A Companion to Phenomenology and Existentialism Hubert L. Dreyfus, Mark A. Wrathall, 2009-04-20 A Companion to Phenomenology and Existentialism is a complete guide to two of the dominant movements of philosophy in the twentieth century. Written by a team of leading scholars, including Dagfinn Føllesdal, J. N. Mohanty, Robert Solomon, Jean-Luc Marion Highlights the area of overlap between the two movements Features longer essays discussing each of the main schools of thought, shorter essays introducing prominent themes, and problem-oriented chapters Organised topically, around concepts such as temporality, intentionality, death and nihilism Features essays on unusual subjects, such as medicine, the emotions, artificial intelligence, and environmental philosophy

A Companion to Free Will Joseph Keim Campbell, Kristin M. Mickelson, V. Alan White, 2023-06-27 Provides a comprehensive, cutting-edge, and accessible accompaniment to various narratives about free will A Companion to Free Will is an indispensable resource for anyone interested in the philosophy of free will, offering an authoritative survey of perennial issues and contemporary debates within the field. Bringing together the work of a diverse team of established and younger scholars, this well-balanced volume offers innovative perspectives and fresh approaches to the classical compatibility problem, moral and legal responsibility, consciousness in free action, action theory, determinism, logical fatalism, impossibilism, and much more. The Companion's 30 chapters provide general coverage of the discipline as well as an in-depth exploration of both CAP (Classical Analytic Paradigm) and non-CAP perspectives on the problem of free will and the problem of determinism—raising new questions about what the free will debate is, or should be, about. Throughout the book, coverage of modern exchanges between the world's leading philosophers is complemented by incisive commentary, novel insights, and selections that examine compatibilist, libertarian, and denialist viewpoints. Offers a balanced presentation of conflicting theories and ongoing debates about the nature, existence, and implications of free will Explores the role of scientific advances and empirical methods in contributing to discourses on free will and action theory Reviews new developments in longstanding arguments between compatibilist and incompatibilist approaches to free will including those that question this way of framing the debate and critique the standard terminology Discusses descriptive, revisionary, and pragmatic approaches for defining key concepts and addressing compatibility problems surrounding free will Considers various issues of moral responsibility and philosophical approaches to the problem of free will in new ways Part of the acclaimed Blackwell Companions to Philosophy series, A Companion to Free Will is essential reading for undergraduate and graduate students of philosophy, professional philosophers and theorists, and interested novices alike.

A Companion to Europe, 1900 – 1945 Gordon Martel, 2011-03-21 This volume brings together a distinguished group of international scholars to discuss the major debates in the study of early twentieth-century Europe. Brings together contributions from a distinguished group of international scholars. Provides an overview of current thinking on the period. Traces the great political, social and economic upheavals of the time. Illuminates perennial themes, as well as new areas of enquiry. Takes a pan-European approach, highlighting similarities and differences across nations and regions.

**A Companion to Museum Studies** Sharon Macdonald, 2011-08-24 A Companion to Museum Studies captures the multidisciplinary approach to the study of the development, roles, and significance of museums in contemporary society. Collects first-rate original essays by leading figures from a range of disciplines and theoretical stances, including anthropology, art history, history, literature, sociology, cultural studies, and museum studies Examines the complexity of the museum from cultural, political, curatorial, historical and representational

perspectives Covers traditional subjects, such as space, display, buildings, objects and collecting, and more contemporary challenges such as visiting, commerce, community and experimental exhibition forms

**The Routledge Companion to Free Will** Kevin Timpe, Meghan Griffith, Neil Levy, 2016-11-18 Questions concerning free will are intertwined with issues in almost every area of philosophy, from metaphysics to philosophy of mind to moral philosophy, and are also informed by work in different areas of science (principally physics, neuroscience and social psychology). Free will is also a perennial concern of serious thinkers in theology and in non-western traditions. Because free will can be approached from so many different perspectives and has implications for so many debates, a comprehensive survey needs to encompass an enormous range of approaches. This book is the first to draw together leading experts on every aspect of free will, from those who are central to the current philosophical debates, to non-western perspectives, to scientific contributions and to those who know the rich history of the subject. Its 61 chapters, commissioned especially for this volume from the world's leading researchers, are framed by a General Introduction and briefer introductions for each of the six sections. A list of References, an annotated Suggested Reading list, and a short list of Related Topics are included at the end of each chapter.

**The Continuum Companion to Ethics** Christian Miller, 2011-09-29 The Continuum Companion to Ethics offers the definitive guide to a key area of contemporary philosophy. The book covers all the fundamental questions asked by meta-ethics and normative ethical theory. Fourteen specially commissioned essays from an international team of experts reveal where important work continues to be done in the field and, most valuably, the exciting new directions the field is taking. The Companion explores issues pertaining to moral methodology, moral realism, ethical expressivism, constructivism and the error theory, morality and practical reason, moral psychology, morality and religion, consequentialism, Kantian ethics, virtue ethics, feminist ethics, moral particularism, experimental ethics, and biology, evolution, and ethics. Featuring a series of indispensable research tools, including important technical terms in ethics, a historical chronology, an extensive overview of contemporary meta-ethics and normative ethical theory, a detailed list of internet resources for research in ethics, and a thorough list of recommended works for further study, this is the essential reference tool for anyone working in contemporary philosophical ethics.
