**CLASH!** Sandra Vavra, Sharon L. Spencer, 2011-09-01 This book offers ideas that secondary teachers, university content faculty, and teacher educators can use to challenge traditional literacy practices and demonstrate creative, innovative ways of incorporating new literacies into the classroom, all within a strong theoretical framework. Teachers are trying to catch up to the new challenges of the twenty-first century. It is a superheroic feat that must be achieved if education is to stay relevant and viable. There is a lot of zip, bam, whap, and wow in the fast-paced, social networking, technological world, but not so much in the often laboriously slow-paced educational world. Where is the balance? How do teachers and students learn together, since one group has seasoned wisdom with limited technological know-how and the other uses all the cool new tools, but not in the service of learning? These are some important issues to consider in finding the balance in an unstable, fast-moving, ever-changing world. This book is practical and useful to literacy teachers, teacher educators, and university faculty by bringing together the expertise of composition/rhetoric researchers and writers, literacy specialists, technology specialists, and teachers who are on the cutting edge of new literacies.

**Moodle 2 for Teaching 7-14 Year Olds Beginner's Guide** Mary Cooch, 2012-01-01 This book is part of Packt's Beginner's Guide series. Written in a friendly tone, the book starts at the very beginning with a blank Moodle page and you are taken step by step through the most useful features of Moodle, helped with many illustrative screenshots. This book is for regular, non-technical teachers of pre-teen or early teenage children. It assumes no prior knowledge of Moodle and no particular expertise on the web. Classroom assistants may also find this book a very useful resource. We will assume that you have an installation of Moodle managed by somebody else, so you are responsible only for creating and delivering course content.

**Moodle For Dummies** Radana Dvorak, 2011-04-12 The fun and friendly guide to the world's most popular online learning management system Modular Object Oriented Dynamic Learning Environment, also known as Moodle, is an online learning management system that creates opportunities for rich interaction between educators and their audience. However, the market has been lacking a simple, easy-to-understand guide that covers all the essentials of Moodle until now. Using straightforward language and an entertaining tone to decipher the intricate world of Moodle, this book provides you with the resources you need to take advantage of all the eLearning and eTraining possibilities that Moodle offers. Offers a hands-on approach to learning Moodle, the revolutionary online learning management system Uses simple language peppered with good humor to break down the complexities of Moodle into easily digested pieces of information Caters to the specific needs of teachers and business trainers by providing the resources they need Moodle For Dummies provides you with the tools you need to acquire a solid understanding of Moodle and start implementing it in your courses.

**Cases on Educational Technology Implementation for Facilitating Learning** Ritzhaupt, Albert D., 2013-03-31 With constant explorative research on educational technologies, it remains important to have a detailed understanding of the implementation of these innovations. Cases on Educational Technology Implementation for Facilitating Learning blends together vital research and advancements on educational technologies into one comprehensive collection; while structuring the information to make it accessible for implementation into the classroom. Academics, professors, and educators will find this casebook especially useful for integrating new aspects of technology into their programs.

**Emerging Research and Trends in Interactivity and the Human-Computer Interface** Blashki, Katherine, 2013-10-31 With a variety of emerging and innovative technologies combined with the active participation of the human element as the major connection between the end user and the digital realm, the pervasiveness of human-computer interfaces is at an all time high. Emerging Research and Trends in Interactivity and the Human-Computer Interface addresses the main issues of interest within the culture and design of interaction between humans and computers. By exploring the emerging aspects of design, development, and implementation of interfaces, this book will be beneficial for academics, HCI developers, HCI enterprise managers, and researchers interested in the progressive relationship of humans and technology.

**Designing Effective Library Tutorials** Lori Mestre, 2012-10-23 Learning styles are highly relevant for students in the online environment. Designing Effective Library Tutorials provides examples of, and steps for, how to create tutorials that match learning styles, based on usability studies of students from various cultural groups and styles of learning. The book presents studies, practical suggestions, and examples to assist librarians and faculty as they develop online programs for students from diverse learning styles. Research on learning style preferences in the online environment emphasizes the need to provide a variety of methods that include text, aural, visual, and kinesthetic examples. Geared for the practitioner working in online learning, the book summarizes current literature, and presents best practices for designing effective online tools for diverse learners, including suggestions for assessment of learning objects. This title is structured into twelve chapters, covering: The learning style debate: do we need to match up learning styles with presentation styles? Overview of learning style theories and learning style results from various studies; The intersection of culture and learning styles; The need for learning object development; Current practice: categories and features of library tutorials; Effective design of learning objects; Pedagogical considerations for tutorials; Interactivity options for tutorials; Assessment of learning objects; The value and process of usability studies; Marketing learning objects for broad visibility; and a section on resources. Provides results from usability studies conducted with students that assess learning style and the resulting effectiveness of tutorials based on their preferred style Compares approaches and software used by librarians and

educators to create tutorials, along with examples of pitfalls and benefits of each for various learning styles Incorporates examples of ways to use software while including learning objects to match learning style

**Better Than Bullet Points** Jane Bozarth,2011-01-07 This book focuses exclusively on the application of PowerPoint to the creation of online training programs. Better than Bullet Points, Creating Engaging e-Learning with PowerPoint fills that gap. By providing in-depth guidance, specific instructions, and helpful exercises, the book will enable training practitioners to create impactful learning interactions in PowerPoint. The author steps readers through the powerful features of this popular desktop application, covering everything from text to art, animation to interactivity. Provided that the reader owns a copy of PowerPoint, this book will immediately put free real-world tools into the hands of those who need it. The information is practical rather than theoretical and immediately applicable. Most importantly, this book will help make e-learning accessible to those who have previously been excluded from taking advantage of the opportunities e-learning can provide. Jane Bozarth is the e-learning coordinator for the North Carolina Office of State Personnel's Human Resource Development Group and has been a training practitioner since 1989. She is a columnist for Training Magazine and has written for numerous publications including Creative Training Techniques Newsletter and the Journal of Educational Technology and Society.

**MindXpres: Conceptual and Technical Foundations for Next Generation Presentation Solutions** Reinout Roels,2019-05-27 Presentation tools such as PowerPoint were initially created to simulate physical slides and have inherited a lot of their limitations. In this dissertation we identify the shortcomings and unmet user needs in presentation software by means of literature study, observations, a survey and the programmatic analysis of over 12000 PowerPoint documents. The results indicate that user needs are slowly evolving while existing software has hardly changed over the last 30 years. We motivate the need to rethink the concept of a presentation and we provide conceptual and technical foundations that can enable interoperable and well-integrated solutions for the identified shortcomings. The resulting MindXpres platform consists of a new conceptual framework, content model, information system and presentation engine. We present MindXpres as a presentation platform that enables researchers and developers to build innovative presentation solutions that cannot be implemented in the existing tools. We further demonstrate the flexibility of the MindXpres platform by discussing a wide range of proof-of-concept plug-in solutions for the identified shortcomings and unmet user needs.

*Training Ain't Performance* Harold D. Stolovitch,ERICA J. Keeps,2004 Training Ain't Performance is a whimsical, entertaining, and solidly written book that takes on the subject of human performance in the workplace. From its first chapter, Show Me the Money, to its concluding chapters, Hit or Myth: Separating Fact from Workplace Performance Fiction, readers are gently guided toward an understanding of human performance improvement and how to use it for real organizational value.

*The Impact of MOOCs on Distance Education in Malaysia and Beyond* Mohamed Ally,Mohamed Amin Embi,Helmi Norman,2019-02-26 This book provides theoretical and empirical discussions around the impact of MOOCs and other pedagogical strategies for online learning in international contexts. Through discussions of inverse blended learning and other teaching and learning approaches, Part I navigates the pressing conceptual issues around global online education. By analyzing the Malaysia MOOC Initiative—the first governmental MOOC project in the world—Part II offers insight into the developmental strategies, learning design, and integrative approaches of these pioneering efforts. Edited by leading scholars in the field of globalized online learning, this volume offers a valuable contribution to research around collaborative initiatives between governments and universities, especially ones dedicated to open and distance education.
