Elegant Fractals Julien Clinton

Sprott, 2018-10-04 Fractals are intricate geometrical forms that contain miniature copies of themselves on ever smaller scales. This colorful book describes methods for producing an endless variety of fractal art using a computer program that searches through millions of equations looking for those few that can produce images having aesthetic appeal. Over a hundred examples of such images are included with a link to the software that produced these images, and can also produce many more similar fractals. The underlying mathematics of the process is also explained in detail. Other books by the author that could be of interest to the reader are *Elegant Chaos: Algebraically Simple Chaotic Flows* (J C Sprott, 2010) and *Elegant Circuits: Simple Chaotic Oscillators* (J C Sprott and W J Thio, 2020).

Fractal Programming in C Roger T. Stevens, 1989

Introduces the mathematical concept of fractals, shows how to create fractal images on the computer, and provides sample programs

The End of Madness Jerry Gregory, 2003-06-05 The human psyche, normally a fortress of strength, is most vulnerable when love dies. The emotionally chilling novellas in *The End of Madness* provide glimpses into the minds of people for whom love stopped existing. *The End of Madness*, the signature story, deals with despair born of David

Reeds obsessive behavior. The story follows the decline of a famous novelist who blurs the line between loving, trusting and dying. When his love affair spins out of control, soaring to a point of no return, the writer plunges an alluring mistress and a loving wife into their own brand of hell. An unexpected twist provides a gripping conclusion to this transatlantic journey into madness. THE VISITOR In The Visitor, a beautiful widow tries desperately to retain her sanity after an encounter with a strange child. Brenda Carters improbable relationship, which slowly intensifies with young Karla Adams, exploits every aspect of her existence. Fear, hope, sadness and incredible discovery highlight four decades in the life of a popular and resolute woman. Unfortunately, her quest for love also falls victim to the indomitable search for truth. Brenda is the perfect protagonist, as Cape Cod is the perfect setting, for this haunting tale that confronts the differences between reality and madness. THE LOCKET A fanaticism born of tragedy leads a popular minister on a bizarre crusade. A respected clergymans mind discovers the darkest corner of despair after his loving wife is tragically killed. Leroy Madisons ability to traverse opposing social structures enables him to perform an inner voices unthinkable mandate. An intellectual debate, raging within a wounded heart, defines this psychological thriller. Forces of good and evil struggle to control a tormented mind, trapped in the cruelest of all placesmadness.

The Arrows of Time Laura Mersini-Houghton, Rudy

Vaas,2012-05-30 The concept of time has fascinated humanity throughout recorded history, and it remains one of the biggest mysteries in science and philosophy. Time is clearly one of the fundamental building blocks of the universe and thus a deeper understanding of nature at a fundamental level also demands a comprehension of time. Furthermore, the origins of the universe are closely intertwined with the puzzle of time: Did time emerge at the Big Bang? Why does the arrow of time 'conspire' with the order of the initial state of the universe? This book addresses many of the most important questions about time: What is time, and is it fundamental or emergent? Why is there such an arrow of time, closely related to the initial state of the universe, and why do the cosmic, thermodynamic and other arrows agree? These issues are discussed here by leading experts, and each offers a new perspective on the debate. Their contributions delve into the most difficult research topic in physics, also describing the latest cutting edge research on the subject. The book also offers readers a comparison between the different outlooks of philosophy, physics and cosmology on the puzzle of time. This volume is intended to be useful for research purposes, but most chapters are also accessible to a more general audience of scientifically educated readers looking for deeper insights.

Valmiki's Ramayana ,2018-04-20 One of India's greatest epics, the Ramayana pervades the country's moral and cultural consciousness. For generations it has served as a bedtime story for Indian children, while at the same time engaging

the interest of philosophers and theologians. Believed to have been composed by Valmiki sometime between the eighth and sixth centuries BCE, the Ramayana tells the tragic and magical story of Rama, the prince of Ayodhya, an incarnation of Lord Visnu, born to rid the earth of the terrible demon Ravana. An idealized heroic tale ending with the inevitable triumph of good over evil, the Ramayana is also an intensely personal story of family relationships, love and loss, duty and honor, of harem intrigue, petty jealousies, and destructive ambitions. All this played out in a universe populated by larger-than-life humans, gods and celestial beings, wondrous animals and terrifying demons. With her magnificent translation and superb introduction, Arshia Sattar has successfully bridged both time and space to bring this ancient classic to modern English readers.

The Reef Juan Villoro, 2017-05-30 A Caribbean resort specializing in faked cartel kidnappings is the site for Villoro's profound and satirical murder mystery. Amidst stagings of guerilla warfare, rumors of killer bees and encroaching cartel activity, recovering ex-rocker, Tony Góngora, attempts to solve the mystery of an American scuba-diver's murder. As he tries to piece together the events of the crime, Tony uncovers his own bizarre and illuminating memories: of a fatherless childhood spent in the high-risk company of his eccentric friend and the hotel's manager; playing gigs with The Velvet Underground; joining a Japanese pop group. Against the backdrop of a deteriorating climate, a fast-

eroding beachfront, official corruption, cartel violence, and delusional Western escapism, Tony and an international cast of hotel staffers make and break alliances as the personal begins to echo the political, and artifice and reality start to blur. With his signature wit, originality, and dashes of dazzling social theory, Villoro has created a biting satire of tourism and a brilliant analogy for Mexico's unique position in global politics.

Liberating Rites Tom F. Driver, 2019-03-13 This book shows how necessary ritual is to human freedom and to social processes of liberation. It aims to reflect upon the deep human longing for ritual and to interpret it in the light of our physical, social, political, sexual, moral, aesthetic, and religious existence. .

The Explicit Body in Performance Rebecca Schneider, 2013-06-17 An in-depth and accessible study of the controversial and often shocking issues which surround the use of the female body in performance art.

Holy Terrors Diana Taylor, Roselyn Costantino, 2003-12-24 DIVTranslations of texts by important Latin American women playwrights, and performance artists, together with essays about their work./div

What It Means to Be 98% Chimpanzee Jonathan Marks, 2003-11 Focusing on the remarkable similarity between chimp and human DNA, the author explores the role of molecular genetics, anthropology, biology, and psychology in the human-ape relationship.

Moira Ferguson, 1998 Examines the work of Sarah Trimmer, Susanna Watts, Elizabeth Heyrick, Anna Sewell, and Frances Power Cobbe.

Curriculum Epistemicide João M.

Paraskeva, 2016-03-10 Around the world, curriculum – hard sciences, social sciences and the humanities – has been dominated and legitimated by prevailing Western Eurocentric Anglophone discourses and practices. Drawing from and within a complex range of epistemological perspectives from the Middle East, Africa, Southern Europe, and Latin America, this volume presents a critical analysis of what the author, influenced by the work of Sousa Santos, coins curriculum epistemicides, a form of Western imperialism used to suppress and eliminate the creation of rival, alternative knowledges in developing countries. This exertion of power denies an education that allows for diverse epistemologies, disciplines, theories, concepts, and experiences. The author outlines the struggle for social justice within the field of curriculum, as well as a basis for introducing an Itinerant Curriculum Theory, highlighting the potential of this new approach for future pedagogical and political praxis.

Buzzing Hemisphere / Rumor Hemisférico Urayoán Noel, 2015-09-24 Is poetry an alternative to or an extension of a globalized language? In Buzzing Hemisphere / Rumor Hemisférico, poet Urayoán Noel maps the spaces between and across languages, cities, and bodies, creating a hemispheric poetics that is both broadly geopolitical and intimately neurological. In this expansive collection, we hear the noise of cities such as New York, San

Juan, and São Paulo abuzz with flickering bodies and the rush of vernaculars as untranslatable as the murmur in the Spanish rumor. Oscillating between baroque textuality and vernacular performance, Noel's bilingual poems experiment with eccentric self-translation, often blurring the line between original and translation as a way to question language hierarchies and allow for translingual experiences. A number of the poems and self-translations here were composed on a smartphone, or else de- and re-composed with a variety of smartphone apps and tools, in an effort to investigate the promise and pitfalls of digital vernaculars. Noel's poetics of performative self-translation operates not only across languages and cultures but also across forms: from the *décima* and the "staircase sonnet" to the collage, the abecedarian poem, and the performance poem. In its playful and irreverent mash-up of voices and poetic traditions from across the Americas, *Buzzing Hemisphere / Rumor Hemisférico* imagines an alternative to the monolingualism of the U.S. literary and political landscape, and proposes a geo-neuro-political performance attuned to damaged or marginalized forms of knowledge, perception, and identity.
