Dewey and the Behavioristic Context of Ethics Donald Morris,1996 Dr. Morris's monograph presents an examination of the constraints placed upon ethical theory by certain aspects of contemporary psychological theory, specifically behaviorism. These constraints were outlined in many of the writings of John Dewey. The present text culls and organizes Dewey's thoughts regarding this issue. It traces the development of Dewey's thoughts regarding the interrelations between ethics and psychology from his early papers to his last works.

The Ghost in Me Shaunda Kennedy Wenger,2011 The Ghost in Me, where GHOST ADVENTURES meets FREAKY FRIDAY...Myri Monaco has problems she doesn't know how to deal with: a crush on her best friend's boyfriend, a mother who's dating her science teacher, and a punishment for a science project that lands her in auditions for the school play (the last place she wants to be). But most girls don't have a ghost living at home who is willing to trade places whenever she's needed. Will ghostly possession be an easy solution when problems collide? Or, will Myri lose everything to a ghost wanting to fulfill her own desires?

A Crack in the Night, Teacher's Edition Marcy Skinner,2010-06 Tanner hears a crack in the night and uses the scientific process to conduct his own experiment and discover the source of the sound. Teachers in 3rd to 6th grade classrooms will find the perfect tool for introducing the nature of science and science processes; demonstrate science concepts; address the importance of creativity and imagination in scientific work; act as a catalyst for science discussions; encouraging the use of the outdoors for science investigation.
