Maritime Societies of the Viking and Medieval World James H. Barrett, Sarah Jane Gibbon, 2016-11-25 This book is a study of communities that drew their identity and livelihood from their relationships with water during a pivotal time in the creation of the social, economic and political landscapes of northern Europe. It focuses on the Baltic, North and Irish Seas in the Viking Age (ad 1050-1200), with a few later examples (such as the Scottish Lordship of the Isles) included to help illuminate less well-documented earlier centuries. Individual chapters introduce maritime worlds ranging from the Isle of Man to Gotland – while also touching on the relationships between estate centres, towns, landing places and the sea in the more terrestrially oriented societies that surrounded northern Europe's main spheres of maritime interaction. It is predominately an archaeological project, but draws no arbitrary lines between the fields of historical archaeology, history and literature. The volume explores the complex relationships between long-range interconnections and distinctive regional identities that are characteristic of maritime societies, seeking to understand communities that were brought into being by their relationships with the sea and who set waves in motion that altered distant shores.

Encyclopedia of Film Themes, Settings and Series Richard B. Armstrong, Mary Willems Armstrong, 2015-07-11 The first edition was called "the most valuable film reference in several years" by Library Journal. The new edition published in hardcover in 2001 includes more than 670 entries. The current work is a paperback reprint of that edition. Each entry contains a mini-essay that defines the topic, followed by a chronological list of representative films. From the Abominable Snowman to Zorro, this encyclopedia provides film scholars and fans with an easy-to-use reference for researching film themes or tracking down obscure movies on subjects such as suspended animation, viral epidemics, robots, submarines, reincarnation, ventriloquists and the Olympics ("Excellent" said Cult Movies). The volume also contains an extensive list of film characters and series, including B-movie detectives, Western heroes, made-for-television film series, and foreign film heroes and villains.

Gathered From Coincidence Tony Dunsbee, 2015-03-01 Combining the personal memories and critical analysis of a self-confessed pop addict with a wealth of contemporary documentary evidence, *Gathered From Coincidence* reconstructs a truly momentous era to tell the story of the music of the Sixties year by year. By tracing in parallel the origins and development of the recording careers of major talents on both sides of the Atlantic – the Beatles, the Rolling Stones, the Beach Boys, Bob Dylan, Dusty Springfield and many more besides – this account shows how they traded creativity with one another. All the great Sixties' hits – as well as a host of less well-known gems – are described in the context of the charts of the day, tracking the ups and downs of different trends as they came and went, such as: rock'n'roll, rhythm & blues, psychedelia, modern folk, the concept album or supergroups. But beyond this, each chapter also places the music in a broader historical and cultural setting of landmark events at home and abroad – the space race, the Profumo affair, the Cold War, Vietnam, the growth of satire – to show how, as the decade unfolded, the paths of pop and current affairs drew ever closer together. If you thought the Sixties were just about the fleeting dreams of hippies in the Summer of Love, then think again! This book will open your eyes to a far-reaching imaginative legacy and how it came to shape pop music as a dazzling art form in its own right.

Mennenga,2020-04-09 This open access volume provides for the first time a comprehensive description and scientific evaluation of underwater archaeological finds referring to human occupation of the continental shelf around the coastlines of Europe and the Mediterranean when sea levels were lower than present. These are the largest body of underwater finds worldwide, amounting to over 2500 find spots, ranging from individual stone tools to underwater villages with unique conditions of preservation. The material reviewed here ranges in date from the Lower Palaeolithic period to the Bronze Age and covers 20 countries bordering all the major marine basins from the Atlantic coasts of Ireland and Norway to the Black Sea, and from the western Baltic to the eastern Mediterranean. The finds from each country are presented in their archaeological context, with information on the history of discovery, conditions of preservation and visibility, their relationship to regional changes in sea-level and coastal geomorphology, and the institutional arrangements for their investigation and protection. Editorial introductions summarise the findings from each of the major marine basins. There is also a final section with extensive discussion of the historical background and the legal and regulatory frameworks that inform the management of the underwater cultural heritage and collaboration between offshore industries, archaeologists and government agencies. The volume is based on the work of COST Action TD0902 SPLASHCOS, a multi-disciplinary and multi-national research network supported by the EU-funded COST organisation (European Cooperation in Science and Technology). The primary readership is research and professional archaeologists, marine and Quaternary scientists, cultural-heritage managers, commercial and governmental organisations, policy makers, and all those with an interest in the sea floor of the continental shelf and the human impact of changes in climate, sea-level and coastal geomorphology.

Popular World Music Andrew Shahriari,2015-10-16 Exploring Popular World Music is the first introductory level text written to introduce students to popular music styles from around the world. Focusing on styles that all students will know -- from Reggae to Klezmer, from Afro-Pop to Kodo drums--the book offers a comprehensive, listening-oriented introduction to the world's popular musical cultures. Each chapter will focus on a specific music style and its associated geographic locale. The salient musical and cultural features associated with each example are discussed in detail to increase our appreciation of the music. Relevant artists will be highlighted and suggestions for further reading and listening will be offered. By the end of the book, the student should be able to 1) recognize a variety of world music styles, 2) articulate musical and cultural knowledge associated with each style, and 3) identify important artists related to the genre. Supplementing the text will be a web site fcreated by the author) featuring the author's world music map, enabling students to explore pop music cultures as they relate to each other; as well as an iTunes playlist for all the highlighted selections in the book. This book should strongly appeal to Intro to World Music Courses for non-majors who wish to study popular rather than traditional musics of the world, which would encompass a large majority of students enrolled in these courses.

International Covenant on Economic, Social and Cultural Rights, Twenty-First Report of Session 2003-04, Report, Together with Formal Minutes, Minutes of Evidence and Appendices Great Britain: Parliament: Joint Committee on Human Rights, 2004 The Joint Committee on Human Rights examined the implementation of the UN International Covenant on Economic, Social and Cultural Rights in the UK. Domestic legislation protects many of the economic, social and cultural rights, with the Covenant itself having little impact in UK domestic law. The Committee believes that there is scope for incorporating further protection of rights in the UK, by enshrining some of the guarantees contained in the Covenant. Further, that for the Covenant rights to be effective, they should be part of a framework for government policy development, and that Government along with the Commission for Equality and Human Rights should develop ways of measuring the progress of these rights. The Committee also recommends, that explanatory notes to Bills, should include discussion of the Bills compatibility with Covenant rights, which is a way of enhancing the scrutiny of proposed Government legislation. Furthermore, the Committee recommends the introduction of an Equality Bill, to address the concerns of discrimination faced by ethnic minorities and persons with disabilities in employment, housing and education.

Tourism Adrian Franklin, 2003-03-18 'Argued with a real verve, it makes a plea to rethink the role of tourism in modernity seeing it not as a fleeting and marginal element, but as something enduring, emblematic and constitutive of contemporary society. Tourism is seen as a key element of modern life, not an escape from it' - Mike Crang, Department of Geography, University of Durham Tourism is a rapidly growing area of student enrolment. Lecturers and students who have waited patiently for an up-to-date, lucid and indispensable teaching and research text, need wait no more. This book is a matchless guide to understanding the theory, practice, development and effects of tourism. Tourism: An Introduction: - equips students with a critical perspective of the central processes of tourism and the relationship between tourism and culture - places tourism at the heart of modern life rather than as a peripheral feature added on after work - illuminates the relationship between tourism and nation formation, citizenship, consumerism and globalization - reveals the ritual, performative and embodied dimensions of tourist experience This book offers readers a major synthesis of modern thought on tourism. It breaks the mould of approaching tourism as a self-contained, compartment of contemporary life and treats it as a major and exciting cultural phenomenon. This is a landmark work in the study of tourism. Adrian Franklin is the editor of the acclaimed journal *Tourist Studies* (SAGE Publications).

My Purpose Is Greater Than My Fears! MARRIE,2017-12-27 *My Purpose Is Greater Than My Fears!* Is about my past experience and current experience with God. Having been born and raised in Church, Ive learned firsthand that not everyone who purports to be Christians conduct themselves in a manner that could be seen as being Christ-like. I turned my back on the church as a teenager due to the relentless attack on my mothers reputation. This was orchestrated not by a stranger, but by my mothers own cousin, a pastors wife. As a result of this, I temporarily lost my faith and turned from the denomination of faith that I was raised in. I was convinced Id never return to church, especially after I gave birth to my beautiful baby girl. I felt the need to protect her from the assassination I had to endure, and the only way I knew how to do this was to avoid church at all costs. I began to run. Little did I know that my running would come to a halt. Little did I know that the very institution I was running from would be the institution where Id learn that my purpose is to help, save, and restore those who are broken. This purpose became so much greater than my fear of being surrounded by those who spread venom out of jealousy. Ive found my purposea purpose that has been bestowed on me by God.
