Designing Effective Library Tutorials Lori Mestre,2012-10-23 Learning styles are highly relevant for students in the online environment. Designing Effective Library Tutorials provides examples of, and steps for, how to create tutorials that match learning styles, based on usability studies of students from various cultural groups and styles of learning. The book presents studies, practical suggestions, and examples to assist librarians and faculty as they develop online programs for students from diverse learning styles. Research on learning style preferences in the online environment emphasizes the need to provide a variety of methods that include text, aural, visual, and kinesthetic examples. Geared for the practitioner working in online learning, the book summarizes current literature, and presents best practices for designing effective online tools for diverse learners, including suggestions for assessment of learning objects. This title is structured into twelve chapters, covering: The learning style debate: do we need to match up learning styles with presentation styles? Overview of learning style theories and learning style results from various studies; The intersection of culture and learning styles; The need for learning object development; Current practice: categories and features of library tutorials; Effective design of learning objects; Pedagogical considerations for tutorials; Interactivity options for tutorials; Assessment of learning objects; The value and process of usability studies; Marketing learning objects for broad visibility; and a section on resources. Provides results from usability studies conducted with students that assess learning style and the resulting effectiveness of tutorials based on their preferred style Compares approaches and software used by librarians and educators to create tutorials, along with examples of pitfalls and benefits of each for various learning styles Incorporates examples of ways to use software while including learning objects to match learning style

E-learning Methodologies Beatrice Ghirardini,2011 The E-Learning Methodologies guide will support professionals involved in the design and development of e-learning projects and products. The guide reviews the basic concepts of e-learning with a focus on adult learning, and introduces the various activities and roles involved in an e-learning project. The guide covers methodologies and tips for creating interactive content and for facilitating online learning, as well as some of the technologies used to create and deliver e-learning.

The Visual Slide Revolution Dave Paradi,2008 This book bridges the gap between technical information and presentation skills training to show you how to create persuasive visuals. This allows your presentations to be conversations with your audience instead of a boring recitation of paragraphs of text on the screen. The author walks you through his five step KWICK method and acronym that stands for : Key point, Words that suggest the visual, In context, Crystal clear and Keep focus.

ICOPE 2020 Ryzal Perdana,Gede Eka Putrawan,Sunyono,2021-03-24 We are delighted to introduce the Proceedings of the Second International Conference on Progressive Education (ICOPE) 2020 hosted by the Faculty of Teacher Training and Education, Universitas Lampung, Indonesia, in the heart of the city Bandar Lampung on 16 and 17 October 2020. Due to the COVID-19 pandemic, we took a model of an online organised event via Zoom. The theme of the 2nd ICOPE 2020 was "Exploring the New Era of Education", with various related topics including Science Education, Technology and Learning Innovation, Social and Humanities Education, Education Management, Early Childhood Education, Primary Education, Teacher Professional Development, Curriculum and Instructions, Assessment and Evaluation, and Environmental Education. This conference has invited academics, researchers, teachers, practitioners, and students worldwide to participate and exchange ideas, experiences, and research findings in the field of education to make a better, more efficient, and impactful teaching and learning. This conference was attended by 190 participants and 160 presenters. Four keynote papers were delivered at the conference; the first two papers were delivered by Prof Emeritus Stephen D. Krashen from the University of Southern California, the USA and Prof Dr Bujang Rahman, M.Si. from Universitas Lampung, Indonesia. The second two papers were presented by Prof Dr Habil Andrea Bencsik from the University of Pannonia, Hungary and Dr Hisham bin Dzakiria from Universiti Utara Malaysia, Malaysia. In addition, a total of 160 papers were also presented by registered presenters in the parallel sessions of the conference. The conference represents the efforts of many individuals. Coordination with the steering chairs was essential for the success of the conference. We sincerely appreciate their constant support and guidance. We would also like to express our gratitude to the organising committee members for putting much effort into ensuring the success of the day-to-day operation of the conference and the reviewers for their hard work in reviewing submissions. We also thank the four invited keynote speakers for sharing their insights. Finally, the conference would not be possible without the excellent papers contributed by authors. We thank all authors for their contributions and participation in the 2nd ICOPE 2020. We strongly believe that the 2nd ICOPE 2020 has provided a good forum for academics, researchers, teachers, practitioners, and students to address all aspects of education-related issues in the current educational situation. We feel honoured to serve the best recent scientific knowledge and development in education and hope that these proceedings will furnish scholars from all over the world with an excellent reference book. We also expect that the future ICOPE conference will be more successful and stimulating. Finally, it was with great pleasure that we had the opportunity to host such a conference.

Better Than Bullet Points Jane Bozarth,2011-01-07 This book focuses exclusively on the application of PowerPoint to the creation of online training programs. Better than Bullet Points, Creating Engaging e-Learning with PowerPoint fills that gap. By providing in-depth guidance, specific instructions, and helpful exercises, the book will enable training practitioners to create impactful learning interactions in PowerPoint. The author steps readers through the powerful features of this popular desktop application, covering everything from text to art, animation to interactivity. Provided that the reader owns a copy of PowerPoint, this book will immediately put free real-world tools into the hands of those who need it. The information is practical rather than theoretical and immediately applicable. Most importantly, this book will help make e-learning accessible to those who have previously been excluded from taking advantage of the opportunities e-learning can provide. Jane Bozarth is the e-learning coordinator for the North Carolina Office of State Personnel's Human Resource Development Group and has been a training practitioner since 1989. She is a columnist for Training Magazine and has written for numerous publications including Creative Training Techniques Newsletter and the Journal of Educational Technology and Society.

Integrating Engineering Education and Humanities for Global Intercultural Perspectives Zhanna Anikina,2020-05-06 This book presents papers from the International Conference on Integrating Engineering Education and Humanities for Global Intercultural Perspectives (IEEHGIP 2020), held on 25—27 March 2020. The conference brought

together researchers and practitioners from various disciplines within engineering and humanities to offer a range of perspectives. Focusing on, but not limited to, Content and Language Integrated Learning (CLIL) in Russian education the book will appeal to a wide academic audience seeking ways to initiate positive changes in education.

Convergence of Power Ron Saybel,2009-12-21 While researching material for his new novel, Daniel Porter is pulled into a mystery that could change the world. Coming face to face with pure evil, Daniel must deal with a killer who's as sinister as she is stunning, an opionated reporter with an agenda of her own and an elderly Professor who has knowledge of an ancient society brought back from the dead. In the end, the earth's own power may be it's own undoing.

MindXpres: Conceptual and Technical Foundations for Next Generation Presentation Solutions Reinout Roels,2019-05-27 Presentation tools such as PowerPoint were initially created to simulate physical slides and have inherited a lot of their limitations. In this dissertation we identify the shortcomings and unmet user needs in presentation software by means of literature study, observations, a survey and the programmatic analysis of over 12000 PowerPoint documents. The results indicate that user needs are slowly evolving while existing software has hardly changed over the last 30 years. We motivate the need to rethink the concept of a presentation and we provide conceptual and technical foundations that can enable interoperable and well-integrated solutions for the identified shortcomings. The resulting MindXpres platform consists of a new conceptual framework, content model, information system and presentation engine. We present MindXpres as a presentation platform that enables researchers and developers to build innovative presentation solutions that cannot be implemented in the existing tools. We further demonstrate the flexibility of the MindXpres platform by discussing a wide range of proof-of-concept plug-in solutions for the identified shortcomings and unmet user needs.

AI in Talent Development Margie Meacham,2020-12-15 Creating Transparent AI From agriculture to transportation, entertainment to medicine, and banking to social media, artificial intelligence (AI) is changing how humans do practically everything. We experience AI in our daily lives through our fitness trackers, home digital assistant systems, and curated news services, to name a few examples. For talent development, this is no different. The fields of artificial intelligence and talent development have been on a collision course for decades, and their convergence has already occurred. It has just taken many in our profession some time to recognize this fact. On the horizon, AI-powered innovations are transforming the workplace and the role of the talent development professional, affecting recruiting to training to compensation. As such, there are actions TD professionals should take now to prepare ourselves and our organizations for the evolving AI revolution. In AI in Talent Development, Margie Meacham describes the benefits, uses, and risks of AI technology and offers practical tools to strengthen and enhance learning and performance programs. In layman's terms, Meacham demonstrates how we can free time for ourselves by employing a useful robot "assistant," create a chatbot for specific tasks (such as a new manager bot, a sales coach bot, or new employee onboarding bot), and build personalized coaching tools from AI-processed big data. She concludes each of the six chapters with helpful tips and includes a resource guide with planning tools, templates, and worksheets. Meacham dispels fear of AI's black box—the term used to describe its unknowability and opacity—and points out ways AI can help us be better at creativity and critical thinking, what we humans do best.
