Culture Jam Kalle Lasn, 2000-11-07 America is no longer a country but a multimillion-dollar brand, says Kalle Lasn and his fellow culture jammers. The founder of Adbusters magazine, Lasn aims to stop the branding of America by changing the way information flows; the way institutions wield power; the way television stations are run; and the way the food, fashion, automobile, sports, music, and culture industries set agendas. With a courageous and compelling voice, Lasn deconstructs the advertising culture and our fixation on icons and brand names. And he shows how to organize resistance against the power trust that manages the brands by uncooling consumer items, by dermarketing fashions and celebrities, and by breaking the media trance of our TV-addicted age. A powerful manifesto by a leading media activist, Culture Jam lays the foundations for the most significant social movement of the early twenty-first century -- a movement that can change the world and the way we think and live.

Pharmako-AI K Allado-McDowell, 2020-09-28 The first book to be co-written with the language AI GPT-3, exploring selfhood, ecology and technology. During the first summer of the coronavirus pandemic, a diary entry by K Allado-McDowell initiates an experimental conversation with the AI language model GPT-3. Over the course of a fortnight, their exchange rapidly unfolds into a labyrinthine exploration of memory, language and cosmology. The first book to be co-created with the emergent AI, Pharmako-AI takes a hallucinatory journey into selfhood, ecology and intelligence via cyberpunk, ancestry and biosemiotics. Through a writing process akin to musical improvisation, Allado-McDowell and GPT-3 together offer a fractal poetics of AI and a glimpse into the future of literature. Pharmako-AI reimagines cybernetics for a world facing multiple crises, with profound implications for how we see ourselves, nature and technology in the 21st century.

(Re)Defining the Goal Kevin J. Fleming, Ph.d., Ph D Kevin J Fleming, 2016-07-02 How is it possible that both university graduates and unfilled job openings are both at record-breaking highs? Our world has changed. New and emerging occupations in every industry now require a combination of academic knowledge and technical ability. With rising education costs, mounting student debt, fierce competition for jobs, and the oversaturation of some academic majors in the workforce, we need to once again guide students towards personality-aligned careers and not just into college. Extensively researched, (Re)Defining the Goal deconstructs the prevalent one-size-fits-all education agenda. The author provides a fresh perspective, replicable strategies, and outlines six proven steps to help students secure a competitive advantage in the new economy. Gain a new paradigm and the right resources to help students avoid the pitfalls of unemployment, or underemployment, after graduation.

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe.

Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Hurst Equipped Mark Fletcher, Richard Truesdell, 2012 George Hurst was a hot rodder at heart, but he was also a visionary, an innovator, a brilliant promoter, and particularly skilled at building alliances. Hurst developed and marketed a high-performance line of shifters that would lead the industry and be the cornerstone of the company. After forming an alliance with Anco Industries, Hurst marketed and sold more than 100 speed parts, which included shifters, heads, wheels, and many other parts, and eventually the Hurst catalog became the source for high-performance parts in the 1960s and 1970s. Jack Doc Watson joined Hurst and became a pivotal figure within the company, which led to many performance projects with Pontiac. Over the years Hurst was also able to partner with Oldsmobile to build special 442s known as Hurst Olds, AMC with their wickedly effective SC Rambler, and Chrysler, creating a number of Super Stock cars as well as the 300H and one of the most memorable exhibition cars in drag racing history, the Hemi Under Glass. No other company or individual had as big an impact on so many aspects of the automotive industry as George Hurst. His performance parts were some of the best ever, the competition cars won many races, and the muscle cars that bear his name were some of the best of the era. Scores of interviews, in-depth research, and exceptional insight from veteran magazine editor Richard Truesdell and co-author Mark Fletcher has created a great book. *Hurst Equipped* captures the complete story from the production cars and race cars to the performance parts.

Restoring the Promise Richard K. Vedder, 2019 American higher education is increasingly in trouble. Costs are too high, learning is too little, and underemployment abounds post-graduation. Universities are facing an uncertain and unsettling future with free speech suppression, out-of-control Federal student aid programs, soaring administrative costs, and intercollegiate athletics mired in corruption. *Restoring the Promise* explores these issues and exposes the federal government's role in contributing to them. With up-to-date discussions of the most recent developments on university campuses, this book is the most comprehensive assessment of universities in recent years, and one that decidedly rejects conventional wisdom. *Restoring the Promise* is an absolute must-read for those concerned with the future of higher education in America.

New English File Clive Oxenden, 2006

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
