Beyond Enemies Marisa Wolf,2024-02-06 An assignment on a backwater world turns deadly for a combat vet and her AI tank. Military SF with heart and humor from up-and-coming author Marisa Wolf. Sometimes the only way forward is to burn it all down. Talinn Reaze and Bee serve as “Breezy,” part of the United Colonial Force’s elite Artificial Intelligence Troops. Trained for full integration since before Talinn’s birth, they exceeded expectations and became one of the premier heavy tanks, leading assaults on several fronts of the long war against the Interstellar Defense Corps. When they’re thrown to a backwater base without cause, boredom becomes their main enemy—until the world falls out from under their treads and they begin to question everything they’ve ever known. As they orient to their new reality, they have a decision to make: Uphold the status quo, or risk burning civilization to the ground? Talinn and Bee always did have a fondness for fire. Tangier John Hawkins,2024-01-30 In 1661 Portugal ceded Tangier to Charles II as part of Catherine of Braganza's dowry settlement. Thus started the adventure known as 'English Tangier' whereby the Stuart monarch spent a king's ransom defending a city perched precariously on the North African coast surrounded by hostile powers. Woven into the historical fabric of C17th, this is a compelling narrative history bringing to life the characters that comprised English Tangier, and the greed, ambition and religious fervour which drove the political manoeuvrings, ignited the emotions and produced acts of extreme heroism in the struggle to impose British rule on an alien culture. The book describes the surreal reality of life in Tangier, the Tangier Regiment, the developing army tradition of dashing gallantry and unselfish bravery, and other regiments holding the earliest battle honor - 'Tangier'. It also highlights the actions of those who determined the development of the town and its eventual fate. We see the results of decisions made by Charles II and his brother the Duke of York (soon to be James II), the qaids and sultans of Morocco, the Spanish Duke of Medina, Samuel Pepys and the successive governors of Tangier.
