**Intellectual Property Law of Canada - Second Edition** Stuart C. McCormack, 2010-10-01 This treatise on Canadian intellectual property law, written by members of the I.P. practice group of Stikeman, Elliott, is a comprehensive source for answering many of the I.P. questions that arise for both lawyers and corporate counsel. With technologies and new ideas driving today's economy as never before, intellectual property is a key factor in business success. While intellectual property is especially vital for

knowledge-based industries, its importance cuts across sectors as well as national boundaries. To meet this challenge, Stikeman, Elliott takes a multi-disciplinary approach to the practice. Their team comprises dynamic and highly creative professionals, including intellectual property, corporate and international trade lawyers, who bring a wide range of training and experience to every transaction. This expertise has been critical to businesses throughout Canada and around the world who want to preserve, protect and exploit their intellectual property to the fullest while reducing the risks of jeopardizing their intellectual property assets. In addition to this work being an eminently practical reference source, it also provides insightful practice commentaries and detailed analysis of all major intellectual property law subjects. In sum, the Intellectual Property Law of Canada is a publication that anyone with Canadian I.P. interests or questions should not be without.

Beyond the Screen Sarah Atkinson,2014-04-17 Runner-up for the British Association of Film, Television and Screen Studies Best Book Prize 2015 Beyond the Screen presents an expanded conceptualization of cinema which encompasses the myriad ways film can be experienced in a digitally networked society where the auditorium is now just one location amongst many in which audiences can encounter and engage with films. The book includes considerations of mobile, web, social media and live cinema through numerous examples

and case studies of recent and near-future developments. Through analyses of narrative, text, process, apparatus and audience this book traces the metamorphosis of an emerging cinema and maps the new spaces of spectatorship which are currently challenging what it means to be cinematic in a digitally networked era.
