of history's greatest economists, how their lives and times affected their ideas, how our lives have been influenced by their work, and how they could help with the policy challenges that we face today. In the light of current economic problems,

and in particular economic growth, Yueh explores the thoughts of economists from Adam Smith and David Ricardo through Joan Robinson and Milton Friedman to Douglass North and Robert Solow. Along the way she asks, for example: what do the ideas of Karl Marx tell us about the likely future for the Chinese economy? How does the work of John Maynard Keynes, who argued for government spending to create full employment, help us think about state investment? And with globalization in trouble, what can we learn about handling Brexit and Trumpism? In one accessible volume, this expert new voice provides an overarching guide to the biggest questions of our time. The Great Economists includes: Adam Smith David Ricardo Karl Marx Alfred Marshall Irving Fisher John Maynard Keynes Joseph Schumpeter Friedrich Hayek Joan Robinson Milton Friedman Douglass North Robert Solow 'Economics students, like others, can learn a lot from this book' - Professor Paul Collier, author of The Bottom Billion 'Not only a great way to learn in an easily readable manner about some of the greatest economic influences of the past, but also a good way to test your own a priori assumptions about some of the big challenges of our time.' - Lord Jim O'Neill, former Chairman at Goldman Sachs Asset Management, former UK Treasury Minister, and author of The Growth Map 'An extremely engaging survey of the lifetimes and ideas of the great thinkers of economic history.' - Professor Kenneth Rogoff, author of The Curse of Cash and co-author of This Time is Different 'This book is a very readable introduction to the lives and thinking of the greats.' - Professor Raghuram

Rajan, former Governor of the Reserve Bank of India, and author of *I Do What I Do* and *Fault Lines* 'Read it not only to learn about the world's great economists, but also to see how consequential thought innovations can be, and have been.' - Mohamed el-Erian, Chief Economic Adviser at Allianz, former CEO of PIMCO

**365 Days/365 Plays** Suzan-Lori Parks, 2022-03-18  
On November 13, 2002, the incomparable Suzan-Lori Parks got an idea to write a play every day for a year. She began that very day, finishing one year later. The result is an extraordinary testament to artistic commitment. This collection of 365 impeccably crafted pieces, each with its own distinctive characters and dramatic power, is a complete work by an artist responding to her world, each and every day. Parks is one of the American theater's most wily and innovative writers, and her stark but poetic language and fiercely idiosyncratic images transform her work into something haunting and marvelous. (Time Magazine) Note: Theatre makers are welcome to present an assortment of selected plays from 365 Days/365 Plays. A presentation of 31 or more plays is considered Full-Length, while a presentation of 30 or fewer plays is considered One Act. All presentations must include the three plays known collectively as The 3 Constants.

**Father Comes Home From the Wars (Parts 1, 2 & 3)**  
Suzan-Lori Parks, 2015-06-01 The stunning first installment of a new American Odyssey, set over the course of the Civil War.

**The wounds of nations** Linnie Blake, 2013-07-19  
The wounds of nations: Horror cinema, historical

trauma and national identity explores the ways in which the unashamedly disturbing conventions of international horror cinema allow audiences to engage with the traumatic legacy of the recent past in a manner that has serious implications for the ways in which we conceive of ourselves both as gendered individuals and as members of a particular nation-state. Exploring a wide range of stylistically distinctive and generically diverse film texts, its analysis ranges from the body horror of the American 1970s to the avant-garde proclivities of German Reunification horror, from the vengeful supernaturalism of recent Japanese chillers and their American remakes to the post-Thatcherite masculinity horror of the UK and the resurgence of 'hillbilly' horror in the period following September 11th 2001. In each case, it is argued, horror cinema forces us to look again at the wounds inflicted on individuals, families, communities and nations by traumatic events such as genocide and war, terrorist outrage and seismic political change, wounds that are all too often concealed beneath ideologically expedient discourses of national cohesion. By proffering a radical critique of the nation-state and the ideologies of identity it promulgates, horror cinema is seen to offer us a disturbing, yet perversely life affirming, means of working through the traumatic legacy of recent times.
