**Urban Culture in Pre-War Japan** Adam Thorin Croft, 2019-05-13 Politically the 1910s and 1920s were dark days for Japan: economic instability, frequent political assassinations, and increasing violent military interventions at home and overseas affected many. This book explores the literature of the period, showing how it contributed to this overall mood. It focuses on the Tatsukawa Library, an unusual collection of military chronicles based on traditions of popular storytelling found in the yose — a network of small theatrical venues that provided the masses living and working in Japan's major cities with affordable entertainment. Capitalising on local advances in Western-style printing, the series facilitated a 'new wave' of literature that appealed especially to young, marginalised, economically-insecure urban youths. This book discusses how the narrative content of the Tatsukawa Library, which focuses on historical samurai struggling valiantly against adverse circumstances, helped inspire a generation with admiration for violence. This work also examines how this outlook fitted with the Japanese state's reintroduction of imperial propaganda.

**Doing Ethnography in the Wake of the Displacement of Transnational Sex Workers in Yokohama** Ayaka Yoshimizu, 2021-11-23 *Doing Ethnography in the Wake of the Displacement of Transnational Sex Workers in Yokohama* reflects on the politics, poetics, and ethics of remembering the lives of transnational migrant sex workers in postcolonial Japan. Drawing on ethnographic fieldwork in the port city of Yokohama, the book focuses on the “water trade” in the Koganecho neighbourhood where exploitative and stigmatised labour took place, involving sexual services performed by migrant women. In recent years the city has sought to rebrand Koganecho, evicting transnational migrant sex workers who had been integral to postindustrial development and erasing their past presence. The author explores Yokohama’s memoryscapes in the aftermath of displacement through embodied knowledge, engaging

her senses and ethics as a colonizer-researcher as she navigates the elusive past through traces that remain in the present. She examines the city’s built environment, official historical narratives, films, and photographic works. With few brothels and workers remaining, Yoshimizu fills the gap with her own interactions, encounters, and imaginings. Yoshimizu also writes through the imagery of water in ways that are informed by the local usage and imaginations—the ocean, flowing rivers, swamps, humidity, alcohol, the fluidity of relationships, and transient lives. The water also offers a way to sense the “ghost”, or the displaced lives and the effects of displacement, that, like humid air, stick to those who occupy or inhabit the site of displacement today. This interdisciplinary work makes a valuable contribution to sensory studies, memory studies, migration studies, and Asian studies.
