**Flight Simulation Software** David Allerton, 2023-02-28 Flight Simulation Software comprehensively covers many aspects of flight simulation; from software design to flight control systems, navigation systems and visual systems. It provides working software taken from flight simulators and demonstrates a variety of different systems that can be used in flight simulation. Delving into software design, programming languages, computer graphics and parallel processing, this book is detailed and covers a wide range of topics for flight simulation software. The author—a noted expert on the topic—uniquely presents flight control systems and displays, allowing readers a fresh outlook on how they view aspects of flight simulation. Written for engineers in industry and senior undergraduate/graduate students, Flight Simulation Software provides the basis of teaching across several disciplines, making this accessible for a wide audience.

**Become an App Inventor: The Official Guide from MIT App Inventor** Karen Lang, Selim Tezel, MIT App Inventor Project, MIT Computer Science and Artificial Intelligence Laboratory, 2022-02-22 With a foreword by Gitanjali Rao, Time Magazine's inaugural Kid of the Year, this engaging guide from MIT Press teaches anyone to design and publish their own apps—no experience necessary!—and introduces young app creators from around the world. Have you ever wanted to build your own mobile apps? App Inventor, a free and revolutionary online program from MIT, lets you do just that. With the help of this companion guide chock-full of colorful graphics and easy-to-follow instructions, readers can learn how to create six different apps, including a working piano, a maze game, and even their own chat app to communicate with friends—then use what they've learned to build apps of their own imagination. User-friendly code blocks that snap together allow even beginners to quickly create working apps. Readers will also learn about young inventors already using their own apps to make a difference in their communities, such as the girls from Moldova whose app helps alert residents when local well water is contaminated. Or the boys from Malden, Massachusetts, whose app lets users geotag potholes to alert city hall when repairs are needed. With this inspiring guide, curious young dreamers can become real inventors with real-world impact.
