The Palgrave Handbook of Public Administration and Management in Europe Edoardo Ongaro, Sandra Van Thiel, 2017-11-27

This Handbook offers a systematic review of state-of-the-art knowledge on public administration in Europe. Covering the theoretical, epistemological and practical aspects of the field, it focuses on how public administration operates and is studied in European countries. In sixty-three chapters, written by leading scholars, this Handbook considers the uniqueness of the European situation through an interdisciplinary and comparative lens, focusing on the administrative diversity which results from the multiplicity of countries, languages, schools of thought and streams of investigation across Europe. It addresses issues such as multi-level administration and governance, intensive cross country cooperation in administrative reform policy, and public accountability under different systems. It also considers the issue of welfare service delivery, at a time of major economic and societal challenges, as well as understudied emerging issues like Islamic Public Administration and the dynamics of public sector negotiations. With contributions from key experts in Public Administration and Public Management, this cutting edge Handbook offers a significant contribution to the field of comparative public administration, policy and management.

Handbook of Policy Formulation Michael Howlett, Ishani Mukherjee,2017-04-28 Policy formulation relies upon the interplay of knowledge-based analysis of issues with power-based considerations, such as the political assessment of the costs and benefits of proposed actions, and its effects on the partisan and electoral concerns of governments. Policy scholars have long been interested in how governments successfully create, deploy and utilise policy instruments, but the literature on policy formulation has, until now, remained fragmented. This comprehensive Handbook unites original scholarship on policy tools and design, with contributions examining policy actors and the roles they play in the formulation process.
