**In a Different Key** John Joseph Donovan, Caren Brenda Zucker, 2016 Many others played starring roles too: doctors like Leo Kanner, who pioneered our understanding of autism; lawyers like Tom Gilhool, who took the families' battle for education to the courtroom; scientists who sparred over how to treat autism; and those with autism, like Temple Grandin, Alex Plank, and Ari Ne'eman, who explained their inner worlds and championed the philosophy of neurodiversity. This is also a story of fierce controversies--from the question of whether there is truly an autism epidemic, and whether vaccines played a part in it; to scandals involving facilitated communication, one of many treatments that have proved to be blind alleys; to stark disagreements about whether scientists should pursue a cure for autism.

**Jonson, Horace and the Classical Tradition** Victoria Moul, 2010-04-01 The influence of the Roman poet Horace on Ben Jonson has often been acknowledged, but never fully explored. Discussing Jonson's Horatianism in detail, this study also places Jonson's densely intertextual relationship with Horace's Latin text within the broader context of his complex negotiations with a range of other 'rivals' to the Horatian model including Pindar, Seneca, Juvenal and Martial. The new reading of Jonson's classicism that emerges is one founded not upon static imitation, but rather a lively dialogue between competing models - an allusive mode that extends into the seventeenth-century reception of Jonson himself as a latter-day 'Horace'. In the course of this analysis, the book provides fresh readings of many of Jonson's best-known poems - including 'Inviting a Friend to Dinner' and 'To Penshurst' - as well as a new perspective on many lesser-known pieces, and a range of unpublished manuscript material.

*The Bright Side of Shame* Claude-Hélène Mayer, Elisabeth Vanderheiden, 2019-04-25 This book provides new ideas on how to work with and constructively transform shame on a theoretical and practical level, and in various socio-cultural contexts and professions. It provides practical guidelines on dealing with shame on the basis of reflection, counselling models, exercises, simulations, specific psychotherapeutic approaches, and auto-didactical learning material, so as to transform shame from a negatively experienced emotion into a mental health resource. The book challenges theorists to adopt an interdisciplinary stance and to think "outside the box." Further, it provides practitioners, such as coaches, counsellors, therapists, trainers and medical personnel, with practical tools for transforming negative experiences and emotions. In brief, the book shows practitioners how to unlock the growth potential of individuals, teams, and organisations, allowing them to develop constructively and positively.
