Ireland's Sea Fisheries, 1400-1600 Patrick W. Hayes, 2023-12-12 This book examines the environmental, political, and economic history of Ireland's marine fisheries from 1400 to 1600. It combines a wide range of historical sources with innovative digital research methods to provide a comprehensive and systematic overview. Government letters and court documents highlight the diverse range of fishing fleets from across Europe that visited Irish waters in the early sixteenth century, bringing wealth and cultural influence to the native Irish, who developed complex systems to protect and tax the visitors. Furthermore, trade records illustrate that fish was Ireland's premier export in the late fifteenth and early sixteenth centuries. However, a range of factors led to the industry's collapse by the end of the sixteenth century: the Tudor conquest which disrupted fishing operations and fundamentally altered who controlled fishing resources; the destabilization of Irish waters resulting from the terrestrial conflict, which allowed pirates to thrive; an influx of cheap cod from the newly exploited fisheries in Newfoundland which changed consumption patterns in Ireland and across Europe; and shifting climatic conditions and decades of over-exploitation which meant fewer fish and poorer catches. Overall, the book reveals that fisheries form a vital part of the broader environmental, political, and economic history of Ireland.

Families of County Cork, Ireland Michael C. O'Laughlin, 1999 Finding Your Family History in Co. Cork This is the illustrated, book that focuses exclusively on families of County Cork. Part of the Irish Families Project, it includes: Catholic and Protestant; native Irish; settler families from England, Scotland, and Wales; County Map; Coats of Arms; and more.. Information contained here-in dates from the earliest times to the modern era. Expands Upon Earlier Information The Master Volume in

the Irish Families series is 'The Book of Irish Families, great & small'. It covers thousands of families from all of Ireland. 'Families of Co. Cork' greatly expands upon the coverage given in that book and adds several hundred new families. In this way both books compliment each other. 'Families of Co. Cork' is the 4th volume in the series, which covers every county in Ireland and Northern Ireland. It was published by the Irish Genealogical Foundation and edited by Michael C. O'Laughlin. An outline of the history of the county as it relates to Irish families, and to Irish research, is included, along with an exhaustive enumeration of thousands of Cork families, sure to help any family researcher. Expanded Information When needed, sources are given for further research. Family castles, dates of occupation and locations are given. Ordinary Cork people, from the 17th to the 19th century are included too. The following is taken from the introduction to this book, and helps set the stage for the family history that follows in the bulk of this work. The Vikings settled here centuries before the Norman invasion, and are credited with establishing the city of Cork. Their settlement did not lead to the great upheaval that the Norman invasion eventually caused. The Skiddys, Coppingers and Cotters were a few of the 'Viking' families that settled here at an early date, and remained in relative peace. (see surname entries of those families in text of this book). The Norman Invasion Robert Fitz-Stephen and Miles (Milo) de Cogan were granted the entire kingdom of Cork in 1177 by King Henry II. (This did not include however the city and land belonging to the Ostmen, also called Danes or Vikings.) Cork lands could only be taken slowly at first by the Normans. Many Anglo-Norman families and their retainers (undertakers) had to be settled here for that purpose over time. Large tracts of land were held by many of these families subsequently, including the Carews, De Courcys, Fitzgeralds and Barretts. Sir Richard Boyle, who became the Earl of Cork, helped with the plantation of many English here. They were 'settled' in direct opposition to the old Gaelic families native to the land, who stood to lose their

homes, lands, and power. Many battles were fought and much blood shed on both sides of the line, which at times became blurred. Castles were numerous and often necessary to protect life and limb. Families with major entries in this book include: Mc Auliffe; Barry; Callaghan; Mac Carthy; Coppinger; Mac Cotter; Courcy deCoursey; O Crowley; O Daly; O Donovan; O Driscoll; Herlihy; Hyde; O Keefe, O'Keefe; Lane; O'Leary; Long; O' Mahoney; Nagle; Reardon; Regane; Roach; Sheehan; O' Sullivan; Sweeney; Twomey and Walsh, Welsh....and so on..... Early Ireland Michael J. O'Kelly, Claire O'Kelly, 1989-04-06 Engagingly written and packed with illustrations, *Early Ireland* offers an authoritative introduction to the riches of Irish prehistory.

Social Calls of the Bats of Britain and Ireland Neil Middleton, Andrew Froud, Keith French, 2022-07-26 The social calls of bats are an area about which relatively little is known, with more research still required to expand our understanding. However, these calls are increasingly recognised as a useful aid to identification: they appear to be species specific and are indicative of behaviour – as in territorial activity of males during the mating season. Because the gathering and interpretation of bat echolocation data are a matter of course during research, conservation and consultancy, it is a logical progression to build momentum behind the consideration of social calls in mainstream bat-related work. A better understanding of this subject could mean that non-intrusive survey methods are developed, ensuring that what is being observed is, as far as possible, purely natural behaviour. In turn this will contribute to better interpretation and more suitable mitigation, compensation and/or enhancement solutions. The book summarises what is understood so far about social calls of the bat species occurring in Britain and Ireland, and north-west Europe. This new edition has been updated and expanded throughout, now containing: foreword by the bat authority Michel Barataud, author of *Acoustic Ecology of European Bats* almost double the number of figures and

tables as appeared in the first edition completely overhauled call library, all in full spectrum format, with new additional examples three entirely new chapters, covering bat-related acoustics, settings for social interaction, and survey guidelines The material will be useful to people carrying out bat studies, at whatever level and for whatever purpose, and will also encourage others to undertake further research. What's more, social calls are fascinating to listen to: they are, after all, produced with listeners in mind (other bats). In light of this, the book is accompanied by an extensive downloadable library of sound files which offer a unique gateway into the private life of bats.

The Dialects of Irish Raymond Hickey, 2011-08-29 The book offers a comprehensive overview of forms of modern Irish within a general linguistic framework. Starting with information on the sociolinguistics of modern Irish and on the overall sound system of the language, it then proceeds with a tripartite division of the present-day language into northern, western and southern Irish. It gives specific information on the features of each dialect and considers many sub-divisions, using maps and tables to illustrate clearly what is the subject of discussion. There are several innovations in the book, such as a system of lexical sets which facilitate the description and analysis of variation and change in modern Irish. The data for the book stems from recordings of more than 200 speakers and all the statements made about the structure of Irish are based on native speakers' speech samples. These are supplied online with a software interface which allows users to quickly orient themselves among the varieties of Irish via clickable maps. A number of further issues are focused on in the book, such as the possibility of dialect reconstruction and the use of place-name evidence for determining the earlier distribution of Irish. Additional historical and background information is provided so that scholars and students without any previous knowledge of the language can readily grasp the themes and issues discussed.
