A Dictionary of the World's Watercraft ,2001 For nearly all of human history the coasts and oceans, and rivers and lakes have offered paths for exploration, settings for warfare, routes for commerce and colonialism and, of course, sources for food. And for all these activities an incredible variety of indigenous watercraft have been fashioned by sailors and fishermen and shipwrights. Aak to Zumbra surveys them all and contains descriptions of form and function, means of propulsion, crew size, particular design features, as well as notes on construction methods and materials. There are thousands of cross-references, starred for easy reference, with vernacular and specialised terms. Also included are little-known, rare and extinct types, notes on cultural traditions, along with a reading list and a geographical index.

Loan-Words in Indonesian and Malay Russell Jones, This impressive book is the result of decades of meticulous scholarly work by various specialists with an intimate knowledge of Indonesian, Malay and the foreign languages that provided so many loan-words for Indonesian and Malay. For about 20,000 words the original donor language is given, such as Sanskrit, Arabic, Persian, Chinese, Portuguese, Dutch and English. For all lovers of Indonesian and Malay this book is essential reading that will continue to amaze and enrich you. Loan-words in Indonesian and Malay contains a tremendous wealth of information and is admirable as a consolidated reference work compiled with great precision, and indispensable for anyone interested in the subject.

Photoelectron and Auger Spectroscopy Thomas Carlson, 2013-11-11 In 1970 when I first seriously contemplated writing a book on electron spectroscopy, I recognized the impossibility of completely reaching my desired goals. First, the field was expanding (and still is) at such a rate that a definitive statement of the subject is not possible. The act of following the literature comprehensively and summarizing its essential content proved to be a divergent series. On the other hand, the field has increased to such a size that violent changes in its basic makeup no longer occur with the frequency that was present in its early days. Furthermore, the excitement of electron spectroscopy lies in its many-faceted interrelationships. In the era of specialization, electron spectroscopy is an open-ended subject continually bringing together new aspects of science. I wished to discuss not just one type of electron spectroscopy, but as many as would be possible. The book as it stands concentrates its attention on x-ray photoelectron spectroscopy, but also presents the basis of Auger electron spectroscopy and uv photoelectron spectroscopy, as well as mentioning many of the other branches of the field. A large, many-author volume might be an answer to some of these problems. However, though anyone person possesses only a limited amount of expertise, I have always enjoyed books by a single author since what they lack in detailed knowledge they gain in a unified viewpoint. I hope the final product, though limited in its attainment of these goals, will still be of some merit.

The Oxford Encyclopedia of Food and Drink in America Andrew Smith, 2013-01-31 Home cooks and gourmets, chefs and restaurateurs, epicures, and simple food lovers of all stripes will delight in this smorgasbord of the history and culture of food and drink. Professor of Culinary History Andrew Smith and nearly 200 authors bring together in 770 entries the scholarship on wide-ranging topics

from airline and funeral food to fad diets and fast food; drinks like lemonade, Kool-Aid, and Tang; foodstuffs like Jell-O, Twinkies, and Spam; and Dagwood, hoagie, and Sloppy Joe sandwiches.

The Lion and the Gadfly Paul van der Veur, 2021-12-28 This political biography reveals the turbulent life of Ernest François Eugène Douwes Dekker, son of a Dutch father and a German-Javanese mother, born on Java in 1879. Vignettes flow in novel-like fashion from the battle fields of South Africa and internment camp in Sri Lanka to a career in journalism in Java. Radical thoughts then enter Douwes Dekker's mind, such as demands for racial equality and national independence. These made him write presciently that this road might take him to the executioner's hand or to the victory of revolution. In exile from 1913 on, his bravado allowed him to enter a doctoral program at the University of Zurich but also to entanglement with Indian revolutionaries operating from Berlin. Returning to Java at the end of World War I, he once again propagated the virtues of nationalism, but soon was forced to relinquish his efforts and start a teaching career. Even here constant surveillance and eventual internment in Surinam were his lot. Within a decade, the Republic of Indonesia had been proclaimed and Douwes Dekker emerged to acclaim as a close friend and political adviser to President Soekarno.

An Etymological Dictionary of Modern English, Vol. 2 Ernest Weekley, 2012-07-18 The compiler of this dictionary of word and phrase origins and history was not only a linguist and a philologist but also a man of culture and wit. When he turned his attention, therefore, to the creation of an etymological dictionary for both specialists and non-specialists, the result was easily the finest such work ever prepared. Weekley's Dictionary is a work of thorough scholarship. It contains one of the largest lists of words and phrases to be found in any singly etymological dictionary — and considerably more material than in the standard concise edition, with fuller quotes and historical discussions. Included are most of the more common words used in English as well as slang, archaic words, such formulas as I. O. U., made-up words (such as Carroll's Jabberwock), words coined from proper nouns, and so on. In each case, roots in Anglo-Saxon, Old Norse, Greek or Latin, Old and modern French, Anglo-Indian, etc., are identified; in hundreds of cases, especially odd or amusing listings, earliest known usage is mentioned and sense is indicated in quotations from Dickens, Shakespeare, Chaucer, Piers Plowman, Defoe, O. Henry, Spenser, Byron, Kipling, and so on, and from contemporary newspapers, translations of the Bible, and dozens of foreign-language authors.
