Super Easy Keyboard for Kids. Learn How to Transpose: Learn to Play 22 Simple Songs in Different Keys Helen Winter, This book is for kids or adults who are absolute beginners in music. We tried to write it as simply as possible. We use an “easy-to-play” visual aid so any beginner can play music quickly. Neither kids nor their parents have to read sheet music or have a musical background. No previous knowledge is necessary. Every song has a large and simple, letter-coded visual, along with traditional sheet music. The instruction is designed so that children begin with simple circles and gradually advance to reading notes using sheet music. We try to make this transition as easy as a game, where children advance to higher levels themselves. There is a total of 22 songs and 2 options to help children to begin to play right away. PLAYING BY LETTER CIRCLE PLAY WITH THE MUSICAL STAFF The player can first follow the circles and then repeat with the classic note symbols and staff. The helpful letters are always above the notes. There are 3 parts in this book. They are equal to 3 levels. Level 1. Songs that are played in one octave. All songs here appear twice: once written with circles and the next time with classic music notes. This will help kids remember the staff notes. For example: Mary Had a Little Lamb - Ver 1 - CIRCLES Mary Had a Little Lamb - Ver 1 - NOTES Level 2 In this part, you will find one version with both circles and notes and a more advanced version of the song with notes and musical notation. For example: Hot Cross Buns - Version 1 - CIRCLES Hot Cross Buns - Version 1 - NOTES Hot Cross Buns - Version 2 - NOTES (Here the player will play songs in a different key and learn how to transpose.) Generally, the version of the song written with sheet music is a little bit more complex than a letter-coded version. Such versions already have music notations such as rests or beams, etc. You can find an illustrated explanation of the notation at the end of this book. Level 3 Here, the first two songs are versions of the same melody (different combinations of notes) written with circles and notes. This is important so that the beginner can see how the same melody can be played in different keys. First of all, this book is addressed to newcomers to any keyboard instrument (such as Piano or Synthesizer). We offer 22 one-hand piano songs. Also, it is a perfect self-training guide for children and beginner adults to mastering the challenges of percussion instruments such as xylophone, glockenspiel, melodica, or recorder. Additionally, you find funny riddles with engaging activities to teach musical notes and symbols. 60 Handel Overtures Arranged for Solo Keyboard George Frideric Handel,1993-01-01 The dramatic overture had its beginnings in Renaissance court entertainments, which often began with a flourish of trumpets. It reached a high point of inspiration in the overtures that George Frideric Handel (1685 1759) composed for his operas and oratorios. This volume presents 60 Handel overtures and sinfonias, originally scored for orchestra, superbly arranged for solo keyboard. They have been reprinted from an extremely rare edition originally printed, probably in the 1750s, by Handel's London publisher, John Walsh. Happily, these brilliant works have lost nothing in translation of their Handelian vitality and interest. Many of them, such as the overtures to Messiah, Acis and Galatea, Alexander s Feast, Julius Caesar, the second overture in Solomon (known as the Arrival of the Queen of Sheba), and the so-called Water Musick, are very familiar to music lovers. Some will be fresh discoveries for keyboard players. Together they demonstrate Handel s exciting theatrical sense, his technical virtuosity in composition, and his dazzling mastery of musical forms, which he often combined into his own unique creations. This edition preserves the original keyboard notation, amazingly precise in its elegant execution and, of course, entirely legible to present-day performers.

Jingle On! 24 Easy-to-Play Color Songs for Bell Set Helen Winter, This book was written to help absolute beginners, whether kids or adults, learn to play in a simple and easy way that requires no knowledge of reading music.If you are a beginner, playing by note can be difficult. It is easier to follow color-coded circles with note letters. Just by following the color circles, you will sound like an experienced musician. Playing music can be as simple and enjoyable as a game. That is our goal: to give you what’s necessary to play beautiful music while having fun. We recommend the color bell set and 8-15 note color glockenspiel for your child’s first musical experience. There are 2 instruments that are best for beginners and most solfeggio teachers advise that it’s better to begin not with a piano, but with a simpler and more accessible instrument. There are 3 levels in this Bell's book. Level 1: Play by color circle. Each song here is written with color circles and letter notes inside. The circles are grouped by rhythm. The duration of the whole, dotted half, and half notes are depicted by the arches after the circles (2, 3, or 4 beats). The songs here are very familiar and simple. Level 2: Get acquainted with the musical staff. Learn the places of each note on a staff. No note durations (note length) here. Level 3: Play by classic note on a musical staff. Here is the “adult” musical notation: clef, duration, rests and connection of the notes, but the helpful color circles and letters are still above the notes. Each song was adapted for the newbie - just 8 notes (one octave). At the end of the book, you will also find simple puzzles that will make reading notes easier. Attention: Songs have been transposed for a DIATONIC range. Some melodies might be changed and simplified. If you have flat keys on your instrument, please use the classic music score for the piano.
