**Power, Wealth and Women in Indian Mahayana Buddhism** Douglas Osto,2008-11-19 This book examines the concepts of power, wealth and women in the important Mahayana Buddhist scripture known as the Gandavyuha-sutra, and relates these to the text's social context in ancient India during the Buddhist Middle Period (0–500 CE). Employing contemporary textual theory, worldview analysis and structural narrative theory, the author puts forward a new approach to the study of Mahayana Buddhist sources, the 'systems approach', by which literature is viewed as embedded in a social system. Consequently, he analyses the Gandavyuha in the contexts of reality, society and the individual, and applies these notions to the key themes of power, wealth and women. The study reveals that the spiritual hierarchy represented within the Gandavyuha replicates the political hierarchies in India during Buddhism's Middle Period, that the role of wealth mirrors its significance as a sign of spiritual status in Indian Buddhist society, and that the substantial number of female spiritual guides in the narrative reflects the importance of royal women patrons of Indian Buddhism at the time. This book will appeal to higher-level undergraduates, postgraduates and scholars of religious studies, Buddhist studies, Asian studies, South Asian studies and Indology.

**The Pacific** Donald B. Freeman,2013-03-07 In this fascinating and exciting overview, Donald B. Freeman explores the role of the Pacific Ocean in human history. Covering over one third of the globe, the Pacific Ocean plays a vital role in the lives and fortunes of more than two billion people who live on its rim-lands and islands. It has played a crucial part in shaping the histories of the different Pacific cultures, towards which it has appeared in a variety of different guises. Exploring the ocean's place in human history, this wide ranging book draws together the long and varied physical, economic, cultural and political history of the Pacific, from Prehistory through to the present day. It takes an interdisciplinary approach to show the changing viewpoints of those who explored, exploited and settled the Pacific, including the inhabitants of its Asian and American rim-lands. The book draws on new research in a variety of areas, such as early Pacific migrations, impacts of European colonization, the effects of climate change, and current economic and political developments. It provides a uniquely broad overview that will be of vital interest to students and to all those with an interest in World History.

**The Emporium of the World** Angela Schottenhammer,2021-08-04 This volume, by offering a score of new insights derived from a wide variety of recent archaeological and textual sources, bring to life an important overseas trading port in Southeast Asia: Quanzhou. During the Song and Yuan dynasties active official and unofficial engagement in trade had formative effects on the development of the maritime trade of Quanzhou and its social and economic position both regionally and supraregionally. In the first part subjects such as the impact of the Song imperial clan and the local élites on these developments, the economic importance of metals, coins, paper money, and changes in the political economy, are amply discussed. The second part concentrates on the quantitative and qualitative analysis of archaeological data and materials, the investigation of commodities from China, their origins, distribution and final destinations, the use of foreign labour, and the particular role of South Thailand in trade connections, thus supplying the hard data underlying the main argument of the book.

*Oxford Handbook of Medieval Central Europe* Zecevic,2022 The Oxford Handbook of Medieval Central Europe summarizes the political, social, and cultural history of medieval Central Europe (c. 800-1600 CE), a region long considered a forgotten area of the European past. The 25 cutting-edge chapters present up-to-date research about the region's core medieval kingdoms -- Hungary, Poland, and Bohemia -- and their dynamic interactions with neighboring areas. From the Baltic to the Adriatic, the handbook includes reflections on modern conceptions and uses of the region's shared medieval traditions. The volume's thematic organization reveals rarely compared knowledge about the region's medieval resources: its peoples and structures of power; its social life and economy; its religion and culture; and images of its past.

**Buddhist Cosmology** W. Randolph Kloetzli,Randy Kloetzli,1989 Disagreements concerning the nature and extent of the universe constitute a focus of theological debate which permeates buddhism at every level. While there have been numerous attempts to catalogue the details of the Buddhist cosmologies, none has attempted a general interpretation of their underlying intention. This work attempts to begin the process of interpreting the major phases of Buddhist Cosmological speculation by seeing in them various dramas of salvation tailored to the philosophical and theological predilections of their respective traditions. To a large extent, this interpretation relies on an examination of continuities between the Buddhist cosmologies and those of the hellenistic world as a whole. In the course of this study, two major cosmological traditions emerge; those which rely on metaphors of time and those which rely on metaphors of time and those which rely on metaphors of space. The former are associated with the Hinayana and the latter with the Mahayana forms of Buddhism. Each draws on images of motion and light to articulate its vision of the drama of salvation.
