*The Sublime Quran*, 2007 This is the first translation of the Quran by an American woman. It is a universal and inclusive translation with the hope that Islam will be better understood in the West. She also challenges the use of the word to beat in 4: 34 as meaning to go away which is how the Prophet of Islam understood the word as it has historically justified violence against and abuse of Muslim women. This interpretation must change, she says, and revert to the way the Prophet understood it.

**Philosophy in Classical India** Jonardon Ganeri, 2003-09-01 This original work focuses on the rational principles of Indian philosophical theory, rather than the mysticism more usually associated with it. Ganeri explores the philosophical projects of a number of major Indian philosophers and looks into the methods of rational inquiry deployed within these projects. In so doing, he illuminates a network of mutual reference, criticism, influence and response, in which reason is used to call itself into question. This fresh perspective on classical Indian thought unravels new philosophical paradigms, and points towards new applications for the concept of reason.

**“Bouquet of Rasa” & “River of Rasa”** Bhānudatta Mīśra, 2009-03 Bhanu is probably the most famous Sanskrit poet that no one today has ever heard of. His “Bouquet of Rasa” and “River of Rasa,” both composed in the early sixteenth century, probably under the patronage of the Nizam of Ahmadnagar in western India, attracted the attention of the most celebrated commentators in early modern India. Some of the greatest painters of Mewar and Basohli vied to turn his subtle poems into pictures. And his verses were prized by poets everywhere: Abu al-Fazl, the preeminent scholar at Akbar’s court, translated them into Persian, and, Kshetrāyya, the great Andhra poet of the next century, adapted them into Telugu. Many writers have described the types of heroines and heroes of Sanskrit literature (the subject of the “Bouquet of Rasa”) or explained the nature of aesthetic emotion (that of the “River of Rasa”), but none did so in verse of such exquisite and subtle artistry.

**Analysing Muslim Traditions** Nicolet Boekhoff- van der Voort, Sean W. Anthony, 2010 Since its inception, the study of ad th conducted by scholars trained in the Western academic tradition has been marked by sharp methodological debates. A focal issue is the origin and development of traditions on the advent of Islam. Scholars' verdicts on these traditions have ranged from late fabrications without any historical value for the time concerning which the narrations purport to give

information to early, accurately transmitted texts that allow one to reconstruct Islamic origins . Starting from previous contributions to the debate, the studies collected in this volume show that, by careful analysis of their texts and chains of transmission, the history of Muslim traditions can be reconstructed with a high degree of probability and their historicity assessed afresh.

**Parent-Child Relations: A Guide to Raising Children (Revised Edition)** Hisham Altalib ,AbdulHamid Ahmad AbuSulayman ,Omar Hisham Altalib ,2024-03-11 Modern families face challenges unprecedented in human history. The time, attention and vigilance required of parents is exhausting and consuming family life. Parents are required to balance complex schedules, be technology aware, social media informed, constantly monitor children's screen time and media communication, cope with academic problems, shield them from the dangers of immorality, find inventive ways to overcome their boredom, organize extracurricular activities, and handle everything within financially constrained circumstances that increasingly require both to be working. Little wonder that anxiety is on the rise and parents are increasingly fearing for their children's future. The authors in this book attempt to address parents' concerns and equip them with the confidence and tools necessary to work towards understanding and addressing the real needs of both themselves and their children, to nurture the child's character, self-confidence, life skills, moral boundaries, spiritual development and much more. There is no quick-fix. Myths are debunked, and practical tips offered throughout which can be implemented immediately, with fun activities outlined at the end of each chapter with the aim of improving parent-child relationships through bonding, love, patience, openness, respect and communication.
